Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE A - DESCRIPTION OF PLAN

The following description of the Ohio CAT Union 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Ohio Machinery Company dba Ohio CAT (the Company and Plan Sponsor) who are members of the International Union of Operating Engineers (Union) who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is sponsored and administered by the Company.

Contributions

Each year, participants may elect to defer between 1% and 25% of compensation as defined by the Plan on either a pre-tax or after-tax basis, subject to the maximum contribution amounts allowable by law. Employer contributions are made to participant accounts only for participants who have elected to not participate in the Company's defined benefit plan. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (IRC). The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions, if applicable, and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant account earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. A participant's interest in Company contributions and actual earnings thereon become vested based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of his or her account. If the value of the vested benefits credited to a participant's account is \$1,000 or less at the time of termination, the entire amount will be automatically distributed to a participant without the participant's consent. In the event of a mandatory distribution of an amount greater than \$1,000 but not exceeding \$5,000, the entire amount will be distributed in the form of a direct rollover to an individual retirement account as designated by the plan administrator.

OHIO CAT UNION 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits (Continued)

Active participants may request hardship withdrawals from their elective deferral account balance, subject to Plan provisions. A participant who receives a distribution on account of a hardship is prohibited from making deferrals for twelve months after receipt of the distribution.

Plan Transfers

The Plan receives funds from or transfers funds to another plan of the Company generally upon change in employment status of the participant (union versus non-union status). The Plan received \$17,093 in transfers from the Company's other defined contribution plan during the year ended December 31, 2014.

Notes Receivable from Participants

Participants may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Notes receivable terms range from 1 - 5 years or up to 10 years for the purchase of a primary residence. Notes receivable are secured by the balance in the participant's account and bear interest ranging from 5.25% to 6.44%. Principal and interest are paid ratably through bi-weekly payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan's investment contracts with Massachusetts Mutual Life Insurance Company (MassMutual) and Prudential Retirement Insurance and Annuity Company (Prudential) are considered to be fully benefit-responsive. The statement of net assets available for benefits as of December 31, 2014 presents the fair value of the MassMutual contract as well as the adjustment from fair value to contract value. The Prudential contract is included in the statement of net assets available for benefits as of December 31, 2013 at contract value, which approximates its fair value. The statement of changes in net assets available for benefits is prepared using the contract value basis for the fully benefit-responsive investment contracts.

OHIO CAT UNION 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation

The Plan's investments are recorded at fair value, based upon the last traded or current bid prices in active markets. Where there are no readily available last traded or current bid prices, fair value is determined as discussed in Note D.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make repayments on a note receivable and the plan administrator deems the note receivable to be in default, the balance on the note receivable from the participant is reclassified to benefits paid to participants.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Gains and losses on securities transactions are determined using the average cost method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions

Participant contributions are recorded and credited to each participant's account as received by the trustee and custodian from the Company. Any contributions attributable to the plan year but not received by the trustee and custodian by the last day of the plan year are recorded as a receivable.

Income Taxes

The Company adopted a prototype non-standardized profit sharing plan with cash or deferred arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the Plan and related trust were designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in investment income.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2015, the date which the financial statements were available to be issued.

NOTE C - CERTIFICATION AND SUMMARY OF INVESTMENTS

Notes receivable from participants and investment information disclosed in the accompanying financial statements and supplemental schedule, including notes receivable from participants and investments held at December 31, 2014 and 2013, and net appreciation in the fair value of investments, interest, and dividends for the year ended December 31, 2014 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee and custodian.

NOTE D - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2014 are summarized below:

	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan's investments accounted for at fair value as of December 31, 2013 are summarized below:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Guaranteed investment contract			\$1,104,256	\$1,104,256
Pooled separate accounts:				
Balanced funds		\$1,856,966		1,856,966
International stock funds		645,940		645,940

	<u>\$ 709,331</u>	<u>\$6,319,921</u>	<u>\$1,104,256</u>	<u>\$8,133,508</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Mutual funds are valued at the net asset value of the shares held by the Plan at year end, as reported on the active markets in which the investments are traded.

The guaranteed investment contract with MassMutual is valued at liquidation value, which is the net asset value of shares in the underlying pooled separate account. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. Net asset value is based on quoted prices of the pooled separate account's underlying investments in markets that are not active net of insurance company fees and expenses less its liabilities. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investments for an amount different than the reported net asset value.

The guaranteed investment contract with Prudential is valued based on deposits made, plus earnings at guaranteed crediting rates, less withdrawals and fees (see Note E).

Pooled separate accounts are valued at the net asset value of shares held by the Plan at year end. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value. Net asset value is based on quoted market prices of the underlying investments net of insurance company fees and expenses less its liabilities. This practical expedient is not used when it is determined to be probable that the accounts will sell the investments for amounts different than the reported net asset values.

OHIO CAT UNION 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Prudential Guaranteed Investment Contract
Fair value, beginning of year	\$1,104,256
Purchases	175,670
Sales	(1,279,926)
Fair value, end of year	<u>\$ -0-</u>

NOTE E - GUARANTEED INVESTMENT CONTRACTS

The Plan has an investment contract with MassMutual under which contributions from the Plan are maintained in a MassMutual pooled separate account segregated from the general accounts of MassMutual. Under the contract, the Plan owns a promise by the issuer to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time. The investment objective of the contract is to provide a stated rate of return, generated from performance of a diversified bond portfolio, that insulates the account from daily fluctuations in the bond market. Participants may ordinarily direct permitted withdrawals or transfers of all or a portion of their account balance at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

OHIO CAT UNION 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE E - GUARANTEED INVESTMENT CONTRACTS (CONTINUED)

The minimum crediting rate under the contract is 0%. Interest crediting rates are reviewed on a semi-annual basis for resetting. The net average yield and crediting interest rates on the contract were both 2.19% for funds invested in 2014. When establishing interest rates for the contract, MassMutual considers many factors, including the expected market yield to maturity of assets of the underlying pooled separate account, the amount and timing of any payments and deposits expected to be made, the difference between the fair value and contract value amortized over a period equal to the term to maturity of a zero coupon bond with a duration equal to the duration of assets of the underlying pooled separate account, and the investment management and quarterly expense fees. The repayment of principal and interest credited to participants in the Plan is a financial obligation of MassMutual.

A Plan Sponsor initiated termination of the contract could limit the ability of the Plan to transact at contract value. In this instance, participants will receive the lesser of fair value or contract value. The Plan Sponsor does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

The Plan had an investment contract with Prudential under which contributions from the Plan were maintained in Prudential's general account. Under the contract, the Plan owned a promise by the issuer to pay interest at crediting rates which were announced in advance and guaranteed for a specific period of time. Participants could ordinarily direct permitted withdrawals or transfers of all or a portion of their account balance within a timeframe of 90 days. Contract value represents deposits made to the contract, plus earnings, at guaranteed crediting rates, less withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The minimum crediting rate under the contract was 1.50%. Interest crediting rates were reviewed on a semi-annual basis for resetting. The net average yield and crediting interest rate on the contract were both 2.00% for funds invested in 2013. When establishing interest rates for the contract, Prudential considered many factors, including current economic and market conditions, the general interest rate environment and market conditions, and both the expected and actual experience of a reference portfolio within the general account. The rates were established without the use of a specific formula. The repayment of principal and interest credited to participants in the Plan was a financial obligation of Prudential.

NOTE F - POOLED SEPARATE ACCOUNTS

The Plan has investments in Prudential pooled separate accounts. There are no restrictions on transfers or withdrawals from these accounts. The investment strategies of the pooled separate accounts of the Plan are as follows:

Large Cap Blend/MFS Fund seeks to outperform the S&P 500 Index by 150 basis points.

SA/OFI Global Strategy seeks capital appreciation by investing primarily in common stocks of U.S. and foreign companies.

SA/T. Rowe Price Growth Stock Strategy II seeks to provide long-term growth of capital through investments in stocks.

Dryden S&P 500 Index Fund seeks to provide investment results that approximate the performance of the S&P 500 Index.
