1. Description of Plan

The following description of The Lia Group ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

a. General

The Plan, which was started July 1, 1997, is a defined contribution profit sharing plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan was adopted under the provisions of Section 401(a) of the Internal Revenue Code ("IRC") and includes a cash or deferred arrangement as described in Section 401(k) of the IRC. The Plan covers all full-time employees of the Company who have completed twelve months of service, have worked more than 1,000 hours during that period and attained 21 years of age. Various companies under common ownership are participating employers of the Plan. Exclusions apply to members of a collective bargaining unit whose retirement benefits are the subject of a collective bargaining agreement that is in full force and effect.

b. Contributions

Each year participants may contribute a percentage of their pretax annual compensation, as defined in the Plan and stipulated by the Federal Government. Total participant contributions in any calendar year are limited to the applicable limit under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company, at its sole discretion, may contribute matching contributions based on 50% of the participant's deferrals up to 4% of a participant's compensation with a maximum contribution of $500.

c. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

e. Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or other form of payment permitted under the Plan. If the vested account balance is less than $5,000, the vested benefit will be automatically rolled over to an IRA provider selected by the plan administrator unless the participant consents to a distribution of the vested account balance.

1. Description of Plan (continued)

f. Forfeited Accounts

At December 31, 2014 and 2013, the forfeited non-vested accounts totaled $4,732 and $1,326 respectively. These forfeitures will be used to reduce future employer contributions. In 2014, employer contributions were reduced by $8,945 from forfeited non-vested accounts.

2. Summary of Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. The statements of net assets available for benefits present the fair value of the investment contract.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid.

e. Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Investment related expenses are included in the net appreciation of fair value of investments.

f. Subsequent Events

The Plan has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that equal or exceed 5% of the Plan's net assets.

	December 31, 2014	December 31, 2013
Amfds Gr Fd Am R6	$ 2,079,565	$ 1,640,307

During 2014, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $77,240 as follows:

Mutual funds	$ 77,240

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
Quoted prices for similar assets or liabilities in active markets;
Quoted prices for identical or similar assets or liabilities in inactive markets;
Inputs other than quoted prices that are observable for the asset or liability;
Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value ("NAV") of the shares by the Plan at year end.

Guaranteed investment contract: The contract is valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Due to the valuation process used, this contract is within Level 3 of the Fair Value Hierarchy under FASB ASC 820.

Employer's contributions receivable: Valued at the obligations' face value which approximates fair value.

The following table sets forth by level, within the fair value hierarchy, The Plan's assets at fair value as of December 31, 2014 and 2013.

	Assets at Fair Value Measurement at December 31, 2014			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ -	$ 374,573	$ 374,573

Total assets at fair value	$ 8,096,996	$ -	$ 334,021	$ 8,431,017

4. Fair Value Measurements (continued)

Level 3 Gains and Losses:

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Level 3 Assets
	Guaranteed Investment Contract
Balance, beginning of year	$ 334,021
Realized gains (losses)	-
Unrealized gains (losses) relating to instruments still held at the reporting date	-
Purchases	64,764
Sales	(22,916)
Transfers in and/or out of level 3	(1,296)
Balance, end of year	$ 374,573

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	*Fair Value*	*Principal Valuation Technique*	*Unobservable Inputs*	*Range of Significant Input Values*	*Weighted Average*
Guaranteed investment contract	$374,573	Discounted cash flow	Yield Rates	0.00%	0.00%

			Payout Percentage	100%	

5. Guaranteed Investment Contract With Insurance Company

In 2009, the Plan entered into a fully benefit-responsive guaranteed investment contract with Nationwide Life Insurance Company ("Nationwide"). Nationwide maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is considered to be benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value. Because contract value approximates fair value, no adjustment to contract value is necessary in arriving at net assets available for benefits.

There are no reserves against contract value for the credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $374,573 and $334,021, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and is based upon the three or five year Treasury Note index changes. Such interest rates are reviewed on a quarterly basis for resetting.

The contract does not have a maturity date and remains in force until all assets have been distributed, or no further payments are due. The net rate, crediting rate and average yield are the same. For 2014 and 2013, the average yield was 0%.

6. Information Certified by the Plan's Custodian

The plan management has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information was certified by Nationwide Financial Services Inc. ("NFS"), the custodian of the Plan, and was not subjected to any auditing procedures performed by the independent public accountants.

	December 31	
Investments, at fair value:	**2014**	**2013**
Guaranteed investment contract with Nationwide Life Insurance Co.	$ 374,573	$ 334,021
Mutual funds	8,759,858	8,096,996
	$ 9,134,431	$ 8,431,017

NFS also certified to the completeness and accuracy of the net investment earnings as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014. The certification also includes all investment related information in the accompanying supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014.

7. Party in Interest and Related-Party Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including, the Company. Plan investments include shares of mutual funds that are managed by NFS. Custodial and record keeping functions are provided to the Plan by an affiliated company. The guaranteed investment contract is included in the general assets of Nationwide.

LPL Financial Corporation provides investment advisory services to the Plan and receives commissions on mutual fund transactions from NFS. Creative Pension Consultants is the third party administrator and fees paid to them were $22,519.

As a result of the foregoing, these transactions qualify as party in interest transactions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. Risks and Uncertainties

The Plan invests in various securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Tax Status

The Plan adopted a mass-submitter prototype non-standardized cash or deferred profit-sharing plan with a cash or deferred arrangement. The plan sponsor has obtained an opinion letter from the Internal Revenue Service, dated March 31, 2008, that the Plan and related Trust were designed in accordance with applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been subsequently amended and restated. Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Federal and New York State taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

11. Accrued Corrective Distributions

The Plan failed one of the discrimination tests for the year ended December 31, 2014. Corrective distributions amounting to $3,919 are recorded as a liability in the accompanying statements of net assets available for benefits. These corrective distributions were reimbursed to the affected participants in 2015.
