DOKKEN ENGINEERING 401(k) PROFIT SHARING PLAN
Notes to Financial Statements
May 31, 2014 and 2013

1. DESCRIPTION OF PLAN

The following description of the Dokken Engineering 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

a) General and Eligibility – The Plan is a defined contribution plan established in 1986 to provide eligible employees of Dokken Engineering, Inc. (Company) with retirement benefits in accordance with section 401(k) of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who have attained the age of 21. Employees may begin making salary deferrals on the first of the month following 30 days after their hire date. To be eligible for the employer matching contribution, participants must have been employed at the Company for 12 months, and have worked at least 1,000 hours during that period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Mass Mutual Financial Group is the Plan's custodian of the Plan's investment assets and Benefit Resources, Inc. is the Plan's record keeper.

b) Contributions – Participants may elect to make tax deferred contributions to the Plan between 1% and 100% of their compensation each year, not to exceed the maximum allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company will make matching contributions each pay period once eligibility requirements have been met. The matching contribution will be 100% of the first 9% of the participant's base compensation that they elect to defer. The match is computed each pay period and is based on the contributions for that pay period only.

Once funds have been deposited in the Plan, they cannot be withdrawn by a participant currently employed by the Company unless the participant has reached normal retirement age or has a severe financial hardship. Hardship includes college tuition, purchasing a primary residence, or medical expenses. If a hardship withdrawal is taken, the participant will be barred from participating in the Plan for six months.

c) Participant Accounts – A separate account is maintained for each participant and is credited with the participant's contributions, the employer contribution, and an allocation of net earnings from investments and changes in investment values. Each participant may direct the investment of his or her account in any investment fund maintained by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Vesting – Participants are immediately vested in their contributions and vest in the employer contributions according to a six-year graded schedule. In order to receive vesting credit, participants must work a minimum of 1,000 hours during the fiscal year.

e) Notes Receivable from Participants – Participants may borrow up to 50% of their vested interest in their account in the form of a loan with a minimum of $1,000 and a maximum of $50,000. Loans bear interest at the prime rate + 2%. All loans are to be repaid within five years from the date of the loan. Principal and interest shall be repaid, in a level amount, which will fully amortize the loan over its duration. Loans to participants are stated at the principal amount outstanding, which approximates fair value. Total loans outstanding of $369,282 and $372,012, as of May 31, 2014 and 2013, respectively, are recorded in the Plan's accompanying financial statements.

f) Payment of Benefits – Participants are entitled to the vested portion of their benefit upon the earlier of termination, retirement, death or disability, hardship, termination of the Plan, or upon request after age 59½. If a participant's employment is terminated and their vested benefits do not exceed $1,000, the Company may direct the custodian to distribute the entire vested benefit to the participant in a single lump sum. Benefits will be paid in a lump-sum payment unless a joint and survivor annuity is selected.

g) Forfeited Accounts – Forfeitures resulting from the nonvested portions of participants' accounts who terminate prior to being fully vested are generally used first to pay the administrative expenses of the Plan, second to reduce future Employer contributions, and any remaining amounts may be reallocated as additional contributions. No forfeitures were reallocated during 2014 or 2013. At May 31, 2014 and 2013, forfeited non-vested account balances were $19,163 and $0, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and present the net assets available for benefits as of May 31, 2014 and 2013 and changes in net assets available for benefits for the year ended May 31, 2014.

b) Estimates – The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c) Excess Contributions Payable – The Plan is required to return contributions received during the Plan year in excess of the IRC limits. No amounts were required to be returned during the years ended May 31, 2014 and 2013.

d) Investment Valuation and Income Recognition – The Plan's investment in pooled separate investment accounts are not direct filing entities. As such, the Plan's interest in the pooled separate investment accounts are reported at the underlying asset level. The Plan's investments in money market accounts and mutual funds are stated at fair value based on quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments included net unrealized and net

realized gains and losses on investments during the Plan year and is presented net of investment expenses. Investment income is allocated to individual participant's accounts based on the participant's share of the investment fund.

e) Notes Receivable from Participants – Participant loans are classified as notes receivable from participants, and are measured at the unpaid principal balance plus unpaid accrued interest. Delinquent participant loans, if applicable, are reclassified as distributions based upon the terms of the Plan.

f) Payment of Benefits – Benefits are recorded when paid.

g) Administration Expenses – Costs of the Plan are paid by the Company and by the Plan. Administrative expenses incurred by the Plan during the year ended May 31, 2014 totaled $399, and generally include loan setup and maintenance fees, withdrawal fees, and managed account fees charged directly to the participant's account. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each investment fund.

h) Reclassifications – Certain 2013 information has been reclassed to conform with the 2014 presentation.

3. FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosure*s, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1*:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2*:* Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds and Money Market Account: Valued at net asset value (NAV) based on quoted market prices that are available on active markets and are considered to be Level 1. Included in corporate stocks below are $151,103 and $159,938, as of May 31, 2014 and 2013, respectively, which represent underlying assets in a private mutual fund and are reported as Level 2. There have been no changes in the methodologies used at May 31, 2014 and 2013.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the Plan's assets at fair value as of May 31, 2014 and 2013:

	2014	2013
Mutual funds:		
Large growth	$ 2,587,119	$ 1,996,915

5. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Mass Mutual Financial Group has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate. The Plan invests in a private mutual fund not maintained with Mass Mutual and therefore is not covered in the certification. The mutual fund had a fair value of $151,103 and $159,938 as of May 31, 2014 and 2013, respectively, and experienced a net depreciation in fair value of $8,835 for the year ended May 31, 2014.

	2014	2013
Mutual funds	$ 12,627,958	$ 10,109,792
Money market account	1,555,919	1,562,229
	$ 14,183,877	$ 11,672,021

	Year Ended May 31, 2014
Net appreciation in fair value of investments	$ 1,055,016
Interest and dividends	410,507
Investment income	$ 1,465,523

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has not identified any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Mass Mutual Financial Group, the custodian of the Plan. Accordingly, these transactions qualify as party-in-interest transactions.

8. NONEXEMPT TRANSACTIONS

During the Plan year ended December 31, 2013, the Employer failed to remit to the Plan certain employee deferrals aggregating to $159,359 on a timely basis according to DOL regulations. These late deferrals were remitted to the Plan during 2014. The Employer is in the process of calculating any potential lost earnings. There were no nonexempt transactions during 2013.

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will be 100% vested in their accounts.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

11. SUBSEQUENT EVENTS

The Plan has evaluated events and transactions occurring subsequent to the statement of net assets available for benefits date of May 31, 2014, for items that should potentially be recognized or disclosed in the financial statements. The evaluation was conducted through September 28, 2015, the date the financial statements were available to be issued.
