The Charles Machine Works, Inc. Employee Stock Ownership Plan and Trust

We have audited the accompanying financial statements of The Charles Machine Works, Inc. Employee Stock Ownership Plan and Trust (the “Plan”), which comprise the statements of net assets available for plan benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for plan benefits for the year ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of The Charles Machine Works, Inc. Employee Stock Ownership Plan and Trust as of December 31, 2014 and 2013, and the changes in net assets available for plan benefits for the year ended December 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

Supplementary information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of assets (held at year end) December 31, 2014 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such supplementary information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

Notes to financial statements

A - DESCRIPTION OF PLAN

The following description of The Charles Machine Works, Inc. Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of Plan provisions.

1. General

The Plan is an employee stock ownership and profit sharing plan covering employees of Charles Machine Works (the "Company" or the "Employer"), and the subsidiaries, Radius HDD Direct, LLC, American Augers, Inc., Earth Tool Company, LLC ("HammerHead"), and Florida Underground Services, LLC, ("MTI") who have attained the age of 18 and have three months of continuous employment or have completed one year of service, which is equivalent to 1,000 hours in a plan year. Employees of the Company's other affiliates or subsidiaries, and leased employees are not eligible to participate in the Plan. Employees may begin participating in the Plan on the first day of the month after the employee meets the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

2. Contributions

The Company may make discretionary profit sharing and discretionary stock contributions to the Plan. The Company's stock contributions are made to the stock account and are used to acquire stock of the Company, which is credited to the participant's individual stock account. Only participants who complete a year of service and are employed on the last day of the Plan year receive an allocation of Employer contributions. Employees are not allowed to make contributions to the Plan. The Company announced a stock contribution of \$2,803,599 during 2013 which was paid to the Plan during 2014. The Company announced a stock contribution of \$1,926,345 and a cash contribution of \$3,852,690 during 2014 which was paid to the Plan during 2015.

3. Participant Account - Trust Account

Each participant's trust account is credited with an allocation of the Plan earnings and losses thereon. The Company's contributions are allocated based on the ratio that each participant's compensation bears to the total compensation of all participants. Plan earnings and losses are allocated based on the ratio of the average daily balance of each participant's trust account to the total average daily balance of all participants' trust accounts.

On January 27, 2014, the Company transferred all participants' trust account balances totaling \$36,366,469 to the Company's 401(k) Plan.

4. Participant Account - Stock Account

Each participant's stock account may be credited with an allocation of (a) the Company's stock contributions, (b) dividends received on Company stock (which are passed through the Plan and paid out to participants in a cash distribution) and (c) Plan earnings and losses thereon. The Company's contributions are allocated based on the ratio that each participant's compensation bears to the total compensation of all participants. Plan

earnings and losses and dividends received on Company stock are allocated to participants based on the ratio of the average daily balance of each participant's stock account to the total average daily balance of all participants' stock accounts.

5. Vesting

Participants are fully vested in their individual account balances in the Plan at all times.

6. Payment of Benefits

The benefit to which a participant is entitled is that which can be provided from the participant's accounts. Upon termination of service, if the participant's account balance is not more than \$5,000 but is in excess of \$1,000 and the participant has not elected a form of distribution, the Plan administrator shall distribute the amount into an individual retirement account. If the participant's account balance is in excess of \$5,000, a participant will receive a lump sum payment of his or her account balances. If the participant's account balance is \$1,000 or less, the Plan administrator will send a check to the participant's current address, but if the Plan administrator does not have a current address, the amount will be distributed to an individual retirement account. Distributions of a participant's stock account are made in Company stock, with cash issued for the value of any fractional shares held by the participant.

Under the provisions of the Plan, the Company has the right of first refusal to purchase any and all shares of Company stock that have been distributed under the terms of the Plan as long as the shares are not publicly traded. The Company may assign this right to the trustees of the Plan.

7. Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. Therefore, if a participant receives all or a portion of a distribution in the form of Company stock, the participant may, within the 60 days following the distribution or the 60 days following the participant's notification of the fair market value of the stock as of the end of the Plan year, require the Company or the Plan trustees to purchase such shares at the fair market value of the shares as of the most recent valuation date, as defined in the Plan agreement. If the stock distribution was a distribution of the participant's entire account balances, the Company can pay for the purchase, with interest, in five equal annual installments. Otherwise, the Company must pay for the purchase within 30 days after the participant exercises the put option.

8. Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account. Participants generally assign voting rights associated with shares of Company stock held by the Plan to the majority shareholder of the Company.

December 31, 2014 and 2013

9. Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants that have attained the age of 55 and have completed ten years of service may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of their stock account balance attributed to Company stock acquired on or after January 1, 1987, less any shares previously diversified. In the sixth year, the percentage increases to 50%. Participants may elect to diversify by taking a distribution of this amount or by rolling the amounts over to another qualified plan.

10. Amounts Due to Plan Sponsor

During 2014, the Plan borrowed \$500,000 from the Company in the form of two promissory notes, to pay ordinary operating expenses of the Plan. No interest is due or payable on the principal amount, and the promissory notes are not collateralized.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements are presented on the accrual basis of accounting.

2. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, changes therein and disclosures of contingent assets and liabilities. Actual values and results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments in mutual funds are valued at fair value, which is determined by quoted market prices. Shares of Company stock are valued at fair value on December 31, 2014 and 2013, as determined annually by independent appraisal.

The valuation of the Company's common stock was performed by an independent third party valuation specialist. Management believes the methods and assumptions used are appropriate to provide a reasonable value of the Company's common stock at December 31, 2014 and 2013.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date.

The Charles Machine Works, Inc. Employee Stock Ownership Plan and Trust

Notes to financial statements - continued

December 31, 2014 and 2013

Prior to January 27, 2014, the Plan provided for investments in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

4. Concentration of Credit Risk

The Plan maintains its cash in bank deposit accounts, which, at times, may exceed federally insured limits. The Plan had cash of approximately \$82,057 in a financial institution over the federally insured limit as of December 31, 2013. The Plan did not have cash in excess of federally insured limits at December 31, 2014 and has not experienced any losses in such accounts. The Plan believes it is not exposed to any significant credit risk.

5. Administrative Expenses

Investment and certain administrative expenses are paid by the Plan. Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Cash

Cash consists of cash in interest-bearing checking accounts.

C - INVESTMENTS

All Plan investments, including cash are non-participant directed.

The Plan's investment in common shares of the Company's common stock, all of which has been allocated to Plan participants at December 31, 2014 and 2013, is as follows:

	2014	2013
Number of shares	268,136	268,136
Fair value per share	\$ 233	\$ 221
	<u>\$ 62,475,688</u>	<u>\$ 59,258,056</u>

The following table represents the fair value of those investments that represent 5% or more of the Plan's net assets available for plan benefits as of December 31, 2014 and 2013.

During the year ended December 31, 2014, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds at fair value as determined by quoted market price	\$ 149,500
The Charles Machine Works, Inc. common stock at estimated fair value	<u>3,217,632</u>
Net appreciation in fair value of investments	<u><u>\$ 3,367,132</u></u>

D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three broad levels of fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liabilities have a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Charles Machine Works, Inc.
Employee Stock Ownership Plan and Trust

Notes to financial statements - continued

December 31, 2014 and 2013

The following methods and assumptions were used in estimating fair value disclosure for financial instruments:

Cash: Valued at fair value.

Mutual funds: Valued at published market prices which represent the net asset value of shares held by the Plan at year end. Shares of mutual funds investing in bond funds are unitized, and the fair value is based on the closing market price of the assets held by the fund.

Company stock: The fair value of The Charles Machine Works, Inc. Company stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by the three levels as established by ASC 820, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2014			
	Level 1	Level 2	Level 3	Total

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Company Stock

Balance, end of year	<u>\$ 62,475,688</u>

E - TAX STATUS

On March 27, 2014, the Plan received a favorable Internal Revenue Service determination letter of the Plan, as amended. The Plan has applied for a separate determination letter with the Internal Revenue Service but has yet to receive the determination letter. The Plan has been amended subsequent to the date of the opinion letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company may amend or terminate the Plan at any time, subject to the provisions of ERISA. If the Plan is terminated, the Plan assets will be distributed to the participants in accordance with the Plan agreement.

December 31, 2014 and 2013

G - SUBSEQUENT EVENTS

The Plan evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. The amounts due to the Plan sponsor (see Note A.10) were paid on May 29, 2015. The Plan has evaluated subsequent events through October 1, 2015, the date the financial statements were available to be issued and determined that there were no additional subsequent events that required disclosure or recognition in these financial statements.
