Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Plan Administrator
ThyssenKrupp Industrial Solutions (USA), Inc.
Retirement Plan (f/k/a Retirement Plan for
Employees of Polysius Corp. and Uhde
Corporation of America)

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America) (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2014 and 2013 that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

The modified cash basis supplemental schedules of assets held at end of year as of December 31, 2014 and reportable transactions for the year ended December 31, 2014 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America)

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following brief description of ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a the Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America) (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan, as amended and restated through January 1, 2010, is a noncontributory defined benefit plan covering substantially all former employees of Polysius Corp. and Uhde Corporation of America. During 2014, Polysius Corp., Uhde Corporation of America, and another company related under common ownership merged to create ThyssenKrupp Industrial Solutions (USA), Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Vesting - Effective January 1, 2014, the Plan is frozen to new participants. Prior to January 1, 2014, employees at least 21 years of age were eligible for participation in the Plan upon completion of one year of service. Employees are immediately vested in their contributions plus earnings thereon. Employees become fully vested in company-funded accrued benefits upon completion of five years of service. Employees who terminate service before becoming fully vested forfeit all benefits under the Plan.

Pension Benefits - Normal retirement is permitted at the age of 65. The Plan permits early retirement based on certain age and credited service requirements. Monthly benefits are based on an annualized average of the participant's compensation and years of credited service, as described in the plan document. The Plan also contains provisions for disability, deferred vesting, and surviving spouse benefits.

Death Benefits - In certain circumstances, if an active or terminated participant who has a vested interest in the Plan dies prior to his or her normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the plan document.

ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America)

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

Funding Policy - The Plan is supported by the Company's and employees' contributions. Neither the Company's contributions nor the plan assets are allocated for the accounts of individuals; however, records of individual employee contributions are maintained. Prior to January 1, 2006, participants were required to contribute 2.25 percent of their monthly compensation. Participants are fully and immediately vested in these contributions. Present employees' accumulated contributions at December 31, 2014 and 2013 were \$1,242,401 and \$1,438,897, respectively, including interest credit at an interest rate of 2.10 percent in 2014 and 1.04 percent in 2013, compounded annually. Beginning January 1, 2006, employee contributions are no longer allowed.

Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. The Company will also, from time to time, make additional contributions, with the total not to exceed the maximum contribution deductible under the Internal Revenue Code. Annual contributions meet the minimum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The accompanying statements have been prepared on the modified cash basis of accounting. Under the modified cash basis of accounting, contributions and investment income are recorded when received, benefit payments and expenses are recorded when paid, and investments are recorded at fair market value.

Investment Valuation - The Plan's investments are stated at fair value. The fair value of the Plan's interest in the investment units held by the ThyssenKrupp North America, Inc. Master Trust (formerly known as ThyssenKrupp USA Master Trust) (the "Master Trust") is based on the beginning of year value of the Plan's interest in the investment units held by the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America)

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

The government securities and corporate obligations are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. Investments in partnerships are valued at net asset value per share (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments. The money market funds and interest-bearing cash are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative expenses associated with the Plan were paid by the Company during the years ended December 31, 2014 and 2013.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 1, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee") holds the Master Trust's investments and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements, including information summarized in Note 5, are based solely on information provided by the Trustee.

Certain assets of the Master Trust are in investment funds managed by The Bank of New York Mellon/BNY Mellon, N.A. or its affiliates. Since The Bank of New York Mellon/BNY Mellon, N.A. is the trustee of the Plan, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The market value of these investments was approximately \$91,000,000 and \$95,000,000 at December 31, 2014 and 2013, respectively.

Aetna Life Insurance Company (Aetna) is the paying agent on behalf of the Plan. Certain investments of the Plan are managed by Aetna. As the paying agent, Aetna is a party-in-interest to the Plan.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered to the valuation date. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The normal individual retirement benefit is equal to the participant's years of credited service multiplied by a monthly pension benefit in effect when the years of credited service were earned.

The actuarial present value of accumulated plan benefits is determined by the independent actuary, Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts and interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The determination was made as of January 1, 2014.

ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America)

Notes to Financial Statements December 31, 2014 and 2013

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The more significant actuarial assumptions underlying the actuarial computations at January 1, 2014 are as follows:

Actuarial cost method	- Unit credit
Interest rate	- 7.30 percent
Mortality basis	- RP-2014 white collar mortality rates at 2012, increased by 8.5 percent and based on employee rates for non-annuitants and annuitant rates for those in payment
Retirement	- Normal retirement age

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2014 was as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 8,663,034
Other vested participants	<u>8,156,616</u>
Total vested benefits	16,819,650

Nonvested benefits	<u>243,131</u>
--------------------	----------------

Total actuarial present value of accumulated plan benefits \$ 17,062,781

The following schedule summarizes the components of net increase in actuarial present value of accumulated plan benefits for the year ended January 1, 2014:

ThyssenKrupp Industrial Solutions (USA), Inc. Retirement Plan (f/k/a Retirement Plan for Employees of Polysius Corp. and Uhde Corporation of America)

Notes to Financial Statements December 31, 2014 and 2013

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 15,274,164
Increase (decrease) during the year attributable to:	
Benefits accumulated, including actuarial gains and losses	912,921
Interest due to the decrease in the discount period	1,108,214
Benefits paid	(828,828)
Change of assumptions	596,310
Net increase	<u>1,788,617</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 17,062,781</u>

During 2014, the discount rate changed from 7.20 percent to 7.30 percent. Also during 2014, the mortality basis changed from the RP-2000 mortality table to the RP-2014 white collar mortality rates at 2012, increased by 8.5 percent and based on employee rates for non-annuitants and annuitant rates for those in payment.

Note 5 - Interest in Master Trust

The Plan's investments are in various investment units held by the Master Trust, which was established for the investment of assets of the Plan and several other pension plans sponsored by affiliated participating employers of ThyssenKrupp North America, Inc. Each participating retirement plan has an ownership interest in the investment units which are described below. The assets of the Master Trust are held by the Trustee. Investment income is allocated to the individual plans based upon the plans' individual ownership of that associated investment unit. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon their share in the net assets of the Master Trust.

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Interest in Master Trust (Continued)

The following table represents the fair value of the investment units held by the Master Trust, including the Plan's ownership interest in each investment unit, at December 31, 2014 and 2013:

	<u>2014 Fair Value</u>	<u>2014 Plan Ownership Interest</u>	<u>2013 Fair Value</u>	<u>2013 Plan Ownership Interest</u>
Opportunistic Master Trust Unit	\$ 239,451,539	3 %	\$ 232,496,036	3 %

Securities Lending - The Master Trust participates in a securities lending program with the Trustee for its U.S. and non-U.S. securities held in custody with the Trustee. The program allows up to \$100,000,000 of the qualified assets to be on loan at any given time. These securities are lent to certain unrelated third-party brokers in exchange for cash and noncash collaterals. U.S. assets and non-U.S. assets on loan are collateralized at 102 percent and 105 percent, respectively, of the assets' market value.

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Interest in Master Trust (Continued)

The net assets of the investment units of the Master Trust reflect, as an asset, the collateral received under the securities lending arrangement with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower. The collateral received from borrowers totaled \$90,579,998 and \$95,374,435 as of December 31, 2014 and 2013, respectively. This consisted of cash collateral received of \$86,323,172 and \$80,991,413, which was invested in a money market fund and noncash collateral of \$4,256,826 and \$14,383,022 at December 31, 2014 and 2013, respectively. The noncash collateral received primarily consisted of fixed-income securities and letters of credit. In the event a loaned security is called, the Master Trust will receive the market value of the asset in cash. The market value of loaned securities totaled \$88,635,260 and \$93,337,986 at December 31, 2014 and 2013, respectively.

Derivative Instruments - The Master Trust is party to certain agreements, which are designed to manage exposures to foreign exchange and interest rate risks. The interest rate and foreign currency instruments are used for the purpose of hedging changes in the fair value of assets that result from interest rate changes and currency fluctuations, or as an efficient substitute for traditional securities. The notional amount represents the contract amount, not the amount at risk. The notional amount of interest rate instruments was approximately \$14,200,000 and \$13,400,000 at December 31, 2014 and 2013, respectively. The notional amount of foreign currency instruments was \$0 at December 31, 2014. The notional amount of foreign currency instruments was approximately \$100,000 at December 31, 2013. Management has elected to present derivative information on a gross basis when subject to master netting arrangements. The estimated fair value of derivative instruments at December 31, 2014 and 2013 is insignificant. For the years ended December 31, 2014 and 2013, a gain of \$2,986,001 and a loss of \$1,927,094, respectively, attributable to derivative instruments was recognized as investment income in the statement of changes in net assets available for benefits.

The investment managers, on behalf of the Master Trust, manage its interest rate and foreign currency risks by limiting exposure to and by monitoring the financial condition of each counterparty. In the unlikely event that a counterparty fails to meet the terms of an interest rate or foreign currency agreement, the Master Trust's risk is limited to the fair value of the instrument.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014 and 2013.

The Plan and Master Trust also hold other assets and liabilities not measured at fair value on a recurring basis, including accrued income, receivables for security sales, accrued liabilities, payables, and unsettled trades. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to the short maturity of such instruments. Under the fair value hierarchy, these financial instruments are valued primarily using Level 3 inputs.

Investments in Entities that Calculate Net Asset Value per Share

The Master Trust holds shares or interests in investment companies at year end whereby the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

At December 31, 2014 and 2013, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

Investments Held at December 31, 2014

	Fair Value	Unfunded Commitments	Redemption Frequency, if Eligible	Redemption Notice Period (In Business Days)

Notes to Financial Statements December 31, 2014 and 2013

Note 6 - Fair Value Measurements (Continued)

- (b) This class represents investments in an actively managed common collective trust fund with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (c) GMO Multi-Strategy Fund (Offshore), L.P. invests in various investment funds seeking a variety of investment strategies including common stock, depository receipts, bonds (including sovereign debt of emerging countries), commodities, currencies, forwards, futures, options, and swap agreements.
- (d) Western Asset Global Multi-Strategy, LLC invests primarily in global fixed-income securities in both developed and emerging market countries that are generally rated at least BBB by Standard & Poor's, or equivalent quality.

The Plan also invests in a money market fund. The fair value of the money market fund, a short-term investment, is based primarily on Level 2 inputs as described above and in Note 2.

Note 7 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service, dated August 27, 2010, indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements, nor were there any penalties or interest recognized or incurred. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 7.10% for the 2012 plan year and 7.20% for the 2013 plan year (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Participant data

Employee data was supplied by the plan sponsor as of the census date, January 1, 2014.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with ThyssenKrupp Industrial Solutions (USA), Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Changes in assumptions and methods since last actuarial valuation

The following changes in assumptions were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013, which was subsequently revised by applying the corridors of HATFA.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The assumed plan-related expenses added to the target normal cost were changed from \$23,069 for 2013 to \$24,379 for 2014.
- The expected rate of earnings for purposes of development of the actuarial value of assets as of January 1, 2014 was changed from 7.10% for the 2012 plan year to 7.20% for the 2013 plan year. The expected rate of earnings for the 2014 plan year is 7.30%.
- Benefits payable to active participants past normal retirement as of January 1, 2014 were assumed to be no less than the normal retirement benefit actuarially increased to January 1, 2014.

Early retirement benefit

Eligibility: Attainment of age 55.

Annual Annuity Benefit: Accrued Benefit reduced for early commencement, using the factors from the following table:

Attained Age	Factor	Attained Age	Factor
64	91.6%	59	61.5%
63	84.1%	58	57.2%
62	77.5%	57	53.3%
61	71.5%	56	49.8%
60	66.3%	55	46.6%

Vesting benefits

Eligibility: Completion of at least five Years of Service. A participant will also become vested upon attainment of Early Retirement Age (age 55).

Annual Annuity Benefit: Accrued Benefit payable at Normal Retirement. If eligible, the participant may elect to commence his benefits under the Early Retirement section of the plan. (As early as 55.)

Death benefits

Eligibility: All participants are eligible for Death benefits under the plan.

Benefit: The participant's surviving spouse shall receive the spousal benefit of the 100% joint and contingent benefit based upon the Accrued Benefit at date of death payable at what would have been the participant's Normal Retirement Date. If eligible, the benefit may be paid on a reduced basis on what would have been the participant's earliest Early Retirement Date.

Normal form of payment

The Normal Form of Payment is a modified cash refund annuity.

For married participants:

The Normal Form of Payment must be elected with spousal consent. If no election is made, then the form of payment is automatically a joint and 50% contingent annuity with the spouse as the co-pensioner. This form of payment is actuarially equivalent to the Normal Form of Payment.

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Available optional forms include a social security adjustment option, a 66²/₃% joint and survivor option, a 75% joint and survivor annuity, a 100% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. Actuarial equivalence is based on an interest rate of 4¹/₂% and the 1951 Group Annuity Mortality Table with a 6-year setback for the participant and a 1-year setback for the spouse.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Plan participants' contributions

2.25% of Earnings. Effective January 1, 2006, employee contributions are no longer required or allowed.

Future plan changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in plan provisions since last actuarial valuation

The plan was amended to freeze participation in the plan to new participants effective January 1, 2014.
