Harris, Mackessy & Brennan 401(k) Plan
Westerville, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Harris, Mackessy & Brennan 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits for the year ended December 31, 2014 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified or provided by Nationwide Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained a certifications from the trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Independent Auditor's Report (Continued)

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Harris, Mackessy & Brennan 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Harris, Mackessy & Brennan 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a safe harbor defined contribution plan sponsored by Harris, Mackessy & Brennan, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Each employee, with the exception of excluded employees as defined in the Plan document, is eligible to participate in the Plan following the completion of six months of service and attainment of age 21. Once participants are eligible for the plan they can enroll and begin making participant deferrals and receive safe harbor matching contributions. The employee must have completed 1,000 hours of service during the Plan year in order to participate in any employer discretionary annual profit sharing contributions. Participants direct the investments of contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds (registered investment companies), one group variable annuity with fixed fund contract and self-directed brokerage accounts as investment options.

Contributions: Plan participants may authorize payroll deductions up to 100% of their compensation as contributions. The amount of a participant's contributions for any Plan year may not exceed certain limits set by the Plan document and the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions, as allowed under the IRC. Company safe harbor matching contributions are made in an amount equal to not less than 3% of employee compensation.

The Company may also make a discretionary annual profit sharing contribution. The discretionary annual profit sharing contribution was \$223,804 for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) Company safe harbor contributions (b) Company profit sharing contributions and (c) Plan earnings and losses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and employer safe harbor contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service, where a year is defined as one where an employee works 1,000 or more hours, as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Harris, Mackessy & Brennan 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payments of benefits: A participant may receive the value of his or her vested account upon retirement, attainment of age 59 ½, disability or termination as a lump-sum distribution. Upon death of a participant, the beneficiary shall be entitled to the full value of the account. Hardship withdrawals, as defined in the Plan, are also available to participants.

Forfeited accounts: At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$35,330 and \$31,277, respectively. These accounts will be used to reduce future employer contributions or to pay plan expenses. During the year ended December 31, 2014, \$46,515 of forfeitures were used to reduce employer contributions.

Plan termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Contributions: Participant contributions and safe harbor matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Discretionary profit sharing contributions are recognized when declared by the Company.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses are paid by the Company, except for participant fees related to distribution and loan withdrawals, which are paid from the participants' accounts.

Harris, Mackessy & Brennan 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent accounting pronouncements: In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan* as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 12, 2015, the date the financial statements were available to be issued.

Harris, Mackessy & Brennan 401(k) Plan

Notes to Financial Statements

Note 3. Tax Status

Effective January 1, 2013, the Plan adopted a non-standardized form of a volume submitter plan sponsored by CCH Incorporated. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code and is, therefore, not subject to federal income taxes under present income tax laws.

Note 4. Information Certified and Provided by Nationwide Trust Company

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013 and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets.

The following table presents the fair value of the Plan's assets as certified and provided by the trustee as of December 31. Assets representing 5% or more of the Plan's net assets are separately identified.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Group variable annuity with fixed fund contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 6.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total assets at fair value	\$ 11,349,133	\$ -	\$ 248,801	\$ 11,597,934

Changes in fair value levels: The availability of market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Level 3.

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014.

	Group Variable Annuity with Fixed Fund Contract
Balance, beginning of year	\$ 248,801
Unrealized gains related to instruments still held at the report date	6,382
Purchases	154,363
Sales	(46)
Balance, end of year	\$ 409,500

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value

Measurements: The following table represents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those investments and the significant unobservable inputs and the ranges of values for those inputs as of December 31:

Instrument	Fair Value		Principal Valuation Technique	Significant Unobservable Inputs
	2014	2013		
Nationwide Best of America Fixed Fund	\$ 409,500	\$ 248,801	Discounted cash flow	Discount Rate Applied

In estimating fair value of the investments in Level 3, the Plan Sponsor may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Plan Sponsor evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

Note 6. Investment Contract with Nationwide Trust Company

The Plan has entered into a non-fully benefit responsive group variable annuity with fixed fund contract with Nationwide Life Insurance Company (Nationwide). Nationwide maintains the contributions in a general account. The account is credited with earnings on the underlying investments, charged for participant distributions and administrative expenses and adjusted for forfeitures. The investment contract does not qualify as fully benefit responsive under FASB guidance, as the investment contract does restrict participant-directed exchanges. The investment contract is included in the financial statements at fair value, which approximates contract value, as reported to the Plan by Nationwide.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. The average yield and crediting interest rates were approximately 1.85% and 2.75% for 2014 and 2013, respectively. Such interest rates are reviewed on an annual basis for resetting.

Note 7. Related Party Transactions

Certain Plan investments are units of registered investment companies and a guaranteed investment contract managed by Nationwide Trust Company. Nationwide Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.
