CardinalCommerce 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the CardinalCommerce 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, effective January 6, 2014, is a defined contribution profit-sharing plan covering substantially all employees of CardinalCommerce Corporation (the Company). There are no age or service requirements for eligibility. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees are immediately enrolled in the Plan with an automatic deferral of 4% of their pre-tax compensation as defined by the Plan up to the maximum amount allowed by law. Participants may elect to change their deferral percentage at any time during the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions of a discretionary percentage and nonelective profit sharing contributions at the option of the Company's Board of Directors, subject to certain limitations and eligibility requirements.

No discretionary matching or nonelective profit sharing contributions were made by the Company during 2014.

Contributions are invested at the election of the employees in funds maintained by the Plan's trustee. Employees may elect to have contributions allocated between funds.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary matching contributions, an allocation of the Company's discretionary profit sharing contribution, the Plan's earnings, net of administrative expenses and forfeitures of terminated participants' nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant will vest in the discretionary employer matching and nonelective profit-sharing contributions following the below schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

CardinalCommerce 401(k) Plan

Notes to Financial Statements

Payment of Benefits

Participants are eligible to receive distributions from their accounts at the normal retirement age (age of 65), death, disability, or termination of employment. Participants receive the value of their vested account balance in the form of a single lump-sum payment. Additionally, participants are entitled to apply for hardship withdrawals and, after attaining age 59 1/2, may receive in-service distributions.

Forfeitures

Forfeitures of terminated participants' nonvested accounts may first be used to pay any administrative expenses of the Plan. Any remaining forfeitures may be used to reduce any employer contributions to the Plan or be allocated to all participants eligible to share in the allocations of profit sharing contributions. There were no forfeitures during 2014.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported increases and decreases of net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 4 for discussion of fair value measurements.

Investment transactions are accounted for on trade-date and identified costs is the basis followed in determining the costs of investment sold for financial statement purposes. Dividend income and gains from realized gain distributions are recorded on the ex-distribution date, and are reinvested in the underlying investments.

Payment of Benefits

Benefits are recorded when paid.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Risks and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent events

The Company has evaluated subsequent events through October 12, 2015, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)", which seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. The standard is effective for annual periods beginning after December 15, 2015. Management has elected to early adopt and is reflected as such in these financial statements.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient". Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investment that are measured using fair value by general type; however plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early and is reflected as such in these financial statements.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

3. Information Certified by Massachusetts Mutual Life Insurance Company

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certification from the custodian of the Plan that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and supplemental schedule as to investments and investment income is presented solely in reliance upon that certificate.

4. Fair Value Measurements

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

CardinalCommerce 401(k) Plan

Notes to Financial Statements

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts

Valued at the net asset value (NAV) of units of a bank, trust company, or similar institution. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the account, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

General Account

Valued on a cost basis, which approximates fair market value.

The valuation methodologies used for assets measured at fair value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments as of December 31, 2014:

December 31, 2014	Assets at Fair Value				Total
	Level 1	Level 2	Level 3		
Investments, at net asset value:					
Pooled Separate Accounts*	\$ -	\$ -	\$ -		\$ 558,276
Investments, at cost which approximates fair value					
General Account	-	3,988	-		3,988
Balance, December 31, 2014	\$ -	\$ 3,988	\$ -		\$ 562,264

*Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

5. Party-in-Interest Transaction

Certain Plan investments are managed by MassMutual, and therefore, these transactions qualify as party-in-interest transactions. Fees are paid to MassMutual for these services.

Notes to Financial Statements

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. Federal Income Tax Status

The Plan has adopted the Dyatech, LLC defined contribution prototype plan and trust. The Internal Revenue Service has determined and informed Dyatech, LLC by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Accordingly, the Plan is permitted to rely on the opinion letter. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt. No provision for Federal income tax has been made in the financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
