1. Description of Plan

The following description of the Preferred Hotel Group 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all U.S. employees of Preferred Hotel Group, Inc. (the "Company") who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Each payroll period, the Company will make a matching contribution equal to 50 percent of the first 5 percent of base compensation that a participant contributes to the Plan. Each year, the Company may also make a discretionary employer matching contribution to the Plan. Such contribution will be allocated to participants based upon their pre-tax annual compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. For Company contributions, a participant becomes 20% vested after completion of one year of credited service (as defined) and continues to vest 20% annually until 100% vesting is attained after five years of credited service.

Investment Options and Participant-Directed Investments

The Company administers the Plan. Fidelity Management Trust Company ("Trustee") is the trustee and record keeper of the Plan.

Participants self-direct the investment of their accounts into registered investment company funds and a money market fund offered by the Plan with the option to reallocate account balances on a daily basis. The investment election will apply to both employee and employer contributions. Earnings shall be allocated in the ratio that a participant's account balance invested in a fund bears to the total of all account balances invested in that fund.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested interest in the plan. The loans are secured by the balance in the participant's account and shall bear interest which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. At December 31, 2014 and 2013, interest rates on participant loans ranged from 3.25% to 4.25% and 3.25% to 5% respectively.

Payment of Benefits
Upon attainment of age 59-1/2, participants may withdraw all or a portion of the vested portion of their accounts without penalty at any time. Upon termination of service due to retirement, death, or disability, participants may receive the vested balance in their account. Vested balances less than $5,000 are automatically distributed after employment is terminated as a lump-sum distribution. Vested balances greater than $5,000 are distributed, upon election by the participant, as a lump-sum or rollover distribution.

Forfeitures
Forfeitures will be used to reduce employer contributions. Forfeitures for the year ended December 31, 2014 and 2013 totaled $13,910 and $25,641, respectively. Forfeitures used to reduce employer contributions for the year ended December 31, 2014 were $13,800. Unallocated forfeitures in the Plan at December 31, 2014 and 2013 were $115 and $6, respectively.

Administrative Expenses
All administrative expenses related to the Plan are paid by the Company, with the exception of investment fees, which are included in the cost of investments, and loan processing fees, which are paid by the participant.

Recent Accounting Pronouncements
In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12 "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)" ("ASU 2015-12"). The amendments in Part I of ASU 2015-12 eliminated the requirements that employee benefit plans measure the fair value of fully benefit-responsive investment contracts and provide the related fair value disclosures, rather these contracts will be measured and disclosed only at contract value. The amendments in Part II of this ASU will require plans to disaggregate their investments measured using fair value only by general type, either on the face of the financial statements or in the notes. Part II of this ASU also eliminated the requirement to disclose the net appreciation/depreciation in fair value of investments by general type and the requirement to disclose individual investments that represent 5% or more of net assets available for benefits. The amendments in Part III of ASU 2015-12 provides a practical expedient to permit a plan to measure its investments and investment related accounts as of a month-end date closest to its fiscal year for a plan with a fiscal year end that does not coincide with the end of a calendar month. The amendments in this ASU are effective for reporting periods beginning after December 15, 2015, with early adoption permitted. Management is currently assessing the impact the adoption of ASU 2015-12 will have on its financial statements.

In May 2015, the FASB issued ASU No. 2015-07, "Fair Value Measurement (Topic 820)". The amendments in ASU 2015-07 provide guidance for investments for which their fair value is measured at net asset value (or its equivalent) and removes the requirement to categorize these investments within the fair value hierarchy. The amendments in ASU 2015-07 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Application of these amendments requires retrospective application for all periods presented. The Plan has determined that the amendments in ASU 2015-07 do not have a material impact on its financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting
The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Investment Income
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investments

The following table presents individual participant directed investment options that represent 5% or more of the Plan's net assets as of December 31, 2014 and 2013:

	2014		2013
Registered investment companies			
FA Freedom 2035 A	$1,135,388		$1,273,530
FA Freedom 2015 A	1,002,432		869,934
FA Freedom 2030 A	963,573		861,492
FA Freedom 2025 A	780,484		934,794
FA Freedom 2045 A	657,686		536,363
FA Freedom 2040 A	517,566	**	500,642

** For comparative purposes

During 2014, the Plan's investments, made up entirely of readily-marketable mutual and money market funds, (including gains and losses on investments bought and sold, as well as held during the year), depreciated in value by $242,388.

4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Companies and Money Market Funds
Valued at closing price reported on the active market on which the individual securities are traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

5. Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company; therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan document provides for participant loans, which also qualify as party-in-interest transactions.

6. Tax Status

The Plan is a Non-Standardized 401(k) Profit-Sharing Plan with a deferral arrangement that received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008 which stated that the Plan is designed in accordance with applicable sections of the Internal

Revenue Code (IRC). The Plan has not requested its own determination letter from the IRS. Therefore, the Plan administrator believes that the Plan is qualified and that the related trust is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Termination of Plan

The Company believes the Plan will continue without interruption; however, it has the right to amend or terminate the Plan at any time (subject to the provisions of ERISA). Should the Plan be terminated, Plan assets, after allowances for expenses of administration or liquidation, are to be allocated proportionately to each participant based on the net aggregate value of the participants' investments determined as of the date of Plan discontinuance.

8. Risks and Uncertainties

The Plan provides for investment in various registered investment companies and a money market fund. Such investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

9. Summary of Data Certified by the Trustee of the Plan

The Plan administrator has elected the method of annual reporting compliance permitted by Section 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified the following data included in the financial statements, notes to financial statements, and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants at December 31, 2014 and 2013, as shown in the Statements of Net Assets Available for Benefits
- Dividend income, interest on notes receivable from participants and net depreciation in fair value of investments, as shown in the Statement of Changes in Net Assets Available for Benefits
- Investment information, as shown in Note 3
- Investment amounts, as shown in Note 4
- Schedule H, line 4i – Schedule of Assets (Held at Year End) as of December 31, 2014

10. Subsequent Events

The Plan has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued.
