Gaylord Hospital, Inc. 401(k) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 1 - Description of the Plan

General - The Gaylord Hospital, Inc. 401(k) Plan (the Plan) is a defined contribution plan that was established on January 1, 2005 and covers all salaried and hourly employees of the Gaylord Hospital, Inc. (the Hospital). Employees are eligible to participate in the Plan on their hire date. The following is a brief description of the Plan. Participants should refer to the plan documents and the Summary Plan Description for more information.

Contributions - Each year, participants may elect to contribute up to 100% of their compensation as pre-tax deferrals. Newly eligible participants will be automatically enrolled in the Plan with a pre-tax deferral rate of 2%, unless otherwise elected by the participant. Elective deferrals may not exceed the established Internal Revenue Code (IRC) limitations. The elective deferral limit for 2014 and 2013 is \$17,500. Participants that are age 50 or older are allowed to defer additional amounts, called catch-up contributions, up to the limits established by the IRC of \$5,500 for both 2014 and 2013. Participants may also contribute amounts representing distributions from other qualified plans.

The Hospital may make a discretionary matching contribution to the Plan. In order to receive a discretionary matching contribution, participants must have completed at least one year of service. For the years ended December 31, 2014 and 2013, the discretionary match was 100% and 50%, respectively, of each participant's contribution, up to 2% of their annual compensation, amounting to \$522,467 and \$233,806, respectively.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a general account and a guaranteed pooled separate account for participants.

Participant Accounts - Each participant's account is credited with the participant's and the Hospital's contributions and an allocation of investment earnings and administrative fees. Allocations are based on participant account balances. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's account.

Vesting - Participants are immediately vested in their elective deferral and rollover contributions plus actual earnings thereon. Vesting in contributions made by the Hospital, plus earnings thereon, is based on years of continuous service. A participant is 100% vested in the employer's matching contributions after three years of credited service. Prior to 2010, the Hospital made certain non-matching contributions. A participant is 100% vested in these non-matching contributions after five years of credited service. In the event of a participant's death or total permanent disability, all amounts credited to such participant's account become fully vested.

Benefit Payments and Withdrawals - Upon retirement, death, disability or termination of service, participants may elect to receive benefit payments. Participants can request distributions of vested account balances in the form of lump sum, installment or annuity payments as defined within the Plan.

A participant may request an in-service distribution upon reaching age 59.5. Additionally a participant may request an in-service distribution on account of a financial hardship, which includes certain medical expenses, purchase of a principal residence, payment of tuition and prevention of eviction from principal residence.

Notes Receivable from Participants - Participants may borrow from their participant account a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. Loan transactions are treated as a transfer from the investment funds to a loan fund. Loan terms range from one to five years, up to fifteen years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. As of December 31, 2014, there were ninety-one outstanding loans with interest rates ranging from 3.30% to 4.25%. As of December 31, 2013, there were ninety-three outstanding loans, with interest rates ranging from 3.29% to 4.25%.

Gaylord Hospital, Inc. 401(k) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 1 - Description of the Plan (continued)

Forfeitures - If a participant terminates employment with the Hospital, the portion of the Hospital's contributions and interest thereon that were not vested are forfeited. Forfeitures can be used to reduce future matching contributions made by the Hospital or to pay administrative expenses. The forfeited non-vested accounts totaled \$9,850 and \$5,472 as of December 31, 2014 and 2013, respectively. During the years ended December 31, 2014 and 2013, forfeited non-vested amounts totaling \$1,640 and \$1,698 were used to pay administrative expenses.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are valued at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts - While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for plan benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for plan benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in a fully benefit-responsive contract through its investment in a guaranteed pooled separate account.

Payments of Benefits - Benefits to participants are recorded when paid.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by the Hospital. However, certain fees are charged to the participants in connection with investment and certain participant directed transactions.

Subsequent Events - Subsequent events were evaluated through October 1, 2015, which is the date the financial statements were available to be issued. Management believes there are no subsequent events, which would have a material impact on the financial statements.

Note 3 - Unaudited Information - Investments and Notes Receivable from Participants

Information presented in the accompanying financial statements and schedule as of and for the years ended December 31, 2014 and 2013, for investments, notes receivable from participants, investment income and interest income on notes receivable from participants was derived, without audit, from information certified to be complete and accurate by State Street Bank and Trust Company (State Street) and Transamerica Financial Life Insurance Company (TFLIC), as permitted by the election made by the Plan Administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). This certified information has not been audited by independent accountants.

Note 4 - Investments

The Plan's investments, relating to its mutual funds, (including investments bought, sold, as well as held during the period) appreciated in value for the years ended December 31, 2014 and 2013 by \$608,054 and \$2,351,837, respectively.

Individual investments that represent five percent or more of net assets are as follows, as of December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
TFLIC Guaranteed Pooled Fund	\$ 3,507,384	\$ 3,811,651
T. Rowe Price Growth Stock	\$ 2,926,999	\$ 2,807,104
PIMCO Total Return Fund	\$ 1,241,120	\$ 1,171,364
American Century Value Institutional	\$ 1,166,018	*
Vanguard Selected Value	\$ 981,653	*
BlackRock Equity Dividend	*	\$ 1,162,067
Thornburg International Value	*	\$ 1,000,996

* The fair value of this investment did not represent more than five percent of the Plan's net assets available for benefits.

Note 5 - Fair Value Measurements

FASB ASC 820, "*Fair Value Measurements and Disclosures*", provides a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in inactive markets;
- Inputs other than quoted prices that are observable for the asset; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Gaylord Hospital, Inc. 401(k) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 5 - Fair Value Measurements (continued)

If the asset has specified (contractual) terms, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable.

The following is a description of the valuation methodologies used for assets measured at fair value.

Traditional Investment Contract: Valued at the fair value which approximates contract value.

Guaranteed Pooled Separate Account: The fair value is estimated by TFLIC based on the fair value of underlying assets held by the insurance company within the Guaranteed Pooled Separate Account. The Plan does not own units of the Pooled Separate Account and does not have an ownership interest in any of the specific investments held by the insurance company in the Guaranteed Pooled Separate Account.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

2014	Level 1	Level 2	Level 3	Total

Note 6 - Investment in Guaranteed Pooled Separate Account

The Plan entered into a fully benefit-responsive investment contract in the guaranteed pooled separate account with TFLIC. Amounts deposited under this traditional group annuity contract are held in a non-unitized separate account of TFLIC.

As described in Note 2, because the guaranteed pooled separate account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by TFLIC, represents the accumulation of contributions, plus interest, less funds used to pay benefits and expenses.

Gaylord Hospital, Inc. 401(k) Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2014 and 2013

Note 6 - Investment in Guaranteed Pooled Separate Account (continued)

Participants can withdraw their balances at contract value without restriction or charge on account of any of the following events: death, disability, retirement, terminations of employment, hardship, loans, attainment of age 59.5, or the purchase of an annuity from TFLIC. Participants may also transfer their funds out of this investment subject to a ninety day equity wash. However, other withdrawals and withdrawals due to employer initiated events that exceed a certain percentage may be subject to restriction and/or a 5% withdrawal charge.

The repayment of principal and interest credited to participants is a financial obligation of TFLIC. Guarantees are based on the claims-paying ability of the issuer. As of December 31, 2014 and 2013, there are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the guaranteed pooled separate account as of December 31, 2014 and 2013 was \$3,448,755 and \$3,786,283, respectively. The fair value as of December 31, 2014 and 2013 was \$3,507,384 and \$3,811,651, respectively.

The contract contains a minimum guaranteed interest rate. At the beginning of each calendar year, TFLIC determines the declared interest rate which will be credited to all monies invested in the guaranteed pooled separate account during such calendar year. In no event will the declared rate of interest be less than the contracts minimum guaranteed interest rates. As of December 31, 2014 and 2013, the declared interest rate is .98% and 1.14%, respectively. The yield earned as of December 31, 2014 and 2013 is 1.79% and 1.87%, respectively.

Certain events limit the Plan's ability to transact at contract value with TFLIC. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The plan administrator does not believe any events or circumstances that would allow the issuer to terminate the contract with the Plan and settle at an amount different than contract value exist.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right to terminate the Plan, in whole or in part, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Plan has adopted a prototype plan that received a favorable opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS) that it was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since adopting the prototype document, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax exempt as of the financial statement date.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 9 - Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. State Street and TFLIC are parties-in interest as defined by ERISA. As of December 31, 2014 and 2013, Plan invested in a guaranteed investment contract and guaranteed pooled separate account with TFLIC and therefore transactions involving these instruments are considered party-in interest transactions. During the years ended December 31, 2014 and 2013, \$116,796 and \$104,570, respectively, of administrative expenses was paid to State Street and TFLIC. Notes receivable from participants also reflect party-in interest transactions.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Note 11 - Reconciliation of Financial Statements to Form 5500
