NOTE 1 - PLAN DESCRIPTION

The following description of the SRAM LLC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of SRAM LLC (the Company). All employees are eligible for the Plan and may enter on the first day of every month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Vesting: Participants may elect to defer to the Plan up to 60% of their eligible earnings on a pre-tax basis up to the maximum allowed under Section 402(g) of the Internal Revenue Code (IRC). Absent an election, full-time employees who are hired on or after June 1, 2010 are automatically enrolled in the Plan at a contribution rate of 3% of eligible compensation. The Plan also allows participants to contribute post-tax dollars into the Plan, subject to the limits established under the IRC. Participants may contribute funds from another qualified plan as rollover contributions. Prior to January 1, 2014, the Company contributed for each eligible participant an amount equal to 3% of the participant's eligible compensation for the plan year. Effective January 1, 2014, the Company changed its matching formula to contribute for each eligible participant an amount equal to 100% of the participant's first 3% of eligible compensation for the plan year and 50% of the participant's next 2% of eligible compensation for the plan year. A participant is immediately vested 100% in both employee and employer contributions.

Investment Options: Upon enrolling in the Plan, a participant may direct the investment of their account into any of the investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts: Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and the Plan's earnings. Each participant's account is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits: Upon termination of service, death, disability and normal or early retirement, a participant will receive the vested value of his or her account paid to them in the form of installment payments, a lump sum or a rollover distribution. The plan allows hardship and in-service withdrawals. A participant may withdraw all or a portion of the value of his or her vested interest prior to termination of employment upon meeting certain requirements as set forth in the plan agreement.

Notes Receivable from Participants: Participants may borrow from the Plan upon meeting certain requirements as set forth in the plan agreement. The amount that can be borrowed is equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan terms shall not exceed five years, except when the loan is for the purchase of the participant's primary residence. The interest rate is fixed during the term of the loan.

Forfeitures: Forfeitures of nonvested amounts are used to pay plan expenses and reduce future contributions of the plan sponsor**.** As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $855 and $0, respectively.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The principles and policies that significantly affect the determination of net assets available for benefits and results of operations are summarized below.

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Money Market Fund: Fair values have been determined based upon their quoted redemption prices and recent transaction prices of $1.00 per share (Level 2 inputs), with no discounts for credit liquidity or liquidity restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Risks and Uncertainties: The Plan holds various investments. The investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 - INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013:

	2014	2013
Fidelity Blue Chip Growth Fund	1,654,902	1,281,476*
Fidelity Leveraged Co Stock Fund	1,448,635*	1,538,963

Fidelity Spartan 500 Index Fund	4,757,384	3,528,188
Fidelity Freedom 2040 Fund	1,402,486*	1,447,851

* - Investment did not represent 5% of more of the Plan's net assets available for benefits; amount is included for comparative purposes only.

During the year ended December 31, 2014, the Plan's investments in mutual funds (including investments bought, sold, and held during the year) appreciated in fair value by $189,181.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor (DOL) regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Fidelity Management Trust Company is the trustee for the Plan. Party-in-interest transactions included investments in mutual funds and a money market fund managed by Fidelity Investments, Inc. (a related company with the trustee). Notes receivable from participants are also considered party-in-interest transactions. Fees paid by the Plan to Fidelity Management Trust Company for the administration of the Plan amounted to $3,762 for the year ended December 31, 2014. Certain other professional fees were paid by the Company. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

(Continued)

NOTE 7 - TAX STATUS

The Plan has been restated on a prototype document that received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008. Although the Plan has been amended from the original prototype document, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 1 - PLAN DESCRIPTION

The following description of the SRAM LLC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of SRAM LLC (the Company). All employees are eligible for the Plan and may enter on the first day of every month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Vesting: Participants may elect to defer to the Plan up to 60% of their eligible earnings on a pre-tax basis up to the maximum allowed under Section 402(g) of the Internal Revenue Code (IRC). Absent an election, full-time employees who are hired on or after June 1, 2010 are automatically enrolled in the Plan at a contribution rate of 3% of eligible compensation. The Plan also allows participants to contribute post-tax dollars into the Plan, subject to the limits established under the IRC. Participants may contribute funds from another qualified plan as rollover contributions. Prior to January 1, 2014, the Company contributed for each eligible participant an amount equal to 3% of the participant's eligible compensation for the plan year. Effective January 1, 2014, the Company changed its matching formula to contribute for each eligible participant an amount equal to 100% of the participant's first 3% of eligible compensation for the plan year and 50% of the participant's next 2% of eligible compensation for the plan year. A participant is immediately vested 100% in both employee and employer contributions.

Investment Options: Upon enrolling in the Plan, a participant may direct the investment of their account into any of the investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts: Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, and the Plan's earnings. Each participant's account is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits: Upon termination of service, death, disability and normal or early retirement, a participant will receive the vested value of his or her account paid to them in the form of installment payments, a lump sum or a rollover distribution. The plan allows hardship and in-service withdrawals. A participant may withdraw all or a portion of the value of his or her vested interest prior to termination of employment upon meeting certain requirements as set forth in the plan agreement.

Notes Receivable from Participants: Participants may borrow from the Plan upon meeting certain requirements as set forth in the plan agreement. The amount that can be borrowed is equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan terms shall not exceed five years, except when the loan is for the purchase of the participant's primary residence. The interest rate is fixed during the term of the loan.

Forfeitures: Forfeitures of nonvested amounts are used to pay plan expenses and reduce future contributions of the plan sponsor**.** As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $855 and $0, respectively.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

(Continued)

NOTE 1 - PLAN DESCRIPTION (Continued)

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

The principles and policies that significantly affect the determination of net assets available for benefits and results of operations are summarized below.

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

(Continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Money Market Fund: Fair values have been determined based upon their quoted redemption prices and recent transaction prices of $1.00 per share (Level 2 inputs), with no discounts for credit liquidity or liquidity restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Risks and Uncertainties: The Plan holds various investments. The investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor (DOL) regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Fidelity Management Trust Company is the trustee for the Plan. Party-in-interest transactions included investments in mutual funds and a money market fund managed by Fidelity Investments, Inc. (a related company with the trustee). Notes receivable from participants are also considered party-in-interest transactions. Fees paid by the Plan to Fidelity Management Trust Company for the administration of the Plan amounted to $3,762 for the year ended December 31, 2014. Certain other professional fees were paid by the Company. Certain administrative functions are performed by officers or employees of the Company. NOTE 7 - TAX STATUS

The Plan has been restated on a prototype document that received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008. Although the Plan has been amended from the original prototype document, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
