Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Alcoa Retirement Plan I (Alcoa Salary Plan), Alcoa Retirement Plan II (Alcoa Hourly Plan), Alcoa Subsidiaries Merged Inactive Plan (Alcoa Subsidiaries Merged Inactive Plan), Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan I (Suriname Plan I), Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan II (Suriname Plan II), Huck International Inc., Retirement Plan (Huck Plan), Howmet Corporation Muskegon County Operations Hourly Employees' Pension Plan (Muskegon Plan), and the Howmet Corporation Pension Plan (Howmet Plan) (each referred to as a "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and December 31, 2013, and the related statements of changes in individual plan net assets available for benefits for the years then, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and December 31, 2013 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plans

The following description of each Plan's provisions provides only general information. Participants should refer to each Plan document for a more complete description of each Plan's provisions.

General

The Alcoa Inc. and Subsidiary Companies ("Alcoa" or the "Company") Alcoa Retirement Plan I (Alcoa Salary Plan), Alcoa Retirement Plan II (Alcoa Hourly Plan), Alcoa Subsidiaries Merged Inactive Plan (Alcoa Subsidiaries Merged Inactive Plan), Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan I (Suriname Plan I), Employees' Retirement Plan of Suriname Aluminum Company for Employees in Suriname Plan II (Suriname Plan II), Huck International, Inc. Retirement Plan (Huck Plan), Howmet Corporation Muskegon County Operations Hourly Employees' Pension Plan (Muskegon Plan) and the Howmet Corporation Pension Plan (Howmet Plan) (each referred to as the "Plan") are noncontributory defined benefit plans that cover United States employees and certain employees in foreign countries and participate in the Alcoa Inc. Retirement Plans' Master Trust ("Alcoa Master Trust" or "Master Trust") at December 31, 2014 and 2013.

The investments of the Plans are maintained under one trust pursuant to a "Master Trust Agreement" with the trustee, The Bank of New York Mellon ("trustee").

All fiduciary responsibility for the Plans is maintained by the Alcoa Benefits Management Committee. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plans provide, in general, for monthly pensions upon retirement at or after age 65, or earlier upon disability, incapacity, special circumstances or with certain minimum age and service requirements. Pension benefits generally depend upon length of service, job grade or remuneration, and certain social security and other benefits.

Eligibility and Vesting

Employees hired before March 1, 2006 are eligible to participate in the Alcoa Salary Plan after they have attained age 21 with one year of service. Effective March 1, 2006, certain new hires are not eligible to participate in the Alcoa Salary Plan. Certain hourly employees are eligible to participate in the Alcoa Hourly Plan after they have attained age 21 with one year of service.

Suriname salaried employees hired after December 31, 2011 are no longer eligible to participate in Suriname Plan I. Suriname hourly employees hired after December 31, 2012 are no longer eligible to participate in Suriname Plan II. If hired prior to these dates, employees are eligible to participate in Suriname Plan I and Suriname Plan II after they have attained age 21 with one year of service.

There are no longer any active participants accruing benefits in the Alcoa Subsidiaries Merged Inactive Plan or the Huck Plan. Benefits are being provided to retired participants and will be provided to deferred vested participants in accordance with Plan provisions applicable at the time of their termination.

Employees hired or rehired prior to January 1, 1999 are eligible to participate immediately in the Muskegon Plan.

Nonunion hourly-paid employees are eligible to participate immediately in the Howmet Plan. Effective January 1, 2002, certain salaried employees commenced participation in Alcoa Plan I.

All eligible participants currently accruing benefits in the Plans fully vest after a five-year period except the eligible participants in the Muskegon Plan which fully vest after five years of continuous service and the eligible salaried participants in the Howmet Plan which fully vest after three years of service.

Benefit Provisions
The benefit provisions for the Alcoa Salary Plan, the Suriname Plan I, and the Howmet Plan determine the retirement benefit on a compensation-based formula.

The Alcoa Hourly Plan, the Suriname Plan II, and the Muskegon Plan determine the retirement benefits on a factor times years of service.

Benefit provisions for certain participants of the Alcoa Subsidiaries Merged Inactive Plan determine the retirement benefit on a compensation-based formula while the remaining are based on hypothetical account balances.

The benefit provisions for the Huck plan determine benefits for service through December 31, 2001 based on a percentage of monthly earnings. This percentage was based on age at month end.

Normal retirement for the Alcoa Salary Plan, the Alcoa Hourly Plan, the Alcoa Subsidiaries Merged Inactive Plan and the Huck Plan is age 65 with five years of service.

Normal retirement for the Suriname Plan I is age 60 with 18 months of service or age 55 with 30 years of service.

Normal retirement for the Suriname Plan II is the earlier of the date of (i) age 60, or (ii) the later of the date of age 65 or 18 months of service.

Normal retirement for the Muskegon Plan and the Howmet Plan is age 62 with five years of service.

Risks and Uncertainties
The Plans invest in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of individual plan net assets available for benefits.

Plans' contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the individual Plans' financial statements.

Termination of Plans
Benefits under the Plans are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plans' terminate at some future time, the net assets of the Plans generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

A full description of each Plan's termination priorities is available in each Plan document.

Recently Issued Accounting Standards
In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") No. 2015-07 "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." The amendments within ASU No. 2015-07 remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years with early adoption permitted. We plan to adopt ASU 2015-07 for the 2016 Plan year audit and do not expect the adoption to have a material effect on the Master Trust's financial condition or net assets available for benefits.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans, and Health and Welfare Benefit Plans." The FASB issued ASU 2015-12 to reduce complexity in employee benefit plan accounting, which is consistent with its Simplification Initiative. The objective of the Simplification Initiative is to identify, evaluate, and improve areas of generally accepted accounting principles (GAAP) for which cost and complexity can be reduced while maintaining or improving the usefulness of the information provided to users of financial statements. ASU No. 2015-12 will be effective for fiscal years beginning after December 15, 2015 and will be applied retrospectively. We plan to adopt ASU 2015-12 for the 2015 Plan year audit and do not expect the adoption to have a material effect on the Master Trust's financial condition or net assets available for benefits.

2. Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plans are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates
The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Plans' interest in Alcoa Inc. Retirement Plans' Master Trust Investment income includes the Plans' unrealized and realized gains and losses on investments along with dividends, interest income and investment management/trustee fees.

The fair value of the Plans' interest in the Master Trust is based on the beginning-of-year value of the Plans' interest in the Master Trust plus actual contributions and allocated investment income less actual distributions, allocated investment loss and administrative expenses.

The individual Plans participate in the operations of the Master Trust through the purchase and sale of units. Cash inflows and outflows between the Plans and the Master Trust are accounted for at the beginning-of-the-month unit value. Units are revalued monthly to reflect changes in the investment values. Net investment income and losses are allocated to the Plans that participate in the Master Trust based on each Plan's units held.

Benefit Payments
Benefit payments to participants are recorded when paid.

Administrative Expenses
Trustee, audit, legal, actuarial, recordkeeping, and other administrative expenses are paid by the Plans.

Investment Management Fees
Investment management fees are paid by the Plans and are included in Plans' interest in Alcoa Inc. Retirement Plans' Master Trust Investment income.

Employer Contributions Receivable
Employer contributions receivable represent the remaining funding amounts Alcoa is required to contribute to meet the minimum contribution levels established by law or as a result of a formal commitment by Alcoa to make a contribution into the respective Plans.

Funding Policy
The Plans are defined benefit pension plans. No employee contributions to the Plans are required or permitted. Alcoa contributes such amounts as are necessary on an actuarial basis to provide the individual Plans with assets sufficient to meet the benefits to be paid to current and future retirees or their beneficiaries. The minimum contributions required, if any, for the Plans are designed to fund the Target Normal cost and an amortization installment towards any funding shortfalls. A funding shortfall occurs when there is an excess of Funding Target liability over the Actuarial Value of Plan Assets. The amortization installment is designed to fully fund the funding shortfall in a given year over a 7 year period. Alcoa may also voluntarily contribute amounts in excess of those minimum required amounts to meet certain funding thresholds or company objectives.

The actuarial determined pension contribution is calculated using the Unit Credit Cost Method. The Funding Target liability is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected expenses to be paid from plan assets during the year.

The Plans have met the minimum funding requirements under the provisions of ERISA in 2014 and 2013.

Investment Policy and Strategy
The Alcoa Master Trust's investment policy and weighted average asset allocations at December 31, 2014 and 2013, by asset category, are as follows:

Asset Category	Policy Range
Equity securities	20-55%
Debt securities	25-55
Other	15-35

The principal objectives underlying the investments of the Alcoa Master Trust's assets are to ensure that Alcoa can properly fund benefit obligations as they become due under a broad range of potential economic and financial scenarios, maximize the long-term investment return with an acceptable level of risk based on such obligations, and to broadly diversify investments across and within the capital markets to protect asset value against adverse market movements in any one market. Specific objectives for long-term investment strategy include reducing the volatility of pension assets relative to pension liabilities and achieving risk factor diversification across the balance of the asset portfolio. Investments are diversified by strategy, asset class, geography, and sector to enhance returns and mitigate downside risk. A large number of external investment managers are used to gain broad exposure to the financial markets and to mitigate manager concentration risk.

Investment practices must comply with the requirements of ERISA and any other applicable laws and regulations. The use of derivative instruments is permitted where appropriate and necessary for achieving overall investment policy objectives. Derivatives are used to, (1) manage interest rate risk within the portfolio, (2) manage exposure to a market more efficiently than could be accomplished through the use of cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments. The Master Trust utilizes exchange traded instruments such as interest rate futures, options on futures, interest rate swaps and foreign currency forward contracts.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Account Standards Codification* (ASC) No. 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013:

Cash and Cash Equivalents
Includes investments in U.S. government securities with maturities less than one year and commingled funds. The commingled funds are valued at cost which approximates fair value. Investments in U.S. government securities are valued at fair value, as determined by the trustee through independent sources, which approximates the last reported closing price on the last business day of the year.

Fixed Income Securities
These securities consist of U.S. government debt which are included as Level 1, and publicly traded U.S. and non-U.S. fixed interest obligations (principally corporate bonds and debentures) which are valued through consultation and evaluation with brokers in the institutional market using quoted prices and other observable market data and are included as Level 2. Commingled trust funds are valued at the Net Asset Value "NAV" of shares held at year end. Additionally these securities consist of commercial and residential mortgage-backed securities which are valued by investment managers based on the most recent financial information available, which typically represents significant unobservable data. As such, these investments are generally classified as Level 3. At December 31, 2013 and December 31, 2014 the Plan held no Level 3 Fixed Income Securities.

Equity Securities – Common Stocks and Futures Contracts
Valued at the closing price reported on the active market on which the individual securities are traded.

Equity Securities – Commingled Trust Funds and Gold Trust-Exchange Traded Fund
Valued at the net asset value ("NAV") of shares held at year end.

Alternative Investments
Estimated at fair market value which considers, but is not limited to fair values reported by the investment advisor, audited financial statements, and independently appraised values. In the event that audited financial statements for these investments are not available in time to prepare the financial statements or management believes the value reported by the investment advisor does not accurately reflect fair value due to an event in the market place, management will adjust the reported value to fair value based upon information provided by the investment manager and independent valuation experts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value.

The Master Trust uses the NAV to determine the fair value of all of the underlying investments which (a) do not have a readily determinable fair value and (b) either have the attributes of an investment company or prepare their financial statements consistent with the measurement principals of an investment company.

The following table sets forth a summary of liquidity consideration of the investments classified as commingled trust funds in Level 2 and 3 investments.

At December 31, 2014 and 2013, the Plan had Level 3 Alternative Investments valued at $3,289,247,424 and $3,033,903,341, respectively. The investments in the Plan's financial statements have been valued primarily at the unadjusted net asset value (or its equivalent) as reported by the managers of the Alternative Investments or as reported in the audited financial statements.

5. Derivatives

Derivatives Policy

The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to (1) manage interest rate risk within the portfolio, (2) manage exposure to a market more efficiently than could be accomplished through the use of cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments. The Master Trust utilizes exchange traded instruments such as interest rate futures, options on futures, interest rate swaps and foreign currency forward contracts. The Plan is subject to enforceable master netting arrangements, or netting arrangements, with certain counterparties. Master netting agreements may not be specific to each different asset type; in such instances, they would allow the company to close out and net its total exposure to a specified counter party in the event of a default.

The following is a summary of the Master Trust's usage of derivatives:

Futures Contracts

A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange.

The Master Trust may use treasury, Eurodollar, and other fixed income futures contracts to manage exposure to interest rate risk and exposure in the market. Buying futures tends to increase the Master Trust's exposure to the underlying instrument held, while selling futures tends to reduce the exposure. The balance of futures at year-end is indicative of the average balance during the year.

A summary of the open futures contracts as of December 31, 2014 and 2013 is presented below:

Options on Futures Contracts

The Master Trust may buy or sell options on futures contracts to capture value disparities between financial instruments. Options strategies may be used to improve yields and enhance performance of the fixed income portfolio. Options on futures contracts are purchased or sold on regulated futures exchanges.

Interest Rate Swaps
The Master Trust may use interest rate swaps to manage exposure to interest rates within the portfolio or to capture value disparities between financial instruments. An interest rate swap typically involves the agreement with a counterparty to exchange variable rate and fixed rate payments with respect to a notional amount of principal on the value of an underlying instrument or index. Interest rate swaps are purchased or sold on regulated futures exchanges.

Foreign Currency Forwards
The Master Trust may use foreign currency forwards to capture value disparities between the fixed income and currency markets. Currency forwards may be purchased or sold to enhance returns in the fixed income portfolio. Foreign currency forwards are purchased or sold on regulated futures exchanges.

Activity and year end holdings of Options on Futures Contracts, Interest Rates Swaps and Foreign Currency Forwards were not material to overall investment portfolio.

6. Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments that are attributable, under each Plan's provisions, to employees' service rendered to the benefit information date. Accumulated plan benefits comprise benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plans' actuary made this determination.

Based upon actuarial estimates at December 31, 2013, the present value of accumulated plan benefits for the Plans included in the Master Trust is as follows:

	Actuarial Present Value of Accumulated Plan Benefits at December 31, 2013			
	Vested Benefits of Participants Currently Receiving Benefits	Other Vested Benefits	Nonvested Benefits	Total Present Value of Accumulated Plan Benefits
Alcoa Salary Plan	$ 3,342,968,335	$ 1,592,908,215	$ 62,371,279	$ 4,998,247,829

7. Tax Status

The Internal Revenue Service has determined and informed the Company that the Plans and related trust are designed in accordance with applicable sections of the IRC. The Plans have been amended since receiving the determination letters. However, the Plans' administrator and tax counsel believe that the Plans are designed and are currently being operated in compliance with the applicable requirements of the IRC.

Determination letters received were dated as follows:

Alcoa Salary Plan	April 25, 2013
Alcoa Hourly Plan	June 4, 2013
Alcoa Subsidiaries Merged Inactive Plan	April 29, 2013
Suriname Plan I	February 29, 2012
Suriname Plan II	October 14, 2014
Huck Plan	May 13, 2013
Muskegon Plan	July 10, 2012
Howmet Plan	March 18, 2013

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that would not be sustained upon examination by the IRS. The plan administrator and its tax counsel have analyzed the tax positions taken by the plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure to the financial statements. As such, no reserve is required under U.S. GAAP. The plan is subject to audit by the IRS; however, there are no current IRS audits for any tax periods in progress. The plan administrator and its tax counsel believe the Plan is no longer subject to IRS audit outside the statutory audit period.

8. Information Certified by the Plans' Trustee

The information included in the Plans' financial statements and Note 3 was prepared by Bank of New York Mellon, the Trustee of the Plans, as of and for the years ended December 31, 2014 and 2013 and furnished to the plan administrator. The plan administrator has obtained a certification from the Trustee that such information is complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plans' management relies on third party valuation statements in valuing its Level 3 investments. In substantiating the reasonableness of the valuation information provided, management considers a variety of factors including review of methods and assumptions used by external sources, economic conditions, and market developments.

9. Related Party Transactions

At December 31, 2014 and 2013, the Plans are invested in funds managed by the trustee and pay the trustee certain investment management and trustee fees; therefore, these transactions qualify as party-in-interest transactions.

10. Plan Specific Activities

Alcoa Salary and Hourly Plans
Alcoa Inc. sold its interest in the Mt. Holly aluminum smelter in Goose Creek, South Carolina, to the Century Aluminum Company on December 1, 2014. In accordance with the side agreement, Mt. Holly active and inactive participants in the Alcoa Salary and Hourly Plans had their liabilities and associated plan assets transferred to the Century Aluminum of South Carolina, Inc. Employees Retirement Plan in 2015. As a result, payables of $62,016,882 and $55,058,886 were established as of December 31, 2014 in the Alcoa Salary and Hourly Plans, respectively. The Alcoa Salary and Alcoa Hourly Plans' actuarial present value of accumulated plan benefits for these participants were $47,334,890 and $34,713,359, respectively. This is not reflected in the December 31, 2013 actuarial valuation.

Alcoa Hourly Plan
In 2014, United Steelworkers ratified a new five-year labor agreement. A plan amendment recognized the effect of participants receiving pension factor increases. This resulted in an increase of the actuarial present value of accumulated plan benefits by approximately $23,590,000. Additional plan amendments recognizing the effect of participants receiving pension factor increases resulted in an increase of the actuarial present value of accumulated plan benefits by approximately $318,000.This is not reflected in the December 31, 2013 actuarial valuation.

In 2013, a plan amendment recognized the effect of participants receiving pension factor increases at a certain location. This amendment increases the actuarial present value of accumulated plan benefits by approximately $39,000. This is reflected in the December 31, 2013 actuarial valuation.

Muskegon Plan
In 2013, a plan amendment recognized the effect of participants receiving pension factor increases. This amendment increased the actuarial present value of accumulated plan benefits by approximately $3,416,000. This is reflected in the December 31, 2013 actuarial valuation. During 2013, a lump sum retirement incentive to be paid from company assets was offered to certain active participants of the plan. This resulted in a number of employees leaving the company and also receiving their lump sum pension payment.

2014 Contributions
On January 15, 2014 and September 15, 2014, Alcoa Inc. made cash contributions of $64,137,031 and $67,113,000 to its plans. In the plan financial statements, the $131,250,031 is being applied to the 2013 plan year and is reflected as an employer contribution receivable on the Statements of Individual Plan Net Assets Available for Benefits and as an Employer Contribution on the Statements of Changes in Individual Plan Net Assets Available for Benefits.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding/PBGC Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as amended by PPA, MAP-21 and HATFA.

Funding and PBGC premium interest rates

For 2014 Plan Year: Segment Rates with four-month lookback, constrained in accordance with MAP-21 and HATFA as follows:

	Unconstrained Rates*	Rates Reflecting MAP-21 Corridor	Rates Reflecting HATFA Corridor**
First Segment Rate	1.37%	4.43%	4.99%
Second Segment Rate	4.05%	5.62%	6.32%
Third Segment Rate	5.06%	6.22%	6.99%

Effective Interest Rate Based on HATFA rates: 6.23%

For 2013 Plan Year: Segment Rates with four-month lookback, constrained in accordance with MAP-21 and HATFA as follows:

	Unconstrained Rates*	Rates Reflecting MAP-21 Corridor	Rates Reflecting HATFA Corridor**
First Segment Rate	1.75%	4.94%	5.23%
Second Segment Rate	4.62%	6.15%	6.51%
Third Segment Rate	5.72%	6.76%	7.16%

Effective Interest Rate Based on HATFA rates: 6.44%

*Used for maximum tax-deduction and PBGC premium purposes
**Used for minimum funding and benefit restriction purposes

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative and investment related expenses to be paid from plan assets during the year.

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

Salary increases

No future salary increases are assumed for participants in Rule A because all account benefit credit accruals were frozen as of December 31, 2001. There are no longer any active participants in Rule B.

Cash Balance interest crediting rate

Current and Future Years:	3.00%
Prior Year:	3.00%

Expenses

Expected plan administrative and investment related expenses of $130,000 were added to the Target Normal Cost.

Benefit limits

Limits on benefits due to Section 415 of the Internal Revenue Code are not assumed to increase.

Frequency of optional payment forms

For participants in Rule A, 50% immediate lump sum and 50% deferred lump sum of the account balance. For participants in Rule B, life annuity.

Marital percentage

It was assumed that 80% of participants would be married upon commencement of coverage for death benefits.

Mortality table

The mortality tables are applied on a static basis. Separate annuitant and non-annuitant tables were used

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by, 2/3 and 1/3 of the of the gain/(loss) in each of the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2014 Expected Return	8.00%	6.99%	6.99%
2013 Expected Return	8.50%	7.16%	7.16%
2012 Expected Return	8.50%	7.52%	7.52%

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2013 Valuation

The expected rate of return on assets was changed from 8.50% to 8.00%.

Schedule SB, Line 24 –Change in Actuarial Assumptions

The expected rate of return on assets was changed from 8.50% to 8.00%. This decrease in the expected long-term rate of return was due to a combination of a decrease in the 20-year moving average of annual performance and lower future expected market returns. The process relied on a combination of historical asset return information and forward-looking returns by asset class using information from various external investment managers and consultants.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

ATTACHMENT TO SCHEDULE SB OF 2014 FORM 5500

Schedule SB, Part V – Summary of Plan Provisions

Rule A – Personal Retirement Account Plan

Participation

All full-time employees of Huck International, Inc., not covered under a collective bargaining agreement.

Accrued Benefit

The lifetime annuity Actuarially Equivalent to the Account Balance.

Account Balance

The account balance is a bookkeeping entry which is equal to the sum of (a) and (b) below:

(a) Benefit credits as of the last day of each calendar month of active participation prior to January 1, 2002, equal to a percent of monthly earnings, based on the employee's age:

Age	Benefit Credit
Less than 30	2.0%
30 but not yet 40	3.0
40 but not yet 50	4.0
50 but not yet 60	6.0
60 and over	8.0

(b) Interest credits as of the last day of the month equal to the product of (i) the Applicable Interest Rate in effect as of the first day of the plan year compounded monthly at a simple annual rate, and (ii) the participant's account balance.

Applicable Interest Rate

The sum of the average yield in November of the preceding plan year on one-year Treasury Constant Maturities and one percentage point.

Earnings

Base salary (without regard to any pay reduction agreement), excluding overtime and bonuses.

Actuarial Equivalence

The sum of the average yield on one-year Treasury Constant Maturities for November of the preceding plan year plus one percentage point. The mortality table prescribed by the Internal Revenue Service, which is based on the prevailing Commissioner's standard table used to determine reserves for group annuity contracts.

Normal Retirement

Eligibility is the later of attainment of age 65 or 5 years of service. The normal retirement benefit is the Actuarial Equivalent of the Account Balance.

Delayed Retirement

Eligibility is continued service beyond the Normal Retirement date. The delayed retirement benefit is the Actuarial Equivalent of the Account Balance.

Early Retirement

Eligibility is age 55 and 5 years of service. The early retirement benefit is the Actuarial Equivalent of the Account Balance.

Disability Retirement

Eligibility is total and permanent disability and 2 years of service. Disability benefit is the Actuarial Equivalent of the Account Balance as of the date of disability retirement.

Deferred Vested Benefit

Eligibility is 2 years of service. The deferred vested benefit is the product of the Actuarial Equivalent of the Account Balance and vested percentage (according to the schedule below). Benefit is payable at the normal retirement date, or any other time after termination, provided a written request is filed with the plan administrator. Effective December 31, 2001, all participants are fully vested in their account balances.

Years of Service	Vested Percentage prior to 12/31/2001
Less than 2	0%
2	25
3	50
4	75
5 or more	100

Pre-Retirement Spouse's Benefit

A participant eligible to receive a vested benefit who dies before retirement is eligible for a pre-retirement surviving spouse pension. This applies to active participants, terminated participants, disabled participants, and early retirees who have not yet commenced benefit payments. The monthly pension is equal to 50% of the actuarially equivalent joint and survivor annuity which would have been payable to the participant at the later of normal retirement date (age 55, if terminated vested) or his date of death (with interest credits to the account balance continuing until this date). Payments to the spouse are deferred to the date at which the terminated vested. A surviving spouse is also entitled to receive a lump sum payment equal to the actuarial equivalent of the greater of the survivor annuity or of the accumulated account balance.

Normal Form Of Payment

Life Annuity. However, unless a married participant elects otherwise, the benefit is automatically converted to an actuarially equivalent 50% joint and survivor annuity.

Optional Forms Of Payment

Certain and life annuity (two to ten years certain, with interest credited to any payable amounts still unpaid), lump sum payment for accrued benefits.

Vesting Service

Vesting service is used to determine a participant's eligibility for benefits under the plan. It is measured in elapsed time, subject to the break-in-service provisions of the plan.

Benefit Service

Benefit service is used to determine the amount of a participant's benefit. It is measured in elapsed time, subject to the break-in-service provisions of the plan, but is frozen as of December 31, 2001.

Contributions

All contributions to support the Plan are made by the Company.

Rule B – Pension Plan For The Bargaining Employees of Medina, OH

Participation

Employees at the Huck Medina, OH location covered under the collective bargaining agreement. There are no active participants covered under Rule B.

Service

Based on years, months, and days of continuous regular employment with the Company. Benefit service only recognizes service after January 1, 2002.

Compensation

The total payments made by the Company other than payments made for specific purposes not in the category of wages or salary. Compensation includes profit sharing amounts paid but excludes overtime and SPP pay.

Average Final Compensation

The average of the five highest consecutive calendar years of compensation within the preceding ten years.

Social Security Covered Compensation

The average of the taxable wage bases for the 35 calendar years ending with the year an individual terminates service.

Accrued Benefit

Consists of one twelfth times service times

(a) 1.1% of Average Final Compensation up to Social Security Covered Compensation plus

(b) 1.475% of Average Final Compensation in excess of Social Security Covered Compensation

Normal Retirement

The eligibility is age 65 with 5 years of service. Accrued Benefit payable immediately, not less than $100 per month.

Early Retirement (55/10)

Eligibility is Age 55 with 10 years of service. Accrued Benefit payable at age 65 or immediate actuarial equivalent of Accrued Benefit reduced from age 65 using 5% interest and the Male Modified Group Mortality with a 3-year setback. Minimum benefit of $100 per month.

Disability

Permanently incapacitated and 10 or more years of pension service. Accrued Benefit payable immediately with an additional supplement of $400 per month payable to age 62. Supplement is paid only if denied Social Security disability benefits. Minimum benefit of $100 per month.

Deferred Vested

Eligibility is 5 years of service. Accrued Benefit payable at age 65 or an actuarial equivalent benefit as early as age 55 reduced from age 65 using 5% interest and the Male Modified Group Mortality with a 3-year setback.

Preretirement Surviving Spouse Benefit

Eligibility is death after 5 years of service. 50% of Accrued Benefit actuarially reduced for surviving spouse coverage payable at the later of the date of death or the date the participant would have attained age 55.

Postretirement Surviving Spouse Benefit

Monthly benefit payable to participant is actuarially reduced. 50% of the reduced benefit is payable to the spouse if the participant dies first. Except for a Deferred Vested Surviving Spouse Pension, the monthly benefit payable to a surviving spouse shall not be less than $100 per month.

Summary of Changes from the January 1, 2013 Valuation

None.
