INDEPENDENT AUDITOR'S REPORT

To the Plan Management of the
Quest Management 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Quest Management 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

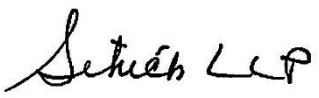

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year), as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

1. DESCRIPTION OF PLAN

The following description of the Quest Management 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Quest Food Management Service, Inc. (the Company) who have 90 days of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% (through April 5, 2013) of pre-tax annual compensation, less any reimbursements or other expense allowance, fringe benefits (cash or noncash), moving expenses, deferred compensation (other than elective contributions), and welfare benefits, as defined in the Plan. After April 5, 2013, participants may contribute up to 90% of pre-tax annual compensation with no exclusions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching contributions. For the years ended December 31, 2014 and 2013, the Company matched 50% of the first 3% of deferrals of eligible employees. Contributions are subject to certain limitations.

Investment Options

Participants may direct all their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion and the profit sharing portion of their accounts is based on the following table:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $750 (through April 5, 2013) and a minimum of $500 (subsequent to April 5, 2013) up to the maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants account and bear interest at a rate of 4.25% to 5.25%, which is commensurate with local prevailing rates as determined by the plan administrator. The term of the loan may not exceed 5 years or 30 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Under certain conditions participants may receive a hardship distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company. Loan and distribution administration fees are charged directly to the participant's account and are included in administrative expenses.

Forfeited Accounts

As of December 31 2014 and 2013, there were unused forfeitures of $162 and $161, respectively. These amounts will be used to reduce future employer matching contributions. In 2014 and 2013, employer contributions were reduced by $0, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 6, 2015, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are separately identified below as of either or both year ends.

	2014	2013
The Hartford International Opportunities Fund-Class R4	$ 129,822	$ 125,415
Pimco Investment Grade Corporate Bond - Class A	63,926	*
Putnam Capital Opportunities Fund-Class A	160,943	143,721
T. Rowe Price Retirement 2010 Fund-Class R	**	227,277
T. Rowe Price Retirement 2020 Fund-Class R	62,629	*
T. Rowe Price Retirement 2025 Fund-Class R	288,511	218,949
T. Rowe Price Retirement 2030 Fund-Class R	147,453	120,121

*Balance at December 31, 2013 does not represent 5% or more of net assets.

**Balance at December 31, 2014 does not represent 5% or more of net assets.

During 2014, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value by $(10,079) as follows:

Collective trust	$ 6,097
Mutual funds	(16,176)
TOTAL	$ (10,079)

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Collective trusts: Investments are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy, because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

4. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

SmallCap Index Fund (d)	2,873	1,663	-	-	Daily	None

4. FAIR VALUE MEASUREMENTS (Continued)

(a) The primary objective of the Stable Asset Fund (the Fund) is to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The Fund's returns are based on returns generated by an actively-managed, highly diversified portfolio of investment grade, fixed and floating rate securities. The Fund may invest in such securities directly or indirectly through commingled investment vehicles (the "building block strategy"). This building block strategy may provide greater diversification than could be achieved by investing in individual bonds. This building block strategy also may reduce the unintended impact on portfolio characteristics created by participant cash flow.

(b) The MidCap Index Fund (the Fund) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P MidCap 400 Index (the Index) over the long-term. The Fund is managed using a "passive" or "indexing" investment approach, by which the fund manager attempts to match, before expenses, the performance of the Index. The fund manager will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. From time-to-time, the fund manager may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

(c) The S&P 500 Index Fund (the Fund) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 (the Index) over the long term. The Fund is managed using a "passive" or "indexing" investment approach, by which the fund manager attempts to match, before expenses, the performance of the Index. The fund manager will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. From time-to-time, the fund manager may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

(d) The SmallCap Index Fund (the Fund) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 2000 (the Index) over the long-term. The Fund is managed using a "passive" or "indexing" investment approach, by which the fund manager attempts to match, before expenses, the performance of the Index. The fund manager will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. From time-to-time, the fund manager may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

4. FAIR VALUE MEASUREMENTS (Continued)

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2014 and 2013, there were no such transfers.

5. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014, has been certified as complete and accurate by State Street Bank & Trust Company, the trustee of plan assets, and has not been audited by the independent auditors for the Plan: investments at fair value, notes receivable from participants, interest and dividend income, interest on notes receivable from participants, and net depreciation in fair value of investments.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The Company adopted a prototype plan from Principal Life Insurance Company (through April 5, 2013) and from ADP Retirement Services (subsequent to April 5, 2013). This plan received a determination letter from the Internal Revenue Service on March 31, 2008 stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

7. TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax authority examinations for years prior to 2011.

8. RELATED PARTY TRANSACTIONS

Certain plan investments and notes receivable from participants were managed by the trustee and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets per the financial statements to the Form 5500 for the years ended December 31, 2014 and 2013:

	2014	2013
Net assets per the financial statements	$ 1,220,132	$ 1,166,709
Add adjustment from fair value to contract value not reported on Form 5500	779	369
NET ASSETS PER FORM 5500	$ 1,220,911	$ 1,167,078

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (Continued)

The following is a reconciliation of net income per the financial statements to Form 5500 for the year ended December 31, 2014:

Net increase per the financial statements	$	53,423
Less prior year adjustment from fair value to contract value not reported on Form 5500		(369)
Add adjustment from fair value to contract value not reported on Form 5500		779

INDEPENDENT AUDITOR'S REPORT

To the Plan Management of the
Quest Management 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Quest Management 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

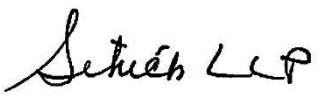

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year), as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Quest Management 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Quest Food Management Service, Inc. (the Company) who have 90 days of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% (through April 5, 2013) of pre-tax annual compensation, less any reimbursements or other expense allowance, fringe benefits (cash or noncash), moving expenses, deferred compensation (other than elective contributions), and welfare benefits, as defined in the Plan. After April 5, 2013, participants may contribute up to 90% of pre-tax annual compensation with no exclusions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching contributions. For the years ended December 31, 2014 and 2013, the Company matched 50% of the first 3% of deferrals of eligible employees. Contributions are subject to certain limitations.

Investment Options

Participants may direct all their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion and the profit sharing portion of their accounts is based on the following table:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $750 (through April 5, 2013) and a minimum of $500 (subsequent to April 5, 2013) up to the maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants account and bear interest at a rate of 4.25% to 5.25%, which is commensurate with local prevailing rates as determined by the plan administrator. The term of the loan may not exceed 5 years or 30 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Under certain conditions participants may receive a hardship distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company. Loan and distribution administration fees are charged directly to the participant's account and are included in administrative expenses.

Forfeited Accounts

As of December 31 2014 and 2013, there were unused forfeitures of $162 and $161, respectively. These amounts will be used to reduce future employer matching contributions. In 2014 and 2013, employer contributions were reduced by $0, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 6, 2015, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are separately identified below as of either or both year ends.

	2014	2013
The Hartford International Opportunities Fund-Class R4	$ 129,822	$ 125,415
Pimco Investment Grade Corporate Bond - Class A	63,926	*
Putnam Capital Opportunities Fund-Class A	160,943	143,721
T. Rowe Price Retirement 2010 Fund-Class R	**	227,277
T. Rowe Price Retirement 2020 Fund-Class R	62,629	*
T. Rowe Price Retirement 2025 Fund-Class R	288,511	218,949
T. Rowe Price Retirement 2030 Fund-Class R	147,453	120,121

*Balance at December 31, 2013 does not represent 5% or more of net assets.

**Balance at December 31, 2014 does not represent 5% or more of net assets.

During 2014, the Plan's investments (including investments bought, sold, and held during the year) depreciated in value by $(10,079) as follows:

Collective trust	$ 6,097
Mutual funds	(16,176)
TOTAL	$ (10,079)

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Collective trusts: Investments are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy, because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual funds: Valued at the net asset value of shares held by the Plan at year end.

4. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

SmallCap Index Fund (d)	2,873	1,663	-	-	Daily	None

4. FAIR VALUE MEASUREMENTS (Continued)

(a) The primary objective of the Stable Asset Fund (the Fund) is to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The Fund's returns are based on returns generated by an actively-managed, highly diversified portfolio of investment grade, fixed and floating rate securities. The Fund may invest in such securities directly or indirectly through commingled investment vehicles (the "building block strategy"). This building block strategy may provide greater diversification than could be achieved by investing in individual bonds. This building block strategy also may reduce the unintended impact on portfolio characteristics created by participant cash flow.

(b) The MidCap Index Fund (the Fund) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P MidCap 400 Index (the Index) over the long-term. The Fund is managed using a "passive" or "indexing" investment approach, by which the fund manager attempts to match, before expenses, the performance of the Index. The fund manager will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. From time-to-time, the fund manager may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

(c) The S&P 500 Index Fund (the Fund) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 (the Index) over the long term. The Fund is managed using a "passive" or "indexing" investment approach, by which the fund manager attempts to match, before expenses, the performance of the Index. The fund manager will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. From time-to-time, the fund manager may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

(d) The SmallCap Index Fund (the Fund) seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 2000 (the Index) over the long-term. The Fund is managed using a "passive" or "indexing" investment approach, by which the fund manager attempts to match, before expenses, the performance of the Index. The fund manager will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. From time-to-time, the fund manager may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.

4. FAIR VALUE MEASUREMENTS (Continued)

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2014 and 2013, there were no such transfers.

5. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014, has been certified as complete and accurate by State Street Bank & Trust Company, the trustee of plan assets, and has not been audited by the independent auditors for the Plan: investments at fair value, notes receivable from participants, interest and dividend income, interest on notes receivable from participants, and net depreciation in fair value of investments.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The Company adopted a prototype plan from Principal Life Insurance Company (through April 5, 2013) and from ADP Retirement Services (subsequent to April 5, 2013). This plan received a determination letter from the Internal Revenue Service on March 31, 2008 stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

7. TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax authority examinations for years prior to 2011.

8. RELATED PARTY TRANSACTIONS

Certain plan investments and notes receivable from participants were managed by the trustee and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets per the financial statements to the Form 5500 for the years ended December 31, 2014 and 2013:

	2014	2013
Net assets per the financial statements	$ 1,220,132	$ 1,166,709
Add adjustment from fair value to contract value not reported on Form 5500	779	369
NET ASSETS PER FORM 5500	$ 1,220,911	$ 1,167,078

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (Continued)

The following is a reconciliation of net income per the financial statements to Form 5500 for the year ended December 31, 2014:

Net increase per the financial statements	$	53,423
Less prior year adjustment from fair value to contract value not reported on Form 5500		(369)
Add adjustment from fair value to contract value not reported on Form 5500		779
