NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN:

The following description of the Peryam & Kroll (Peryam & Kroll) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all full-time employees of Peryam & Kroll who have one year of service and are twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions. Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan, up to $17,500. Participants over 50 years of age may elect to contribute an additional $5,500 in accordance with Internal Revenue Service regulations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Peryam & Kroll may contribute a discretionary percentage of each participant's elective deferral contributions and may make additional discretionary contributions. Peryam & Kroll made no contributions in 2014 and 2013.

3. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) Peryam & Kroll's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Peryam & Kroll's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on continuous years of service. A participant is 100 percent vested after three years of credited service.

5. Investment Options. Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment options with differing investment strategies. Participants may change their investment options at any time.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN: (continued)

6. Notes Receivable from Participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000 reduced by the highest outstanding loan balance in their account during the prior twelve month period. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

7. Payment of Benefits. Upon termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

8. Forfeited Accounts. Forfeited nonvested accounts may first be used to reduce Plan expenses and any remaining forfeitures will reduce future employer contributions. Forfeited nonvested accounts totaled $10,711 and $14,972 at December 31, 2014 and 2013, respectively, available to reduce future employer contribution or plan expenses.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting:
The Plan's financial statements are prepared using the accrual method of accounting.

Estimates:
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition:
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES: (continued)

Investment Valuation and Income Recognition: (continued)
Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Mutual fund gains, net, include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants:
Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Related expenses are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the loan is deemed to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses:
Peryam & Kroll absorbs the significant administrative expenses of the Plan.

Payment of Benefits:
Benefits are recorded when paid.

NOTE 3 - FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

1. Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

NOTE 3 - FAIR VALUE MEASUREMENTS: (continued)

2. Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

3. Level 2: Inputs to the valuation methodology include:
   - quoted prices for similar assets or liabilities in active markets;
   - quoted prices for identical or similar assets or liabilities in inactive markets;
   - inputs other than quoted prices that are observable for the assets or liability;
   - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

   If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

4. Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds:

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 3 - FAIR VALUE MEASUREMENTS: (continued)

Stable Value Investment Contract:

The stable value investment contract is a common/collective trust and is valued at contract value, as determined by the managers of the trust. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements Using:	
	Total Value	Level 1	Level 2
December 31, 2014			
Mutual funds	$3,810,607	$3,810,607	$ 0
Money market fund	67,788	67,788	0
Stable value investment contract	122,192	0	122,192
Total	$4,000,587	$3,878,395	$122,192
December 31, 2013			
Mutual funds	$3,815,493	$3,815,493	$ 0
Money market fund	64,263	64,263	0
Stable value investment contract	122,549	0	122,549
Total	$4,002,305	$3,879,756	$122,549

NOTE 4 - INVESTMENTS:

The Plan's investment trustee certified that the amounts included in investments at fair value, interest and dividend income, mutual fund gains (losses), net, in the accompanying financial statements and supplementary schedule of assets held for investment are complete and accurate.

NOTE 4 - INVESTMENTS: (continued)

The following are investments that represent five percent or more of the Plan's net assets:

	December 31, 2014	December 31, 2013
FA Balanced T	$377,151	$323,495
FA Dividend Growth T	1,747,264	1,540,357
FA Divers International T	322,381	315,714
FA Freedom 2020 A	-	368,029
Invs Comstock R	342,023	298,143

NOTE 5 - STABLE VALUE INVESTMENT CONTRACT:

The Plan has a fully benefit-responsive stable value investment contract with its investment trustee. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the stable value investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value investment contract. The stable value investment contract is presented on the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the investment trustee, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2014 and 2013 was $120,061 and $120,216, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and is reviewed periodically for resetting.

NOTE 5 - STABLE VALUE INVESTMENT CONTRACT: (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The stable value investment contract does not permit the investment trustee to terminate the agreement prior to the scheduled maturity date.

The average annual yields earned by the stable value investment contract are as follows:

Average yields:	2014	2013
Based on actual earnings	1.69%	1.70%
Based on interest rate credited to participants	1.06%	0.92%

NOTE 6 - RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of mutual funds managed by the investment trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the investment trustee for the investment management services were $6,190 and $1,201 for the years ended December 31, 2014 and 2013, respectively.

NOTE 7 - PLAN TERMINATION:

Although it has not expressed any intent to do so, Peryam & Kroll has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

NOTE 8 - TAX STATUS:

The Internal Revenue Service has determined and informed Peryam & Kroll that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 9 - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - DELINQUENT CONTRIBUTIONS:

For the year ended December 31, 2014, certain participant contributions totaling $44,597 were not remitted timely in accordance with Department of Labor guidelines. Management is currently in the process of correcting the delinquent contributions.
