Independent Auditor's Report

To the Plan Administrator
MP Biomedicals, Inc. Retirement Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of MP Biomedicals, Inc. Retirement Savings Plan, which are comprised of the statements of net assets available for benefits as December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Delaware Charter Guarantee & Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

MP Biomedicals, Inc. Retirement Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

Note 1. Plan Description

The following description of the MP Biomedicals, Inc. Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan originally established by MP Biomedicals, Inc. (the “Company” or “Employer”) on July 15, 2003 under the provisions of Section 401(a) of the Internal Revenue Code (“IRC”), which includes a qualified cash or deferred arrangement, as described in Section 401(k) of the IRC, for the benefit of the Company’s employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Participant Eligibility

Any employee who has completed one month of service is eligible to participant in the Plan.

Contributions

Each participant may elect to contribute a prescribed percentage of his or her compensation to the Plan as pre-tax deferrals, subject to maximum amount as established under the IRC. Participants that reach age 50 by the end of the plan year are eligible to make catch-up contributions of \$5,500 for the year ended December 31, 2014.

Effective January 15, 2009, the Company amended the Plan to no longer make employer matching contributions.

Participant Accounts

Individual accounts are maintained for each of the Plan’s participants to reflect each participant’s contributions and related Company contributions, as well as each participant’s share of the Plan’s income less an allocation of investment and operating expenses charged to the Plan. Allocations of the Plan income and expenses are based on either participant account balances or participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Participant Investment Options

Upon enrollment in the Plan, participants must direct the investment of their account balances among various investment options as made available and determined by the plan administrator. Participants may change their investment options any time throughout the year via direct phone and/or Internet access to the custodian.

Note 1. Plan Description (continued)

Vesting

Participants are fully vested in their contributions and the earnings thereon. Vesting in Company contributions is based on years of continuous service. Participants 60 years of age or older are automatically 100% vested. Participants less than 60 years of age vest in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than one	0%
One but less than two	20%
Two but less than three	40%
Three but less than four	60%
Four but less than five	80%
Five or more years	100%

Forfeited Amounts

Forfeited amounts from terminating participants' non-vested accounts are used to reduce administrative fees and Company contributions. As of December 31, 2014 and 2013, there were approximately \$12,700 and \$11,700, respectively, of forfeitures available to reduce future administrative fees and Company contributions. No forfeitures were utilized during the year ended December 31, 2014.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiaries may elect to receive an amount equal to the participant's vested interest in his or her account. These payments may be paid in a lump-sum payment or in installments over time.

Note 2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value (See Note 6 for discussion of fair value measurements). However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Note 2. Significant Accounting Policies (continued)

The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The fair value and contract value of the fully benefit-responsive investment contract (Morley Stable Value VI Fund – Common/collective trust fund) at December 31, 2014 were \$2,155,577 and \$2,147,725, respectively. The fair value and contract value of the fully benefit-responsive investment contract (Morley Stable Value VI Fund – Common/collective trust fund) at December 31, 2013 were \$1,990,796 and \$1,987,899, respectively.

Use of Estimates

The preparation of Plan financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. The most significant estimate relates to the valuation of investments.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest is accrued as earned.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits were paid.

Contribution Funding

The Company makes contributions to the Plan for employee contributions on a basis consistent with the related payroll periods.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees relating to administration of notes receivables from participants and certain fees related to distributions are charged directly to participants' accounts and are included in administrative expenses. Additionally, certain recordkeeping and advisory fees may be paid from forfeitures if forfeitures are available. Investment related expenses are included in net appreciation of fair value of investments.

Note 2. Significant Accounting Policies (continued)

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Subsequent Events

Subsequent events have been evaluated through October 12, 2015, the date the audited financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Account

The Plan participates in a contract with Principal Life Insurance Company ("Principal") whereby the assets of the Plan are part of the general assets of Principal. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds.

The guarantees made with regard to the guaranteed interest account are supported by Principal's general account. There are no reserves against contract value for credit risk of contract issuer or otherwise.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with this contract based on certain Plan level initiated transactions. The guaranteed interest account is not considered a "fully benefit responsive" contract.

Pooled Separate Accounts

The Plan participates in a contract with Principal Life Insurance Company ("Principal") whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Principal holds these assets in trust for the participating plans.

Note 4. Investments

At December 31, 2014 and 2013, the following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2014	2013
Common/collective trust		
Morley Stable Value VI Fund	\$ 912,402	\$ 888,272
Guaranteed interest account	\$ 2,155,577	\$ 1,990,796
Pooled separate accounts		
Principal Large Cap S&P 500 Index	\$ 1,090,040	\$ 944,045
Principal Mid Cap Value	\$ 814,064	\$ 788,825
Principal Small Cap Blend	\$ 647,515	\$ 632,795

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value, by investment type as follows:

	Year Ended December 31, 2014
Pooled separate accounts	\$ 374,591
Guaranteed interest account	(11,340)
Common/collective trust	<u>6,521</u>
Net appreciation in fair value of investments	<u>\$ 369,772</u>

Note 5. Information Certified by the Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information as certified by Delaware Charter Guarantee & Trust Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule:

a) Investments

	<u>December 31,</u>	
	<u>2014</u>	<u>2013</u>
Pooled separate accounts	<u>\$ 4,760,428</u>	<u>\$ 4,502,299</u>

b) Notes receivable from participants*	<u>\$ 86,238</u>	<u>\$ 61,457</u>

c) Investment income and other additions

	<u>Year Ended December 31, 2014</u>
Net appreciation in fair value of investments	<u>\$ 369,772</u>
Interest	<u>\$ 20,040</u>
Interest on notes receivable from participants	<u>\$ 4,704</u>

d) Supplemental Schedule:

Schedule H, Line 4i – Schedule of Assets (Held at End of Year)*

**Notes receivable from participants are participant loans allowed under the related regulations. The participant loans are certified by the custodian, and are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA*

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Common/collective trust fund: This investment is an investment security valued using the NAV provided by the investment custodian. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments. The investments held by each fund are valued based on quoted market prices when available, discounted cash flows or valuations furnished by pricing agreements based on market transactions of comparable securities.

Note 6. Fair Value Measurements (continued)

Guaranteed interest account: These investments are part of the general assets of an insurance company. These investments are valued at the contract discontinuance value which is the estimated value of the contract that would have been available if the Plan had terminated its participation in the contract as of the valuation date. The fair value approximates contract value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2014 and 2013:

Fair Value Measurements Using Input Type				
<u>December 31, 2014</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

The following additional information presents the fund strategy relative to Plan investments reported on net asset value at December 31, 2014 and 2013:

- (a) The objective of the fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit responsive payments and seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts.
- (b) This investment option seeks to achieve its investment objective by investing primarily in securities that are AAA rated or issued by the U.S. government, its agencies or instrumentalities.
- (c) This investment option seeks long-term growth of capital and invests primarily in equity securities of foreign companies.

Note 6. Fair Value Measurements (continued)

- (d) This investment option seeks long-term growth of capital and primarily invests in common stocks of small capitalization companies.
- (e) This investment option seeks long-term growth of capital and normally invests at least 80% of its net assets in equity securities of U.S. companies with small market capitalization.
- (f) This investment option seeks long-term growth of capital and normally invests at least 80% of its net assets in equity securities of U.S. companies with small market capitalization.
- (g) This investment option normally invests the majority of assets in common stocks of companies that compose the S&P MidCap 400 Index.
- (h) This investment option seeks long-term growth of capital and normally invests at least 80% of its net assets in equity securities of U.S. companies with medium market capitalization.
- (i) This investment option seeks long-term growth of capital and normally invests at least 80% of its net assets in equity securities of U.S. companies with medium market capitalization.
- (j) This investment option normally invests the majority of assets in common stocks of companies that compose the S&P 500 Index.
- (k) This investment option seeks long-term growth of capital and normally invests at least 80% of its net assets in companies with large market capitalizations.
- (l) This investment option seeks long-term growth of capital and normally invests at least 80% of its net assets in companies with large market capitalization.
- (m) This investment options provides a diversified exposure to stocks, bonds and cash and aim to provide investors with an optimal level of return and risk based on the select asset allocation category.
- (n) These investments include investments in various types of funds, such as real estate holding funds.

Most of the pooled separate account investment funds are subject to the redemption frequency of 1 transfer in a 30 day time period. There are no other redemption restrictions, redemption notice requirements or unfunded commitments related to the pooled separate account investment funds as of December 31, 2014 and 2013.

The common/collective trust restricts withdrawals, other than those for benefit payments and participant transfers to noncompeting options, to a twelve month advance written notice. The trustee, at it discretion, may choose to disburse withdrawals in less than the required one year period.

Note 6. Fair Value Measurements (continued)

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	<u>Guaranteed Interest Account</u>
Beginning balance	\$ 1,990,796
Net realized and unrealized gains (losses)	(11,340)
Purchases	524,339
Interest credited	20,040
Fees and expenses	(2,123)
Settlements	<u>(366,135)</u>
Ending balance	<u><u>\$ 2,155,577</u></u>

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the Guaranteed Interest Account is based on significant unobservable inputs, including the interest rates of the applicable investment contracts. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3 as of December 31, 2014 and 2013:

December 31, 2014

	<u>Fair Value</u>	<u>Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Range Of Inputs</u>
Guaranteed interest accounts	\$ 2,155,577	Discounted cash flow, See note (1)	Contractual interest rates	0.35% - 1.70%
			Applicable interest rates	0.72% - 1.97%
			Maturity dates	12/31/2014 – 12/31/2018

Note 6. Fair Value Measurements (continued)

December 31, 2013

	<u>Fair Value</u>	<u>Valuation Techniques</u>	<u>Unobservable Inputs</u>	<u>Range Of Inputs</u>
Guaranteed interest accounts	\$ 1,990,796	Discounted cash flow, See note (1)	Contractual interest rates	0.35% - 1.92%
			Applicable interest rates	0.61% - 1.82%
			Maturity dates	12/31/2013 – 12/31/2017

(1) The fair value of the guaranteed interest accounts is determined as follows:

If the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value.

If the applicable interest rate is greater than the interest rate on the account, the fair market value is the contract value reduced by a percentage. The percentage is equal to:

1. The difference between the applicable interest rate and the interest rate on the account, multiplied by
2. The number of years (including fractional parts of a year) until the maturity date.

The issuing company has the right to change the basis of calculating the market value upon providing three months advance written notice. Any such change will only apply to those accounts set up after the effective date of such change.

Note 7. Tax Status

The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of Internal Revenue Code and constitutes a qualified trust under Section 401(a) of the Internal Revenue Code and is therefore, exempt from federal income taxes under provisions of Section 501(a).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Administration of Plan Assets

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses for the Plan are paid directly by the Company.

Note 10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

Note 11. Related Party and Party-In-Interest Transactions

Certain Plan investments are in a guaranteed interest account and pooled separate accounts funds which are managed by The Principal Life Insurance Company and its subsidiary. The Delaware Charter Guarantee & Trust Company is a wholly owned subsidiary of The Principal Life Insurance Company and is the custodian of the Plan. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. These fees are paid to the investment fund manager, The Principal Life Insurance Company and its affiliates, other investment custodians and investment advisors.

Additionally, as noted in Note 1, certain administrative expenses related to participant related activities are paid directly to The Principal Life Insurance Company and its affiliates and are included in administrative expenses. Certain fees may be paid to service providers that are considered parties-in-interest under ERISA and are included in administrative expenses.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations.

These transactions qualify as party-in-interest transactions for which there are statutory exemptions.

Note 12. Reconciliation of Financial Statements to the Form 5500

Due to timing differences, the financial statements for the year ended December 31, 2014 and 2013 reflect a difference in net assets available for benefits and in changes in net assets available for benefits compared to the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2014 and 2013:
