Notes to Financial Statements

December 31, 2014 and 2013

1. Description of the Plan

The following is a description of the Fresh Mark, Inc. (Company and Plan Sponsor) Hourly Pension Plan (the Plan). This description provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering hourly bargaining unit employees at the Fresh Mark Canton facility who are represented by the United Food and Commercial Workers (AFL-CIO and CLC) and have at least one year of service and employees of Fresh Mark Salem and Fresh Mark Massillon RWDSU who have at least one year of service. In 2014, \$7,983 was transferred from the Plan to the Fresh Mark, Inc. Savings Plan related to employees of the Fresh Mark Salem facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of their gross pay, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matches 100% of the participant's contributions up to a maximum of \$0.30 per compensable hour. For those employees within the Teamsters bargaining unit, the Plan provides for a Company contribution equal to 1.5% of the participants' prior year's gross wages, which amounted to \$19,227 and \$13,793 in 2014 and 2013, respectively.

Upon enrollment, a participant may direct employee and employer contributions in 1% increments to any of the Plan's fund options. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. Forfeitures of \$1,673 were used to reduce Company contributions for the year ended December 31, 2014. The balance of forfeited nonvested accounts was \$7,541 and \$1,428 as of December 31, 2014 and 2013, respectively. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of service. Participants are 100% vested in the Company's contributions after the completion of three years of service.

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through payroll deductions. A participant may not have more than one loan outstanding at any point in time.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant may elect to receive a lump-sum amount equal to the vested value of their account. If at the time of termination, the participant's vested value of his or her account does not exceed \$1,000, such account balance shall be paid immediately in a single lump-sum payment.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Fresh Mark, Inc. Hourly Pension Plan
Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The mutual fund investments are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. Refer to Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

Fresh Mark, Inc. Hourly Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management is currently evaluating the effect that the provisions of Part II of ASU 2015-12 will have on the Plan's financial statements. Part I and Part III are not applicable to the Plan.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Fresh Mark, Inc. Hourly Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Subsequent Events

Management evaluated all activity of the Plan through October 12, 2015 (the date the financial statements were available for issuance), and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule including investments held and interest income on notes receivable from participants at December 31, 2014 and 2013, and net appreciation or depreciation in fair value of investments, interest, and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Charles Schwab Trust Company, the trustee of the Plan.

During 2014, the Plan's investments (including investments purchased, sold, as well as held during the year) depreciated in fair value for the year ended December 31, 2014, as follows:

Investments at fair value as determined by quoted market prices:	
Mutual funds	\$ (65,749)

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

Fresh Mark, Inc. Hourly Pension Plan

Notes to Financial Statements (continued)

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5. Fair Value Measurements

As defined in Accounting Standards Codification (ASC) 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 follow:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the Plan at the measurement date for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the assets or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

5. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money market fund – Valued at net asset values (NAV) of units held by the Plan at year-end.

Mutual funds – Valued at quoted market prices, which represent the NAV of the shares held by the Plan on the last business day of the plan year.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Money market fund	\$ —	\$ 3,915,730	\$ —	\$ 3,915,730
Mutual funds:

Money market fund	\$ —	\$ 4,089,321	\$ —	\$ 4,089,321

In accordance with the policy of stating investments at fair value, changes in unrealized appreciation or depreciation are reflected in the statement of changes in net assets available for benefits.

6. Tax Status

The Plan has received a determination letter from the IRS dated September 7, 2010, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administration believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions. The Plan has recognized no interest or penalties related to uncertain tax

positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Transactions With Parties in Interest

The Plan holds units of certain mutual funds and a money market fund managed by the Charles Schwab Trust Company, the trustee of the Plan. Certain legal, trustee and accounting fees, and certain administrative expenses relating to the maintenance of participant eligibility records were paid by the Company. Fees paid during the year for services rendered by parties in interest were based on customary and reasonable rates for such services. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.
