BENESYS, INC. EMPLOYEES' 401(K) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND OCTOBER 31, 2014

Note A – Description of the Plan

The following description of the BeneSys, Inc. Employees' 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) profit-sharing plan covering all full-time employees of BeneSys, Inc. (the "Company"), meeting all age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the statutory deferral limit, the employer-provided limit, and the average ADP test limit, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. Beginning July 1, 2012, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically-enrolled participants have their deferral rate set at a specific percentage of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. For employees hired prior to November 1, 2014, the automatic deferral is 2 percent of eligible compensation with an increase of 1 percent each plan year, and for employees hired on or after November 1, 2014, the automatic deferral is 3 percent of eligible compensation. The Company has the option to elect to contribute matching contributions for the participants in the Plan. Currently, the Company contributes 25 percent of the first 15 percent of base compensation that a participant contributes to the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings; and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND OCTOBER 31, 2014

Note A – Description of the Plan (Continued)

Forfeitures

Forfeitures will be used to offset or reduce future employer and matching contributions.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains or losses on investments bought and sold as well as held during the year. See Note H for the discussion of fair value measurements.

Participant Loans Receivable

Participant loans receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and October 31, 2014. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The participant accounts absorb the costs to administer the Plan. These costs are charged as reasonable statement fees allocated pro rata based on their account balances.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

BENESYS, INC. EMPLOYEES' 401(K) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND OCTOBER 31, 2014

Note B – Summary of Significant Accounting Policies (Continued)

Subsequent events

Subsequent events have been evaluated through September 10, 2015, which is the date the financial statements were available to be issued, and no issues have come to our attention that would require recognition.

Note C – Tax Status

The Plan adopted a volume submitter plan document on March 31, 2014. A determination letter, in which the Internal Revenue Service states that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC), was obtained. The most recent restatement to the plan was effective November 1, 2014. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's third party administrator believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the Plan is no longer subject to income tax examinations for years prior to 2011.

Note D – Information Certified by the Custodian (Unaudited)

At December 31, 2014, the Plan's investments were held and certified by the custodian, Voya Retirement Insurance and Annuity Company ("Voya"). At December 31, 2014 and October 31, 2014, the Plan's investments were held and certified by the custodian MassMutual Retirement Services ("MassMutual") (a division of Massachusetts Mutual Life Insurance Company). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodians as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note E – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue their contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

BENESYS, INC. EMPLOYEES' 401(K) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND OCTOBER 31, 2014

Note F – Party-in-Interest Transactions

Certain plan investments are shares of mutual funds or group annuity contracts managed by Voya and MassMutual, the custodians of the Plan. Fees paid by the Plan for investment management services were included as a reduction of the return on each fund. The plan sponsor pays for certain administrative expenses on behalf of the Plan.

Note G – Risks and Uncertainties

The Plan provides for various investment securities options. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note H – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- o Quoted prices for similar assets or liabilities in active markets;
- o Quoted prices for identical or similar assets or liabilities in inactive markets;
- o Inputs other than quoted prices that are observable for the asset or liability;
- o Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of this asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lower level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Management reviews and approves fair value measurement policies and procedures annually, and determines if the valuation techniques used to measure assets at fair value remain appropriate.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and October 31, 2014. All assets are measured at fair value on a recurring basis.

Mutual funds: Valued at the closing price reported in the active market in which the mutual funds are traded.

Group annuity contract: Valued at fair value by the liquidation value which is the market value of the assets in the separate account. The separate account is an investment option with a general investment account guarantee that provides a stated rate of return.

Significant Transfers Between Level 2 and 3

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the current reporting period. Based on information provided for the current group annuity contract, this fund has been transferred from Level 3 to Level 2 in the fair value hierarchy.

Level 3 Activity

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the period and the year ended for the group annuity contract:

Note I – Fully Benefit-Responsive Group Annuity Contract

During plan year 2014, the Plan entered into a fully benefit-responsive group annuity contract with Voya. Previously, during plan year 2011, the Plan entered into a fully benefit-responsive SAGIC group annuity contract with MassMutual. The contract is a separate account with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market.

Because the contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value arriving at net assets available for benefits. Contract value, as reported to the Plan by Voya and MassMutual, represents contributions plus credited interest less participant withdrawals and fees. Participants may direct permitted withdrawal and transfer transactions of all or a portion of their balance in the investment option at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the contract at December 31, 2014 and October 31, 2014 was \$1,679,550.99 and \$1,735,273.82, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed during the plan year for resetting.

Average yields:	December 31, 2014	October 31, 2014
Based on actual earnings	0.04%	2.42%
Based on interest rate credited to participants	0.04%	2.42%

Certain events may limit the ability of the Plan to transact at contract value. Such events include, but may not be limited to, the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division, or as a result of group layoffs or early retirement programs. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Note J – Plan Restatement

Effective November 1, 2014, the Plan was restated and included the following provisions, which were significant changes to the previously effective plan documents. The plan year changed to the one-year period ending December 31, with one short plan year beginning November 1, 2014 and ending December 31, 2014. The custodian changed from MassMutual Retirement Services to Voya Retirement Insurance and Annuity Company starting in December 2014. The Plan's auto-enrollment provision was changed to automatically enroll participants at a deferral rate of 3 percent of eligible compensation for employees hired after November 1, 2014.
