Dürr, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Dürr, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all full-time employees of Dürr, Inc., Dürr Systems, Inc., Dürr AIS, Inc., and Dürr Ecoclean, Inc. (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

All employees become eligible to participate in the Plan when hired and upon attaining age 19. New employees are automatically enrolled as soon as administratively feasible. If no deferral election is made by the participant, the deferral defaults to 3 percent of eligible compensation and is increased 1 percent in each subsequent year until the deferral reaches 6 percent. Participants may elect to opt out of the automatic employee deferral.

Administration - The Company is the sponsor of the Plan. The compensation and benefits committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. Fidelity Management Trust Company (the "Trustee") functions as trustee and investment manager. Investment management fees and trustee fees are paid by the Plan in accordance with the plan document.

Contributions - Participants may defer up to 60 percent of eligible compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from pretax contributions to another qualified plan.

As of December 16, 2010, the Plan was amended to allow participants to make Roth 401(k) after-tax contributions to the Plan. The Plan will not accept rollovers of after-tax contributions.

Discretionary company matching contributions, if any, are determined annually based on a percentage of each participant's pretax contributions. Discretionary matching contributions are 50 percent of employee contributions up to 6 percent of eligible compensation.

The Company may make discretionary profit-sharing contributions to be determined annually by the Company. There were no discretionary profit-sharing contributions in 2014.

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan and may change their elections or transfer between investment options at any time.

Vesting - Participants are immediately vested in their contributions and rollovers plus actual earnings thereon. Participants are also immediately vested in discretionary company matching contributions and discretionary profit-sharing contributions plus actual earnings thereon.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Payment of Benefits - Upon termination of service due to death, disability, or retirement, participants may elect to receive a lump-sum distribution or to be paid in the form of an annuity. Upon termination of service for other reasons, a participant may receive a lump-sum amount equal to the vested value of his or her account.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, Fidelity Management Trust Company (the "Trustee") shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by the Trustee; therefore, these transactions qualify as nonprohibited, party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan measures the investments in mutual funds and investments held in self-directed brokerage accounts at fair value on a recurring basis. The fair value of these investments is based primarily on Level 1 inputs as described in Note 5. The self-directed brokerage accounts consist solely of mutual funds. Life insurance policies are stated at cash surrender value as provided in the policies, which approximates fair value, and are based primarily on Level 2 inputs as described in Note 5.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Risks and Uncertainties - The Plan invests in investment securities that are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 17, 2015, which is the date the financial statements were available to be issued.

Dürr, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments of the Plan's end of year net assets are as follows:

	2014	2013
Mutual funds - At fair value:		
Fidelity Contrafund Fund	\$ 14,473,037	\$ 14,607,817
Fidelity Diversified International Fund	5,069,274	5,395,999
Fidelity Balanced Fund	3,805,442	3,784,859
Fidelity Spartan 500 Index Institutional	4,421,386	3,655,660
T. Rowe Price Blue Chip Growth Fund	6,285,779	6,647,489

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013 and the valuation techniques used by the Plan to determine those fair values.

Level I - In general, fair values determined by Level I inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Dürr, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
