**NOTES TO FINANCIAL STATEMENTS
December 31, 2014 And 2013**

1. Description Of The Plan

The following description of the Pretium Packaging LLC 401(k) Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, with a 401(k) provision, covering all eligible employees of Pretium Packaging LLC (the Company or Plan Sponsor) who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute up to 100% of eligible compensation to the Plan, subject to the limits of the Internal Revenue Code (the IRC). Catch up contributions are also allowed. The Plan has a Roth contribution provision. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company will contribute, on behalf of each participant, an amount equal to 50% of deferrals up to the first 4% of the participant's compensation. All contributions are subject to applicable limitations.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's matching contributions based on years of continuous service, as defined in the Plan Agreement. Participants are partially vested after one year and are 100% vested after three years of service.

Forfeitures

Forfeitures are used to pay Plan expenses and to reduce future Company matching contributions. Forfeitures used to pay Plan expenses and offset Company matching contributions amounted to \$10,103 and \$13,417 for the years ended December 31, 2014 and 2013, respectively. Forfeitures available to reduce future Plan expenses and Company matching contributions were \$7,931 and \$11,114 at December 31, 2014 and 2013, respectively.

Notes To Financial Statements (*Continued*)

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions and an allocation of the Plan's earnings. The allocation of earnings is determined by the earnings of the participant's investment selection based on each participant's balance, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment Of Benefits

Upon termination of service due to death, disability, retirement, or any other reason, a participant may receive a lump-sum payment for the value of the participant's vested interest in his or her account. The Plan allows for hardship distributions from a participant's vested account balance subject to certain Plan provisions. Participants may also receive in-service distributions upon attainment of age 59 1/2.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their vested account balance. Note terms range from one to five years (longer for the purchase of a primary residence), at a mutually agreed term between the participant and the Plan Administrator. The notes are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid through payroll deductions.

Returns Of Excess Employee Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions.

Administrative Expenses

The Plan pays certain administrative expenses. Other expenses of the Plan are paid by the Plan Sponsor and are not included in the statement of changes in net assets available for benefits. Administrative expenses include recordkeeping fees, professional fees and trust fees.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements are presented on the accrual basis of accounting, except for benefit payments, which are recorded when paid.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Valuation Of Investments And Income Recognition

The Plan's investments are stated at fair value. See Note 4 for further discussion on fair value measurements.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan Agreement.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through October 12, 2015, the date which the financial statements were available for issue.

SAVINGS AND INVESTMENT PLAN**

Notes To Financial Statements (*Continued*)

4. Fair Value Measurements

The Plan utilizes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**PRETIUM PACKAGING LLC 401(k)
SAVINGS AND INVESTMENT PLAN**

Notes To Financial Statements (*Continued*)

The following is a description of the valuation methodology used for investments measured at fair value:

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The method described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013. The Plan follows accounting guidance which requires that major categories for debt and equity securities in the fair value hierarchy table be determined on the basis of the nature and risk of the investments.

7. Income Tax Status

Effective January 1, 2010, the Plan was amended and restated by adopting a prototype plan document sponsored by Verisight, Inc. Verisight, Inc. received an opinion letter from the Internal Revenue Service (the IRS), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS, which provides that, if certain conditions are met, an employer may rely on a favorable opinion letter issued to a prototype plan sponsor as if the employer had received a favorable determination letter.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2011 and later remain subject to examination by taxing authorities.

8. Risks And Uncertainties

The Plan invests in various investment securities, which generally are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
