1. Description of Plan

The following description of American Bank Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated effective January 1, 2002.

General

The Plan is an employee savings plan that covers all employees of American Bank, N.A. (the "Bank" or "Plan Sponsor") who are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan provides for discretionary employer matching contributions at the option of the Bank's Board of Directors. Contributions are subject to certain limitations. For the years ended December 31, 2014 and 2013, discretionary employer matching contributions totaled $800,279 and $728,661, respectively.

Employees are automatically enrolled upon meeting the eligibility requirements with a deferral percentage of 2%, unless the employee makes a different request. Participants may elect to contribute up to the dollar limit which is set by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans. Participants are always 100% vested in their voluntary contributions.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Bank's contribution portion of their accounts is based on years of continuous service. Bank matching contributions have a five-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Notes Receivable From Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

Forfeitures
Participant forfeitures of nonvested balances will be used to reduce future employer contributions and pay the expenses of the Plan. During 2014 and 2013, employer contributions were reduced by $25,784 and $22,333 from forfeited nonvested accounts, respectively. At December 31, 2014 and 2013, unallocated forfeitures totaled $18,393 and $35,769, respectively.

Administrative Expenses
Administrative expenses may be paid by either the Plan Sponsor or the Plan, as provided by the Plan document. Loan administration fees are paid by the participant electing the loan.

2. Summary of Significant Accounting Policies

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan has evaluated subsequent events through October 8, 2015, the date the financial statements were available to be issued.

Reclassification
Certain reclassifications have been made in the prior year's financial statements to conform to the current year's presentation.

3. Information Certified and Provided by Verisight Trust Company

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Verisight Trust Company ("Verisight"), the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013

- Investment income and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013

- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2014

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2014	2013
Bancorp Master Demand Account Advantage Fund	**$ 5,410,130**	$ 3,871,555
Vanguard Total Stock Market Index Fund	**4,328,989**	3,549,327
Harbor Capital Appreciation Fund	**4,047,901**	4,080,354
American Funds Small Cap World Fund	**1,784,135**	2,231,041
American Funds American Balanced Fund	**1,710,398**	*
American Funds Euro Pacific Growth Fund	*	1,419,440

*Did not meet 5% criteria at respective financial statement date.

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the years ended December 31, 2014 and 2013, appreciated in fair value by $665,159 and $3,481,600, respectively. The appreciation in fair value was attributable to mutual funds.

5. Fair Value Measurements

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

- Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

6. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by InterServ, LLC, a subsidiary of Verisight. Verisight is the trustee, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Plan Sponsor paid certain administrative expenses related to the Plan for the years ended December 31, 2014 and 2013.

7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan Sponsor contributions.

8. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Effective November 1, 1990, the Plan adopted a standardized form of a prototype plan. The prototype plan has received a determination letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500
