NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Apple Bus Company 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering all employees of the Plan sponsor, Apple Bus Company (the Company) who have at least 3 months of service and are age 21 or older. After completing one year of service, participants may be eligible for the Company profit sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for oversight of the Plan, which includes determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

Contributions Each year participants may contribute a percent of pretax annual compensation, as defined in the Plan. The Company also allows employees to make after tax Roth contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes a match contribution equal to 10% of the first 10% of the participants' compensation contributed to the Plan, and may make additional profit sharing contributions as determined by the Company's board of directors. Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings, and charged with an allocation of certain investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service. For employer matching contributions, a participant is 100 percent vested after 5 years of credited service. For employer profit sharing contributions, a participant is fully vested after 3 years of credited service.

Payment of Benefits On termination of service, a participant may generally elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship distributions are permitted if certain criteria are met. Participants who have attained age 59½ are eligible to take a distribution up to their vested account balance.

Forfeited Accounts Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. Unallocated forfeiture balances as of December 31, 2014 and 2013, are \$831 and \$2,587, respectively, and forfeitures used to reduce employer matching contributions for 2014 and 2013, were \$2,587 and \$1,141, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared under the accrual method of accounting.

Apple Bus Company 401(k) Profit Sharing Plan and Trust

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

Investment Valuation The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of mutual funds includes the Plan's gains and losses on mutual funds bought and sold as well as held during the year.

Fair Value Measurement Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

Certification Certain information related to investments disclosed in the accompanying financial statements at December 31, 2014 and 2013, and total investment income for the years ended December 31, 2014 and 2013, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Mid Atlantic Trust Company (MATC).

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain expenses of maintaining the Plan are paid directly by the Plan sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of mutual funds.

Subsequent Events The Plan has evaluated subsequent events through October 7, 2015, which is the date the financial statements were available to be issued.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

6. INCOME TAX STATUS

The Company adopted the Paychex, Inc. (Paychex) Prototype Non-standardized Profit Sharing Plan. The Internal Revenue Service has determined and informed Paychex by a letter dated March 31, 2008, that the Plan and related trust, as amended, are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since the date of the opinion letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to U.S. Federal income tax examinations by the tax authorities for a period of three years after filing the tax return.

7. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Apple Bus Company 401(k) Profit Sharing Plan and Trust

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

8. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan.

Certain Plan investments are shares of mutual funds managed by MATC. MATC is the custodian as defined by the plan and, therefore, these transactions qualify as party in interest transactions.

MATC provides certain administrative services to the Plan pursuant to an agreement between the Company and MATC. MATC receives revenue from mutual funds and other service providers for services MATC provides to the funds. This revenue is used to offset certain amounts owed to MATC for its administrative services to the Plan.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the mutual funds, as they are paid through revenue sharing, rather than a direct payment. The Plan sponsor pays directly any other fees related to the Plan's operations.

9. FUTURE FASB IMPLEMENTATION

In July 2015, FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)*. This update will simplify accounting for employee benefit plans by designating contract value as the only required measure for fully benefit-responsive investment contracts. This designation will eliminate the need for reconciliation from contract value to fair value on the face of the financial statements for employee benefit plans that hold fully benefit-responsive investment contracts. The Plan should apply the Part I revisions retrospectively for all financial statements presented. Additionally, this update will simplify investment disclosures by eliminating disclosures that do not include useful information. These eliminated disclosures include individual investments that represent 5% or more of net assets available for benefits, net appreciation or depreciation for investments by general type, and the disaggregation of the investments by nature and risk. The Plan should also apply the Part II revisions retrospectively for all financial statements presented. Finally, this update will provide a practical expedient to permit plans to measure investments as of a month-end date that is closest to the Plan's fiscal year-end when the fiscal period does not coincide with a month-end. In this case, the Plan should apply the Part III revisions prospectively. Plan management has not yet determined the impact that implementation of this update, which is effective for fiscal years after December 15, 2015, will have on the Plan's financial statements, if any. Early application is permitted, but the Plan has chosen not to apply the standards for the year ended December 31, 2014.
