Note 1 - Description of Plan

The following description of the Susquehanna Bancshares, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution plan covering substantially all employees of Susquehanna Bancshares, Inc. and its Affiliates (the Company) that have adopted this Plan and are not covered under a collective bargaining unit. Employees are eligible to begin making salary deferral contributions upon date of hire. Employees must complete one year of service to be eligible for the Company's matching contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation as defined in the Plan. Additionally, the plan document provides for voluntary after-tax contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. Participants will be automatically enrolled in the Plan on the plan entry date, as defined in the plan document, unless they elect to opt out. Participants who are automatically enrolled will have 3% of their eligible compensation withheld and remitted to the Plan. For any participant deferring less than 3%, they will be auto re-enrolled annually at the 3% default elective deferral percentage. The automatic deferral rate increases annually at a rate of 1% per year until the automatic deferral percentage reaches 10%. Participants are given the option to discontinue participation, or change the deferral percentage, at any time.

The Plan utilizes a safe harbor matching contribution formula. The Company matches 100% of the first 3% and 50% of the next 2% of a participant's eligible compensation made as an elective deferral not to exceed 5% of eligible compensation.

Effective July 1, 2009, the Plan was amended to allow for an employer nonelective contribution due to the Company freezing certain benefits effective June 30, 2009 under the defined benefit plan sponsored by the Company. Employees who were hired before January 1, 2009, and who were not age 50 or who had not earned at least 15 years of vesting service as of December 31, 2009, became eligible for an automatic 2% employer nonelective contribution as of July 1, 2009, even if the employee is not contributing to the Plan. Employees who are hired on or after January 1, 2009 will be eligible for the automatic 2% employer nonelective contribution once they have met the eligibility requirements, even if the employee is not contributing to the Plan. As of January 1, 2014 all employees are eligible for the employer nonelective contribution on the first day of the following plan year after the employees' start date.

Contributions are subject to certain IRS limitations.

Note 1 - Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. A participant who requests a loan from the Plan is directly charged a processing fee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

As of January 1, 2014, participants are immediately vested in all contributions, plus actual earnings thereon. Prior to January 1, 2014, participants were immediately vested in their contributions plus actual earnings thereon. A participant was 100% vested in the Company's safe harbor matching contributions after two years of credited service. Additionally, a participant was 100% vested in the Company's nonelective contributions after five years of credited service, based on the following vesting schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Regardless of the number of years of service, a participant's employer account balance becomes fully vested when a participant retires, becomes permanently disabled, or dies.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2.00%, set two times per month. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in installments under a systematic withdrawal plan.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $26,233 and $14,367, respectively. These accounts may be used to restore a participant's account upon re-employment, pay administrative expenses, and to reduce future employer contributions. Employer contributions were reduced by $1,589 and $199,775 during 2014 and 2013, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946, have not been applied to the statement of net assets available for benefits since the difference between contract value and fair value is not material.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses.

Note 2 - Summary of Significant Accounting Policies (continued)

Expense Budget Account Arrangement

Effective May 1, 2010, the Plan entered into an agreement with Transamerica Retirement Solutions Corporation, recordkeeper, to create an Expense Budget Account (EBA). The EBA is a plan level unallocated account that may be credited with expected fund revenue in excess of the required revenue in accordance with the agreement. Revenues received from the arrangement were $730,891 and $626,981 for the years ended December 31, 2014 and 2013, respectively, and are reported in the Plan's financial statements in investment activities. These amounts can be used to pay plan related expenses or can be allocated to participants. Total plan expenses paid through the EBA amounted to $538,747 and $450,251 for the years ended December 31, 2014 and 2013, respectively, and are reported in the Plan's financial statements in administrative expenses. There was no allocation to participant accounts during 2014 and 2013.

Recent Accounting Pronouncement

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in ASU 2015-07 remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for annual periods beginning after December 15, 2016, and interim periods within those fiscal years, with early adoption permitted. The adoption of ASU 2015-07 is not expected to have a material effect on the Plan's financial statements or disclosures.

Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets. 	$ 10,479,975	$ 24,610,400

Note 4 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 4 - Fair Value Measurements (continued)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies are valued at the net asset value of shares held by the Plan at year end.

The Plan's interest in the common collective trust fund is based on the fair value of the common collective trust fund's underlying investments, as based on information reported by the trustee, using the audited financial statements of the common collective trust fund at year end.

Common stock is valued at the closing price reported on the active market on which the individual security is traded.

Temporary cash investments are valued at the carrying value which is a reasonable estimate of fair value for these short-term investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of Level 3.

Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2014 and 2013:

	Fair Value				
	December 31, 2014	December 31, 2013	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust Fund					
Stable Pooled Fund (a)	**$ 13,879,229**	$ 3,275,040	$ -	Immediate	None

(a) This fund is solely invested in the Wells Fargo Stable Return Fund G (Wells Fargo). The Wells Fargo fund is designed to provide investors with a moderate level of stable income without principal volatility. The Wells Fargo fund is primarily invested in guaranteed investment contracts, security-backed contracts, and short term investments. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of investments in this class has been estimated using the net asset value per unit of the underlying investments.

Note 5 - Tax Status

The Company adopted a nonstandardized prototype plan sponsored by Transamerica Retirement Solutions Corporation. The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2014 stating that the prototype plan is qualified under the appropriate section of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2011.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the company contribution portion of their account.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Related Party Transactions and Party-in-Interest Transactions

Certain plan investments are shares of registered investment companies and units of a common collective trust fund managed by Transamerica Partners Institutional Funds Group (Transamerica). Transamerica and Transamerica Retirement Solutions Corporation are commonly owned. Transamerica Retirement Solutions Corporation is an agent for State Street Bank and Trust Company, the trustee as defined by the Plan. Certain plan investments are shares of a temporary cash investment managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for recordkeeping services in conjunction with processing loans and plan service fees amounted to $597,582 and $495,074 for the years ended December 31, 2014 and 2013, respectively. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party-in-interest transactions.

At December 31, 2014 and 2013, the Plan held in its investment portfolio -0- and 67,136 shares, respectively, of common stock of Susquehanna Bancshares, Inc. The fair value of this investment amounted to $-0- and $862,026 at December 31, 2014 and 2013, respectively.
