## Note 1. Plan Description

The following summary of Dunn Tire LLC Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution retirement plan sponsored by Dunn Tire LLC (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator and Trustees are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment offerings, and monitor investment performance.

The Plan is administered pursuant to a group annuity contract with John Hancock Life Insurance Company of New York (John Hancock).

Eligibility:

Employees of the Company are eligible to participate in the Plan on a semi-annual basis following their date of hire and once they have attained the age of twenty-one and have completed six months of service. Employees of the Company are eligible to receive employer matching contributions after meeting the criteria above.

Contributions:

Participants may contribute up to 100% of pretax annual compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make additional contributions. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Effective January 1, 2015, the Plan was amended to automatically enroll participants at a deferral rate of 3% of eligible compensation. Participants may also make voluntary after-tax contributions to the Plan up to 100% of their eligible compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company makes matching contributions equal to 25% of a participant's pretax contributions, up to a maximum of 4% of that participant's annual compensation, as defined by the Plan. The Plan permits the Company to make discretionary contributions. The Company did not make any discretionary contributions for the years ended December 31, 2014 or 2013.

Contributions are subject to certain limitations of the Internal Revenue Code (the Code). Participants direct the investment of their contributions into various investment options offered by the Plan.

Note 1. Plan Description (Continued)

Participant accounts:

Each participant's account is credited with the participant's contributions, Company matching contributions, an allocation of Plan earnings, reduced for benefits paid, and charged directly for loan origination, benefit processing, and other administrative fees paid by the Plan, if applicable. Allocations of Plan earnings are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is limited to that which can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts is based on two years of credited service, as defined.

Forfeitures:

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $4 and $49, respectively. Forfeitures of nonvested Company contributions are used to reduce the Company's contributions. Forfeitures of $611 and $413 were used to reduce Company contributions in 2014 and 2013, respectively.

Payment of benefits:

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments. Distributions are also permitted in the event of financial hardship, as defined by the Plan, and for participants who have attained age 59½.

Notes receivable from participants:

Participants may borrow from their account a minimum of $500 per loan up to a maximum loan equal to the lesser of $50,000 or 50% of their vested account. Participants may be granted three loans during any one-year period. A participant may not have more than 3 loans outstanding at any given time. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%. Loans must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over the term of the loan, over a maximum term of five years. The terms may be extended for the purchase of a participant's primary residence. Principal and interest are paid ratably through monthly payroll deductions.

Note 1. Plan Description (Continued)

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Plan pays for fees related to the origination of notes receivable from participants and benefit processing fees which are charged directly to the participant's account and are included in administrative expenses. The Plan also pays for certain recordkeeping fees. Investment expenses related to fund management are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

**Note 2. Significant Accounting Policies**

Basis of accounting:

The financial statements have been prepared using the accrual basis of accounting.

Investment valuation and income recognition:

Pursuant to the group annuity contract with John Hancock, the Plan offers a series of pooled separate accounts to participants. These pooled separate accounts are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Benefits:

Benefits are recorded when paid.

Note 2. **Significant Accounting Policies (Continued)**

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through September 30, 2015, which is the date the financial statements were available to be issued.

Note 3. **Information Certified by the Plan's Custodian**

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following table presents assets of the Plan that have been certified by John Hancock at December 31, 2014 and 2013. Investments and notes receivable from participants that represent 5% or more of the Plan's net assets available for benefits at either December 31, 2014 or 2013 are separately identified as follows:

| | 2014 | 2013 |
|---|---|---|
| Pooled separate accounts: | | |
| John Hancock Life Insurance Company of New York: | | |
| Lifestyle Growth Fund | $ 1,796,678 | $ 1,671,794 |
| Lifestyle Aggressive Fund | 750,363 | 702,875 |
| Lifestyle Balanced Fund | 638,930 | 578,745 |
| Other | 1,866,287 | 1,695,135 |
| | 5,052,258 | 4,648,549 |
| Notes receivable from participants | 304,993 | 300,265 |
| | $ 5,357,251 | $ 4,948,814 |

John Hancock also certified to the completeness and accuracy of the following financial information for the years ended December 31, 2014 and 2013:

| | 2014 | 2013 |
|---|---|---|
| Net appreciation in the fair value of investments | $ 193,247 | $ 763,565 |
| Interest income on notes receivable from participants | 12,428 | 12,558 |
| | $ 205,675 | $ 776,123 |

## Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for Plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

*Pooled Separate Accounts*: Valued at the net asset value (NAV) of units of the pooled separate account. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised primarily of shares of registered investment companies held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAV, as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company, is used as a practical expedient to estimate fair value. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Were the Plan to initiate a full redemption of the underlying investments, the investment advisor has reserved the right to temporarily delay withdrawal from the pooled separate accounts to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. **Fair Value Measurements (Continued)**

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014 and 2013:

| | 2014 | | | |

Note 4. **Fair Value Measurements (Continued)**

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013, respectively:

| Investments | Fair Value at December 31, 2014 | Fair Value at December 31, 2013 | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| Pooled separate accounts | $ 5,052,258 | $ 4,648,549 | Daily | *** |

*** John Hancock's short-term trading policy permits a maximum of two exchanges per calendar month. After the exchange limit, participants may move 100% of their account to a money market fund where it must remain for thirty days. Trading can resume only once the thirty days has expired. Also, additional restrictions may be imposed if it is determined that any exchange activity may disrupt or be potentially disruptive to an investment option, even though in compliance with their policy.

There were no unfunded commitments related to the pooled separate accounts at December 31, 2014 or 2013.

The investing objectives of the pooled separate accounts are primarily as follows:

Asset allocation – lifestyle: consists of five portfolios (conservative, moderate, balanced, growth and aggressive) offering varying levels of risk and return potential. Asset allocations within the portfolios are blended between stocks and bonds.

Asset allocation – lifecycle: consists of nine portfolios which seek total return through its target retirement date, with a greater focus on income beyond that date. Under normal market conditions, the portfolio will invest primarily in an array of underlying funds, using an asset allocation strategy designed for investors who expect to retire in the target retirement date and remain invested in the portfolio throughout their retirement years.

Growth and aggressive growth: consists of mutual funds whose objective is to maximize long-term capital growth, rather than dividend income, by investing in narrow market segments and small company stocks. Growth and aggressive growth funds are designed for maximum capital appreciation and generally invest in companies with high growth rates.

**Note 5. Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

**Note 7. Party-In-Interest Transactions**

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allows participants to take loans from their accounts in the Plan. Certain notes receivable from participants and income thereon qualify as party-in-interest transactions.

Plan investments consist of units of pooled separate accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, transactions with John Hancock qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock amounted to $27,963 and $23,971 for the years ended December 31, 2014 and 2013, respectively, which was not covered by revenue sharing. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

**Note 8. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
