REPORT OF INDEPENDENT AUDITORS

PLAN ADMINISTRATOR
LIBERTY STEEL PRODUCTS, INC.
401(K) RETIREMENT PLAN

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Liberty Steel Products, Inc. 401(k) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in the notes to the financial statements, which was certified by Ascensus, as agent for Ascensus Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the agent as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of the year ended December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE A – DESCRIPTION OF PLAN

The following description of Liberty Steel Products, Inc. (the "Company") 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution savings plan covering substantially all employees of the Company who have at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may elect to contribute, on a salary-deferral basis, amounts ranging from 1% to 25% of their pretax annual compensation but not to exceed certain limitations. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make a matching contribution, at its sole discretion, to eligible participants.

Contributions are 100 percent participant directed within the investment alternatives and participants may redirect the percentage of future contributions to the various investment options at any time. In addition, participants may transfer their existing account balances to any of the investment accounts at their discretion.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution, and an allocation of the Plan's earnings and losses. Allocations of the Plan's earnings and losses are based on the proportion that each participant's account bears to the total of all participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their voluntary contributions plus actual earnings thereon. A participant becomes vested in employer matching and discretionary contributions as follows:

Years of Service	Vested Percentage of Employer Contributions
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested balance of their account. Note terms range from one to five years, unless such note is used to acquire a dwelling unit which will be used as the principal residence of the participant. Each participant may have a maximum of three outstanding notes at one time. The receivables are secured by the balance in the participant's account and must bear interest at the prime rate plus 1%. As of December 31, 2014, notes had a fixed rate of 4.25% for the term of the note. Principal and interest is paid through payroll deductions.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE A – DESCRIPTION OF PLAN (continued)

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account.

Forfeitures

If a participant is not vested upon termination, the nonvested portion of their account balance contributed by the employer and the earnings thereon are forfeited. Forfeited amounts are used to reduce future employer matching contributions.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting standards require that participant loans be classified as notes receivable from participants in the accompanying financial statements; however, the Department of Labor requires these to be classified as investments on the Form 5500 and on the schedule of assets (held at end of year).

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in other deductions. Investment related expenses are included in net appreciation of fair value of investments.

NOTE C – INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013 and net change in investment income and expenses for the years ended December 31, 2014 and 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Ascensus, as agent for the Plan's trustee, Ascensus Trust Company.

The following presents investments that represent 5 percent or more of the Plan's net assets.

	December 31,	
	2014	2013
PIMCO Total Return Fund	\$ 2,209,042	\$1,869,219

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated / (depreciated) by investment type as follows:

	2014	2013
Mutual funds	\$ 657,835	\$ 1,720,276

NOTES TO FINANCIAL STATEMENTS

NOTE D – COMMON COLLECTIVE TRUST

The underlying assets of the Plan's common collective trust were substantially made up of stable value products such as guaranteed investment contracts (GIC) (also known as traditional GICs), separate account GICs and synthetic GICs. A traditional GIC is a contract with an insurance company pursuant to which the Fund agrees to deposit money with the insurance company and the insurance company is contractually obligated to pay interest at a guaranteed rate for the life of the contract and return principal at maturity.

A separate account GIC is a contract with an insurance company that is backed by the assets of a separate account of the insurance company. The interest rate on a separate account GIC resets periodically based upon the earnings of the separate account assets. The securities held in the separate account are owned by the insurance company but are held for the exclusive benefit of investors in the separate account.

In a synthetic GIC, the Fund purchases one or more fixed-income securities, including mutual funds comprised of fixed-income securities, which are held and owned by the Fund on behalf of the participants. For both separate account and synthetic GICs, the Fund then contracts with a high-quality financial institution such as an insurance company or bank to provide a minimum guaranteed rate of return on the fixed-income securities and payments for participant withdrawals at contract value. The interest rate (also known as the crediting rate) is initially based on the yield of the underlying securities and changes based on the experience of the cash flow and market value of the underlying fixed-income securities.

Because changes in market interest rates affect the yield to maturity and the fair value of the underlying fixed-income securities, they can have a material impact on the interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but may be funded through the fair value liquidation of the underlying fixed-income securities, which could impact the interest crediting rate. The resulting gains and losses in the fair value of the underlying fixed-income securities relative to the contract are in the Fund's Statement of Assets and Liabilities as the "Adjustment from Fair Value to Contract Value." If the Adjustment from Fair Value to Contract Value is positive for a given contract, this indicates that the contract value is greater than the fair value of the underlying fixed-income securities. The embedded fair value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the Adjustment from Fair Value to Contract Value is negative, this indicates that the contract value is less than the fair value of the underlying fixed-income securities. The amortization of the embedded fair value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All separate account and synthetic GICs provide for a minimum interest crediting rate of zero percent, which is intended to protect participants' principal and accrued interest.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the common collective trust at December 31, 2014 and 2013 was \$2,873,664 and \$2,791,584 respectively. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were reviewed on a quarterly basis for resetting.

The GICs into which the Fund has entered limit the circumstances under which the issuer may unilaterally terminate the GIC on short notice. These circumstances may include, but are not limited to, the following: 1) the Fund loses its qualified status under the Internal Revenue Code or is otherwise terminated; 2) the Trustee fails to meet its material obligations under the GIC, attempts to assign the GIC or engages in fraud or misrepresentation that materially affects the risk profile of the GIC; or 3) if the fixed-income securities underlying the separate account or synthetic GIC fail to meet certain criteria as specified in each GIC. If one of these events were to occur, the issuer could terminate the separate account or synthetic GIC at the market value of the underlying fixed-income securities (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE D – COMMON COLLECTIVE TRUST (continued)

Average yields:	2014	2013
Based on actual earnings	1.10%	1.21%
Based on interest rate credited to participants	1.14%	1.46%

In the event market yields were to increase/decrease up to 50% in the next year, the weighted average interest crediting rate could fluctuate from 1.20% to 1.78%. Assuming the previous yield fluctuations occurred, if net assets were to decrease 10% the rates could fluctuate from 1.27% to 1.73%. Lastly, if there were no changes to the market yield but the net assets fluctuated (up to a decrease of 10%) the rates would range from 1.43% to 1.51%.

NOTE E – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange traded equity securities and mutual funds. Prices are obtained from readily available sources for market transactions involving identical assets and liabilities.

Fair values for Level 2 inputs are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly. Observable inputs include quoted market prices in active markets for similar assets, quoted prices in markets that are not active for identical or similar assets and other market observable inputs such as interest rate, credit spread and foreign currency exchange rates observable in the marketplace or derived from market transactions. Level 2 assets primarily includes fixed maturity securities (including public and private bonds), equity securities, over-the-counter derivatives, group annuity contracts, pooled separate accounts and other investments. These fair values are generally obtained from third-party pricing services or determined through the use of valuation models or methodologies, including matrix pricing, using substantially all observable inputs. Prices are validated through an investment analyst review process including direct interaction with external sources, recent trade activity or through use of internal models.

Level 3 fair values are based on at least one significant unobservable input for the asset. Level 3 securities contain unobservable market inputs and as a result considerable judgment may be used in determining the fair values. Level 3 assets include certain fixed maturity securities, private equity securities, and complex derivatives. These fair values are generally obtained through the use of valuation models or methodologies using significant unobservable inputs or broker quotes. In circumstances where broker quotes are used to value an instrument, a nonbinding quote is generally received. Broker quotes are validated through an investment analyst review process, including direct interaction with external sources, through the use of internal models or other relevant information.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTES TO FINANCIAL STATEMENTS

NOTE E – FAIR VALUE MEASUREMENTS (continued)

Common collective trust: The underlying assets consist of guaranteed investment contracts (GIC), separate account GICs, synthetic GICs, and other short term investments. Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the Fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The short term securities are valued at amortized cost. Generally, amortized cost approximates the current fair value of these securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE F – TAX STATUS

The Plan obtained its latest determination letter on November 27, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G – PARTY-IN-INTEREST

The Plan allows participants to borrow funds against their account balances. These transactions qualify as party-in-interest transactions.

NOTE H – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 4, 2015, which is the date the financial statements were available to be issued.

On March 31, 2015, the Company reorganized which resulted in a division of its operations being discontinued. As a result, approximately half of the current workforce has been terminated and is no longer in the Plan. The discontinued division has been set up as a new entity with a new 401(k) plan of which \$5,493,922 in Plan assets have been rolled over into this new Plan as of 4/1/15.
