Independent Auditor's Report

To the Participants and Administrative Committee
Universal Hospital Services, Inc.
Employee Long-Term Savings Plan
Minneapolis, Minnesota

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Universal Hospital Services, Inc. Employee Long-Term Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedule

The supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year), as of December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With the Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Universal Hospital Services, Inc. Employee Long-Term Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the Universal Hospital Services, Inc. Employee Long-Term Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a contributory defined contribution plan covering substantially all Universal Hospital Services, Inc. (the Company) employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the Internal Revenue Code of 1986, as amended (the Code).

Eligibility: Qualified employees are immediately eligible to participate in the Plan on their employment start date, as defined by the Plan.

Contributions: The Plan's participants may contribute annually up to a total of 60 percent of their base compensation before taxes, subject to Internal Revenue Service (IRS) limitations. The participants may also contribute up to 100 percent of after-tax compensation. Eligible participants are automatically enrolled, and 3 percent of eligible participant compensation is automatically deducted as a pretax salary deferral contribution to the Plan, unless otherwise directed by the participant. The Plan also provides for employer matching contributions, which are made at the discretion of the Board of Directors. The Company currently provides an employer matching contribution of 50 percent of the first 6 percent of participant deferral contributions. Additional employer contributions may be made at the discretion of the Company's Board of Directors. There were no additional employer contributions made to the Plan during the year ended December 31, 2014.

Participant accounts: Participants, at their discretion, may direct contributions in whole percentage increments in any of the Plan's various investment options, as more fully described in the Plan's literature. Contributions may be allocated entirely to one fund or a combination of funds and may be changed at any time. Company contributions are allocated among the investment funds in the same manner as participant contributions. Each participant's account is credited with the participant's and the Company's contributions and an allocation of plan earnings and administrative expenses. Plan earnings and administrative expenses are allocated to participant accounts in the proportion that each participant's account balance bears to the total of all participant accounts by fund, or specific participant transactions, as defined. The benefit to which a participant is entitled is equal to the vested balance in the participant's accounts.

Vesting: Participants are fully vested in their own contributions at all times. Company contributions vest at a ratio of 33 percent per year beginning after one year of service until fully vested after three years of service. Participants also become fully vested in Company contributions upon death, permanent disability, the attainment of age 65, or plan termination.

Forfeited accounts: Forfeited nonvested accounts are used to reduce future Company contributions. For the year ended December 31, 2014, Company contributions were reduced by approximately \$178,000 from forfeited nonvested accounts. There were no forfeited nonvested accounts at December 31, 2014 and 2013.

Universal Hospital Services, Inc. Employee Long-Term Savings Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their accounts up to a maximum of the lesser of 50 percent of their vested account balance or \$50,000, with a \$1,000 minimum. Note terms are up to five years or up to 10 years for the purchase of a principal residence. The notes are collateralized by the participant's account and bear interest at a fixed rate of one percentage point above the prime rate at the time of note origination. Certain notes were added to the Plan from plan mergers in 2012. These notes were established in the predecessor plan at an interest rate significantly below current note terms. Notes receivable from participants are due in installments of principal and interest, generally through payroll deductions. Notes receivable from participants at December 31, 2014, have interest rates ranging from 0.05 percent to 8.25 percent and mature at various dates through October 2024.

Benefits paid to participants: Vested benefits are distributed at the option of the participant in the form of a lump-sum amount, installment payments or any combination of these options, as defined by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Note 4 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis, and unrealized gains and losses are recorded based on the fair values as of the reporting dates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Substantially all administrative expenses are paid by the Plan. In addition, certain investment-related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)—(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (consensuses of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

The update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in parts I and II shall be applied retrospectively to all periods presented; the amendments in part III shall be applied prospectively. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by Plan Trustee

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets (single assets representing more than 5 percent of the Plan's net assets are separately identified):

*Asset was less than 5 percent of the net assets available for benefits in the year indicated.

**Fidelity Management Trust Company certified the contract value. The investment is being reported at fair value, which has been calculated based on the fund's audited financial statements at year-end.

Universal Hospital Services, Inc. Employee Long-Term Savings Plan

Notes to Financial Statements

Note 3. Information Certified by Plan Trustee (Continued)

Fidelity Management Trust Company also certified to the completeness and accuracy of \$1,182,663 of net appreciation in fair value of registered investment companies, \$3,537,558 of interest and dividends related to the aforementioned investments, and \$109,153 of interest related to notes receivable from participants for the year ended December 31, 2014.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Shares in registered investment companies (mutual funds) are valued at the quoted market price of shares held by the Plan at year-end in the active market on which the individual securities are traded.

Common collective trust fund: The common collective trust fund is valued at the unit value as reported by the investment advisor, adjusted for fair value based upon the audited financial statements of the fund at year-end. The trust's underlying assets consist of investment contracts and security-backed contracts.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Universal Hospital Services, Inc. Employee Long-Term Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The Plan follows guidance on how entities should estimate the fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using net asset value (NAV) per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. The following table includes categories of investments where NAV is available as a practical expedient.

Investment	Fair Value at December 31		Redemption Frequency and Notice Period
	2014	2013	
Fidelity Managed Income Portfolio	\$ 4,695,427	\$ 5,307,891	Redemption must be made within 1 year of notice by Plan

The investment seeks to preserve principal investment while earning a level of interest income that is consistent with the principal preservation. The fund's underlying assets consist of corporate bonds, treasuries, commercial real estate mortgages, mortgage-backed securities and short-term cash equivalents. There are no unfunded commitments related to the investment.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100 percent vested in their accounts.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and a common collective trust fund managed by affiliates of Fidelity Management Trust Company, the trustee, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return of each fund.

Note 7. Tax Status

Effective April 23, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter dated March 31, 2008, from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended subsequent to the version covered by the prototype plan's determination letter. However, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examination beyond three years.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Universal Hospital Services, Inc. Employee Long-Term Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fidelity Management Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—Supplemental Schedule

The supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year), as of December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With the Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Universal Hospital Services, Inc. Employee Long-Term Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following brief description of the Universal Hospital Services, Inc. Employee Long-Term Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a contributory defined contribution plan covering substantially all Universal Hospital Services, Inc. (the Company) employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the Internal Revenue Code of 1986, as amended (the Code).

Eligibility: Qualified employees are immediately eligible to participate in the Plan on their employment start date, as defined by the Plan.

Contributions: The Plan's participants may contribute annually up to a total of 60 percent of their base compensation before taxes, subject to Internal Revenue Service (IRS) limitations. The participants may also contribute up to 100 percent of after-tax compensation. Eligible participants are automatically enrolled, and 3 percent of eligible participant compensation is automatically deducted as a pretax salary deferral contribution to the Plan, unless otherwise directed by the participant. The Plan also provides for employer matching contributions, which are made at the discretion of the Board of Directors. The Company currently provides an employer matching contribution of 50 percent of the first 6 percent of participant deferral contributions. Additional employer contributions may be made at the discretion of the Company's Board of Directors. There were no additional employer contributions made to the Plan during the year ended December 31, 2014.

Participant accounts: Participants, at their discretion, may direct contributions in whole percentage increments in any of the Plan's various investment options, as more fully described in the Plan's literature. Contributions may be allocated entirely to one fund or a combination of funds and may be changed at any time. Company contributions are allocated among the investment funds in the same manner as participant contributions. Each participant's account is credited with the participant's and the Company's contributions and an allocation of plan earnings and administrative expenses. Plan earnings and administrative expenses are allocated to participant accounts in the proportion that each participant's account balance bears to the total of all participant accounts by fund, or specific participant transactions, as defined. The benefit to which a participant is entitled is equal to the vested balance in the participant's accounts.

Vesting: Participants are fully vested in their own contributions at all times. Company contributions vest at a ratio of 33 percent per year beginning after one year of service until fully vested after three years of service. Participants also become fully vested in Company contributions upon death, permanent disability, the attainment of age 65, or plan termination.

Forfeited accounts: Forfeited nonvested accounts are used to reduce future Company contributions. For the year ended December 31, 2014, Company contributions were reduced by approximately \$178,000 from forfeited nonvested accounts. There were no forfeited nonvested accounts at December 31, 2014 and 2013.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their accounts up to a maximum of the lesser of 50 percent of their vested account balance or \$50,000, with a \$1,000 minimum. Note terms are up to five years or up to 10 years for the purchase of a principal residence. The notes are collateralized by the participant's account and bear interest at a fixed rate of one percentage point above the prime rate at the time of note origination. Certain notes were added to the Plan from plan mergers in 2012. These notes were established in the predecessor plan at an interest rate significantly below current note terms. Notes receivable from participants are due in installments of principal and interest, generally through payroll deductions. Notes receivable from participants at December 31, 2014, have interest rates ranging from 0.05 percent to 8.25 percent and mature at various dates through October 2024.

Benefits paid to participants: Vested benefits are distributed at the option of the participant in the form of a lump-sum amount, installment payments or any combination of these options, as defined by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustee. See Note 4 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis, and unrealized gains and losses are recorded based on the fair values as of the reporting dates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Substantially all administrative expenses are paid by the Plan. In addition, certain investment-related expenses are included in net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)—(I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Summary of Significant Accounting Policies (Continued)

The update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in parts I and II shall be applied retrospectively to all periods presented; the amendments in part III shall be applied prospectively. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by Plan Trustee

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets (single assets representing more than 5 percent of the Plan's net assets are separately identified):

Note 3. Information Certified by Plan Trustee (Continued)

Fidelity Management Trust Company also certified to the completeness and accuracy of \$1,182,663 of net appreciation in fair value of registered investment companies, \$3,537,558 of interest and dividends related to the aforementioned investments, and \$109,153 of interest related to notes receivable from participants for the year ended December 31, 2014.

Note 4. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Shares in registered investment companies (mutual funds) are valued at the quoted market price of shares held by the Plan at year-end in the active market on which the individual securities are traded.

Common collective trust fund: The common collective trust fund is valued at the unit value as reported by the investment advisor, adjusted for fair value based upon the audited financial statements of the fund at year-end. The trust's underlying assets consist of investment contracts and security-backed contracts.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The Plan follows guidance on how entities should estimate the fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using net asset value (NAV) per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. The following table includes categories of investments where NAV is available as a practical expedient.

Investment	Fair Value at December 31		Redemption Frequency and Notice Period
	2014	2013	
Fidelity Managed Income Portfolio	\$ 4,695,427	\$ 5,307,891	Redemption must be made within 1 year of notice by Plan

The investment seeks to preserve principal investment while earning a level of interest income that is consistent with the principal preservation. The fund's underlying assets consist of corporate bonds, treasuries, commercial real estate mortgages, mortgage-backed securities and short-term cash equivalents. There are no unfunded commitments related to the investment.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100 percent vested in their accounts.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and a common collective trust fund managed by affiliates of Fidelity Management Trust Company, the trustee, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return of each fund.

Note 7. Tax Status

Effective April 23, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Fidelity Management Trust Company. The prototype plan has received an opinion letter dated March 31, 2008, from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended subsequent to the version covered by the prototype plan's determination letter. However, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examination beyond three years.
