MOLD-RITE PLASTICS
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Mold-Rite Plastics 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement and savings plan covering all eligible employees of Mold-Rite Plastics, LLC, Weatherhead Industries, Inc. and Stull Technologies, Inc. (the Companies). The Plan was merged with Weatherhead Industries, Inc. and Subsidiaries 401(k) and Profit Sharing Plan and Stull Technologies, Inc. 401(k) Plan in January 2014. The Plan operates under the name Mold-Rite Plastics 401(k) Plan, and as of January 2014 Weatherhead Industries, Inc. and Subsidiaries 401(k) and Profit Sharing Plan and Stull Technologies, Inc. 401(k) Plan ceased to exist.

An employee becomes eligible after completing six months of employment and has turned 20 years of age. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA). Benefits under the plan are provided by a combination trust and insurance. A total of 555 persons were active participants of the plan at the end of the plan year.

Vesting

All employees who met eligibility requirements are immediately 100% vested.

Contributions

The company makes contributions in an amount equal to 100% of employees' salary reduction contributions to the extent that aggregate contributions do not exceed 3% of compensation, and an amount equal to 50% of employees' salary reduction contribution to the extent that aggregate contribution do not exceed between 4 and 6% of compensation. For the years ended December 31, 2014 and 2013, employer contributions totaled $1,302,126 and $541,560, consisting of profit sharing contributions of $0 and $259,719 and employer matching contributions of $1,302,126 and $281,841, respectively.

In accordance with Plan provisions, participants direct all contributions and earnings, thereon, among the current funds offered by the Plan. For the years ended December 31, 2014 and 2013, employee contributions totaled $1,272,638 and $684,563.

Prior to the company's safe harbor election effective January 1, 2014, the company historically made discretionary contributions equal to 2% of all active participants' compensation regardless of their participation in salary reduction contributions.

Participant's Accounts

Participant's Accounts are credited with the participant's allocable share of the employer contribution, if any, Plan earnings or losses, and forfeitures of the non-vested portion of terminated participant's accounts if termed before 12/31/13. Allocations of contributions and forfeitures are based on participant compensation, as defined by the Plan. Allocation of investment earnings or losses is based on account balances. The benefit to which a participant is entitled is equal to the vested portion of the participant's accounts.

Pension Benefits

Participants are entitled to receive retirement benefits equal to their account balance upon attaining normal retirement age as defined by the plan document. Distributions are made in a lump sum, or upon request, in substantially equal monthly, quarterly, or annual installments over a fixed reasonable period of time, not to exceed the life expectancy of the participant and beneficiary. The Plan also provides for early and late retirement benefits, termination benefits, disability benefits, and death benefits. For the years ended December 31, 2014 and 2013, benefit payments paid to participants totaled $3,250,918 and $1,109,434, respectively.

If a Plan participant terminates employment for any reason other than retirement, death or disability, the participant is entitled to receive the vested portion of his/her account and 100% of the account balance of any salary reduction or voluntary contribution money. Any non-vested portion becomes a forfeiture and is allocated first to reduce any ordinary and necessary Plan administrative expenses and then to fund discretionary contributions.

Investment Options

The Plan provides that contributions shall be invested in any one or more of the available investment accounts. Participants may change their investment options any time throughout the year via internet or direct phone access with Principal.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis Of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation And Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in the Principal Fixed Income Guaranteed Option (FIGO) investment contract. FIGO, a Group Annuity Contract – Custodial Interest Contract, is backed by the assets of the general account of Principal. Benefit payments are made at contract value (no termination or surrender charges) for plan benefit events and investment transfers initiated by plan participants. Thus, this contract is considered benefit responsive and is reported in the financial statements at contract value which equals fair value. The average yield for this benefit responsive contract was 2.00% during 2014. The crediting interest rate was 2.00% as of December 31, 2014.

Notes Receivable From Participants

Beginning in 1997, in accordance with a non-discrimination policy, Plan trustees have made loans to participants, not less than $1,000 and not to exceed $25,000 or fifty percent of each participant's vested interest. At December 31, 2014 and 2013 participant loans totaled $826,146 and $865,599, respectively.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan Document.

Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code.

Plan Fees

Plan fees are paid by Mold-Rite Plastics, LLC, a limited liability company. The fees shown on the Statements of Changes in Net Assets Available for Plan Benefits reflect processing fees deducted from terminated employees' balances when they request a distribution from the Plan and loan fees incurred when participants request a loan withdrawal from the Plan.

Events Occurring After Reporting Date

The Company has evaluated events and transactions that occurred between December 31, 2014 and October 9, 2015 which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

3. INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2014 and 2013:

Mutual Funds	$ 162,210
Pooled Separate Accounts	638,742
Common/Collective Trust	395,149
Net Appreciation In Fair Value Of Investments	$ 1,196,101

4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs, because they generally provide the most reliable evidence of fair value. The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plant has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantial the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts – Pooled separate accounts ("PSA") contain observable Level 1 quoted pricing inputs or quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are classified as Level 2 investments since they are not publicly quoted and the investments may be redeemed at their net asset values ("NAV") as of the measurement date. The NAV is based on the value of the underlying assets owned by the PSA, minus any liabilities, and then divided by the number of shares outstanding. The following categories are included in the PSA:

- Large U.S. equity: Seeks to provide long-term growth of capital by primarily investing in companies with large market capitalization.
- Mid-U.S. equity: Seeks to provide long-term growth of capital by primarily investing in companies with medium market capitalizations.
- Small U.S. equity: Seeks to provide long-term growth of capital by primarily investing in companies with small market capitalizations.
- International equity: Invests the majority of assets in securities of companies with small to medium market capitalizations that meet the following criteria: (1) principal place of business or principal office is located in emerging market countries or outside of the United States; (2) principal securities are traded in an emerging market or on a foreign exchange; and (3) derive 50 percent or more of their total revenue from goods or services produced in emerging market countries or produced or sold outside of the United States.
- Intermediate-Term Bond: The investment seeks to provide a high level of current income consistent with preservation of capital. It invests primarily in a diversified pool of fixed income securities including corporate securities, U.S. government securities, and mortgage-backed securities, up to 35% of which may be below investment grade bonds which are rated at the time of purchase Ba1 or lower by Moody's and BB+ or lower by S&P. It maintains an average portfolio duration that is within 25% of the duration of the Barclays U.S. Aggregate Bond Index. The fund also invests in foreign securities and real estate investment trust (REIT) securities.

Common/Collective Trust Accounts – The Principal Trust Target Date Collective Investment Funds are part of a collective investment trust for which Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Principal Trust") acts as Trustee pursuant to the Declaration of Trust, and are only available to certain retirement plans and their individual participants. Principal Trust has retained Principal Management Corporation ("PMC") as the investment advisor with respect to the Funds. PMC is an affiliate of Principal Trust. The Fund is not a registered investment company, but the Trust is regulated under the state of Delaware banking law.

The Funds are designed to meet the needs of a plan participant that wants an investment option suited to the participant's particular investment time horizon and that tends to be more accepting of risk in the early years of his or her time horizon and becomes more risk-averse as he or she nears the investment goal (for example, retirement). Principal Trust manages the Funds to align, over time, underlying investments with the changing risk tolerance of the associated investment time horizon. These Funds are

sometimes referred as "target date funds." The target date funds offered are: Principal Trust Income Fund; Principal Trust Target 2010 Fund; Principal Trust Target 2015 Fund; Principal Trust Target 2020 Fund; Principal Trust Target 2025 Fund; Principal Trust Target 2030 Fund; Principal Trust Target 2035 Fund; Principal Trust Target 2040 Fund; Principal Trust Target 2045 Fund; Principal Trust Target 2050 Fund; Principal Trust Target 2055 Fund; and Principal Trust Target 2060 Fund.

Investment Contract – The Fixed Income Guaranteed Option (FIGO) is a benefit-responsive group annuity contract issued by Principal and is carried at fair value.

The following table provides information about significant unobservable inputs related to the Plan's investment in the FIGO contract, which is categorized as Level 3 in the ASC 820 fair value hierarchy.

Contract Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Gross Crediting Interest Rates
Custodial Interest	$ 2,351,032	Fair Value = Contract Value	Composite Crediting Rate	2.00%-2.00%

The concept of a value other than contract value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity contract. Even upon a discontinuance of the contract, contract value would be paid if the sponsor provides a 12 month irrevocable advance notice. As there are not any specific securities in the general account that back the liabilities of this annuity contract, it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and reset semiannually. The net crediting rate is 1.35%, after the deduction of .65% for administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. As a result, the fair value amount shown is equal to the contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed net crediting rates, less withdrawals. Key factors that could influence future crediting interest rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The following table provides further details on the Plan's Level 1, 2 and 3 fair value measurements at December 31, 2014:

5. RECEIVABLES

For the years ended December 31, 2014 and 2013 employer contributions receivable of $3,039 and $264,701 respectively, represent contributions held by the employer at the Plan year-end. Additionally, participant contributions held by the employer were $5,039 and $13,594 for December 31, 2014 and 2013.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, Mold-Rite Plastics 401(k) Plan has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be entitled to their respective account balances as of the date of termination, regardless of vested percentages at the time of termination.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

8. NEW ACCOUNTING PRONOUNCEMENTS

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820) – Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this ASU remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the new assets value per share practical expedient. This guidance also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The Plan should apply the amendments retrospectively to all periods presented. Earlier application is permitted. Plan management is currently evaluating the impact of adopting this guidance on the financial statements.
