INDEPENDENT AUDITORS' REPORT

To the Participants and
Administrative Committee of the
Epicor Software 401(k) Savings Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Epicor Software 401(k) Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note G, which was certified by Fidelity Management Trust Company, the Plan custodian, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company holds the Plan's investment assets and executes transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental Schedule of Assets Held for Investment Purposes as of or for the year ended December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Epicor Software 401(k) Savings Plan
Notes to Financial Statements

A. Description of the Plan

The following description of the Epicor Software 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering substantially all employees of Epicor Software Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees who have attained at least 21 years of age are eligible to participate on the first of the month after meeting such eligibility requirement.

Administration. The Plan is administered by the Company.

Contributions. Participants may elect to contribute between 1 and 90% of eligible compensation, not to exceed the limits of the Internal Revenue Code (the IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participants who have attained at least 21 years of age are eligible to receive matching contributions on the first day of the calendar quarter following completion of three months of service. For the year ended December 31, 2014, the Company made matching contributions of 50% of the first 5% of compensation deferred by a participant. The Company may also make discretionary contributions as determined annually by the Board of Directors. For the year ended December 31, 2014, the Company made no discretionary contributions.

Participant Accounts. Each participant's account is credited with the participant's contributions, employer matching contributions, and allocations of (a) the Company's discretionary contributions, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeiture Accounts. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $34,397 and $71,239 respectively. These accounts may be used to pay certain Plan expenses or may reduce future employer contributions. Forfeitures were not used to reduce employer contributions or pay Plan expenses for 2014.

Vesting. Participants are immediately vested in their Employee Before-Tax and Participant Rollover Contributions and earnings thereon.

A. Description of the Plan (continued)

For the year ended December 31, 2014, Participants were also immediately vested in the Company's contributions plus actual earnings thereon.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. Upon termination of employment due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount not to exceed the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdrawal all or part of their aggregate contributions in the event of financial hardship.

Expenses of the Plan. Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

Plan Termination. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

B. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in guidance issued by the Financial Accounting Standards Board (the FASB) for reporting of fully benefit-responsive investment contracts held by certain investment companies, investment contracts held by a defined-contribution plan are required to be reported at fair value.

B. Summary of Significant Accounting Policies (continued)

However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for a further discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Notes Receivable from Participants. Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Risks and Uncertainties. The Plan provides for various investment options in any combination of mutual funds offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

B. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncements. Management is not aware of any new accounting pronouncements that have been released, and are not yet effective, which will have a significant impact to its financial position or results of operations in future periods.

Subsequent Events. The Plan has evaluated subsequent events through October 8, 2015, the date the financial statements were available to be issued.

C. Income Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan has since been amended and restated most recently to include the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

D. Participant-Directed Investments

The Plan permits participants to invest their account balance and contributions in investment accounts offered by Fidelity. Allocations may be made in any percentage and may be changed by the participant at any time by directly contacting Fidelity.

E. Related Party Transactions and Party in Interest Transactions

Certain Plan investments are invested in mutual funds managed by Fidelity. Fidelity is the Trustee of the Plan and custodian of plan assets. Therefore, these transactions qualify as party-in-interest transactions. Transactions in such investments are exempt from the prohibited transaction rules.

E. Related Party Transactions and Party in Interest Transactions (continued)

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by Fidelity, the trustee and record-keeper of the Plan. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. During 2014, the Plan incurred ($77,901) in contract administration fees to Fidelity. The Company paid certain administrative expenses of the Plan, including recordkeeping fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

F. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The framework to measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques and used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

F. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of nonobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Mutual funds are valued at the net asset value (NAV) of shares held in the plan at year-end. As such, they are classified as Level 1 investments.

Group annuity contract-stable value fund: Group annuity contract-stable value funds, are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer and are therefore classified as Level 2 investments.

F. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014

G. Investments

All investment information disclosed in the accompanying financial statements, notes, and schedule, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of mutual funds and interest and dividend income for the year ended December 31, 2014 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the Plan custodian.

G. Investments (continued)

The Plan's investments are held by Fidelity. The following schedule shows investments as of December 31, 2014 and 2013 that represent 5% or more of the Plan's net assets. Each of the investment fund reported below is participant-directed.

Investments at Fair Value:	**December 31, 2014**	December 31, 2013
Thornburg International Value Fund	**n/a**	$ 19,150,655
MassMutual Blended Stable Value	$ **30,093,242**	30,473,523
Invesco Balanced-Risk Allocation R5	**21,597,308**	21,082,207

Fidelity Low-Priced Stock K	**18,184,655**	n/a
Spartan 500 Index Institutional	**26,920,483**	23,076,318

H. Stable Value Investment Contract

As of December 31, 2014, the plan held assets of $30,093,242 in a benefit-responsive investment contract (stable value fund) with MassMutual. The fund is comprised of units in the Fidelity Money Market Trust: Retirement Money Market Portfolio, as well as in the MassMutual Separate Account Guaranteed Interest Contract Core Fund.

The trustee will value the portfolio at a net asset value of $1 per share, on a daily basis, and produce a blended rate to reflect net income earned by the Portfolio. Income will accrue in accordance with the actual crediting rate practices of each underlying asset in the Portfolio. Accrued interest is posted to participant account at month end.

The fair value of the fund represents the liquidation value as documented within the contract and assumes that the intrinsic value of the general investment account guarantee is immaterial. Liquidation value is the market value of the assets in the separate account.

Additionally, the Mass Mutual Blended Stable Value Fund pays Fidelity 20 basis points in revenue sharing to be on their record keeping system.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

H. Stable Value Investment Contract (continued)

Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields :	**2014**	2013
Based on actual earnings	**2.45%**	2.55%
Based on interest rate credited to participants	**3.70%**	3.81%

I. Reconciliation of Financial Statements to Form 5500
