Note 1. Plan Description

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering substantially all employees of Soderstrom Dermatology Center S.C. (the Center) and Med Pro Advantage, LLC (Med Pro) who are twenty-one years of age or older and have completed three months of service as defined by the Plan. To be eligible for the profit sharing portion of the Plan, an employee must have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant accounts: Each participant's account is credited with his or her voluntary contributions and allocations of the Center's and Med Pro's contributions and plan earnings. Allocations are based on participant earnings or account balances as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant-directed investments: Participants may select from various investment options. Participants may change their investment options on a daily basis.

Contributions: Participants may contribute up to the maximum allowable percentage of their pretax compensation subject to limits imposed by the Internal Revenue Code. Participants who are at least 50-years-old by the end of the calendar year are allowed to make a catch-up contribution for that year, subject to limits imposed by the Internal Revenue Code. The Center and Med Pro can make a non-elective contribution equal to 3% of compensation for participants who have completed at least one year of service. The contribution for the year ended December 31, 2014, was $298,753. The Center and Med Pro may make a discretionary profit sharing contribution in an amount determined by the Center and Med Pro. The Center and Med Pro made a profit sharing contribution of $15,600 for the year ended December 31, 2014.

Vesting: Participants are immediately vested in their voluntary contributions and actual earnings thereon and the Company's 3% nonelective contribution. Vesting in the Center's and Med Pro's additional profit sharing contributions and earnings thereon is based on years of service. The participant is fully vested after six years of credited service from the date of employment.

Forfeitures: Forfeitures of terminated participants' nonvested accounts are used to pay plan expenses and reduce the discretionary profit sharing contribution. Unused forfeitures included in net assets available for benefits were $5,110 and $903 as of December 31, 2014 and 2013, respectively. During the year ended December 31, 2014, no forfeitures were used to reduce employer contributions.

Payment of benefits: Benefits are paid as various annuity options or a single lump-sum at the option of the participants. Upon termination of employment, the participants are entitled to their retirement benefit that equals the vested amount in the participant's account. Participants with a vested balance of more than $5,000 have the option to leave their vested account balance in the Plan. Participants with a present value benefit between $1,000 and $5,000 can elect a distribution option or if no election is made, the plan administrator will pay the distribution in a lump-sum payment. Accounts less than $1,000 are distributed to the participant in a single sum upon termination.

Note 2. Summary of Accounting Policies

Use of estimates in the preparation of financial statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities

and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: Subsequent events have been evaluated through September 28, 2015, which is the date the financial statements were available to be issued. No items of disclosure were identified.

Note 3. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Center and Med Pro. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Center and Med Pro.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Center and Med Pro have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, all amounts become fully vested and shall be distributed to the participants.

Note 5. Income Tax Status

The Plan is a nonstandardized profit sharing 401(k) prototype plan sponsored by Alliance Pension Consultants, LLC. The prototype plan has received a determination letter from the Internal Revenue Service as to its qualified status. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 6. Information Certified by Mid Atlantic Trust Company

The following is a summary of the plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from Mid Atlantic Trust Company the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2014	2013
Investments, participant-directed investment programs:		
American Funds Growth Fund of Amer R3	$ 693,568	$ 424,863
PIMCO Total Return R	788,534	737,171
Russell Lifepoints 2030 Strategy R5	579,324	488,843
Russell Lifepoints 2020 Strategy R5	740,257	727,018
Russell Lifepoints 2040 Strategy R5	695,143	588,547
All other investments individually less than 5% of Plan net assets	3,878,358	3,656,822
	$ 7,375,184	$ 6,623,264

Mid Atlantic Trust Company also certified to the completeness and accuracy of $255,859 of net appreciation in fair value of investments and $100,820 in interest and dividends.

The 2015 market volatility of equity-based investments is expected to substantially impact the value of such investments at any given time.

It is likely that the value of the Plan's investments, both in total and in individual participant accounts, has fluctuated since December 31, 2014.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Fair Value Measurements

ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value ('NAV") of shares held by the Plan at year-end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:
