HAMILTON SAFE GROUP 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Hamilton Safe Group (“Company”) 401(k) Plan (“Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

1. General

The Plan was established and was effective January 1, 2013. The Plan is a defined contribution plan merging the assets of Hamilton Security Products Co. Profit Sharing Plan; Hamilton Systems, Inc. Profit Sharing Plan; A/W Industries, Inc. Profit Sharing Plan; Hamilton Air Products Profit Sharing Plan; Hamilton Products Group Profit Sharing Plan; Hamilton Safe Company Profit Sharing Plan; and K/H Enterprises, Inc. Profit Sharing Plan. As a result of the merger of these plans, approximately \$19.7 million of assets were transferred into the Plan during 2013. On January 2, 2014, the Plan was amended to allow the transfer of the account balances of the Gunnebo Entrance Control, Inc. 401(k) Plan into the Plan. On January 2, 2014, approximately \$1 million of assets were transferred into the Plan. The Plan covers all full-time employees of the Company who have 90 days of service and are age nineteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan, determines the appropriateness of the Plan’s investment offerings, and monitors investment performance.

2. Contributions

Each participant may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan on a pre-tax basis as an elective deferral. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 3% of eligible compensation. Contributions are subject to certain statutory limitations.

The Plan is a “safe harbor 401(k) plan”. The Company contribution will be made in an amount equal to 3% of each participant’s compensation. This contribution is 100% vested at all times.

The Company may also make additional discretionary non-elective contributions to the Plan. These contributions are determined annually at the discretion of the Company’s management. The Company made no discretionary non-elective contributions during 2014 and 2013.

Participants may roll over balances accumulated in other qualified plans.

HAMILTON SAFE GROUP 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2014 and 2013

NOTE A - DESCRIPTION OF THE PLAN (Continued)

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's safe harbor contribution, discretionary non-elective contribution and an allocation of plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Investment Options

Participants may direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a common/collective trust as investment options for participants.

5. Vesting

Participants are immediately vested in their contributions, safe harbor contributions, rollover contributions, plus actual earnings thereon.

Vesting in the Company's non-elective contributions is based on years of continuous service. A participant is fully vested after six years of credited service.

6. Payment of Benefits

Participants may withdraw their contribution, safe harbor contribution and the vested portion of non-elective contribution upon hardship, retirement, the attainment of age 59½, termination of service, disability, or death. In the event of a participant's death, payment will be made to designated beneficiaries. In general, severance distribution timing is in the second plan year following severance from employment, unless the participant is age 55 or older or disabled.

7. Forfeited Accounts

In accordance with the plan document, forfeitures are first used to pay plan expenses, and then allocated to participants. Forfeited non-vested accounts totaled \$58,322 and \$30,391 at December 31, 2014 and 2013, respectively.

8. Notes Receivable from Participants

The Plan does not permit participant loans. However, the Gunnebo Entrance Control, Inc. 401(k) Plan had allowed participant loans. The Plan allowed for these loans to be transferred in and participants with outstanding loan balances continue to make loan payments to the Plan under the terms of the previous loan agreements with Gunnebo Entrance Control, Inc. 401(k) Plan.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

8. Notes Receivable from Participants (Continued)

The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.25%, which were commensurate with local prevailing rates as determined by the plan administrator upon the date of the loan application. Principal and interest is paid ratably through payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statement of Net Assets Available for Benefits presents the contract value of the trust which approximates the fair value of the trust. The Statement of Changes in Net Assets Available for Benefits is prepared using contract value for the fully benefit-responsive investment contract.

2. Investment Valuation & Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies. See Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Payment of Benefits

Benefits are recorded when paid.

5. Administrative Expenses

All costs and expenses of administering the Plan are payable by the Plan if not paid by the Company. Most administrative expenses of the Plan were paid by Plan during 2014 and 2013.

6. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. As of December 31, 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the plan document.

NOTE C - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of plan termination, participants would become 100% vested in their accounts.

NOTE D - TAX STATUS

The volume submitter plan sponsor has obtained an opinion letter dated January 1, 2009, in which the IRS stated that the plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

NOTE G - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of common/collective trust is based on the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no restrictions on redemptions from this fund. The fair value of the investment contract approximates contract value.

The Goldman Sachs Stable Value Collective Trust (the Fund) invests in stable value investment contracts and in fixed income instruments which underlie stable value contracts as well as in money market instruments. The Fund is designed to earn current income and preserve capital and stability of principal. The issuer of the contract agrees to make payments representing redemptions from the Fund for participant-initiated benefit payments at the contract value (fully benefit-responsive).

NOTE G - FAIR VALUE MEASUREMENTS (Continued)

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The yield earned by the Fund at December 31, 2014 was 1.32%. This represents the annualized earnings of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the Fund at December 31, 2014. The December 31, 2013 yield was not available for the Fund.

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2014 was 1.35%. This represents the annualized earnings credited to participants in the Fund divided by the fair value of all investments in the Fund at December 31, 2014. The December 31, 2013 yield was not available for the Fund.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013:

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

As described in Note B-5, the Plan made direct payments to the audit firm, the trustee and the third party administrator for various services which amounted to \$87,271 and \$19,562 for the years ended December 31, 2014 and 2013, respectively. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE J - DATE OF MANAGEMENT'S REVIEW AND SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 9, 2015, which is the date on which the financial statements were available to be issued.

No other subsequent events were identified that would require an adjustment to or disclosure in the accompanying financial statements.
