Contributions

Each year, participants may contribute up to 96% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contribution plans. Participants may also contribute amounts representing distribution from other qualified benefit or contribution plans. Participants' direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 25% of the first 4% of base compensation that a participant contributes to the Plan. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. A participant is 100 percent vested after six years of credited service, except upon the death or disability of the participant, when it becomes 100% vested.

Notes Receivable From Participants

Participants may borrow from their fund accounts. The loans are secured by the balance in the participant's account and bear interest, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 2 - Summary of Accounting Policies

Date of Management's Review

Subsequent events were evaluated through October 13, 2015, which is the date the financial statements were available to be issued.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts-from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis using contract value for the fully benefit responsive investment contracts.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and change therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Notes receivable from participants are valued at their outstanding balances, which approximate fair value. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Concentrations of Credit Risk

Financial instruments, which potentially subject the Fund to concentrations of credit risk, are investments in mutual funds with John Hancock Life Insurance Company of New York, an investment firm whose investments are not insured under the FDIC. The management of the Plan and of the Plan's Sponsor has evaluated the financial strength of the investment firm and is satisfied as to their financial stability.

NOTE 2 - Summary of Accounting Policies - Continued

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

NOTE 3 - Investments

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value of reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 input consist of using other observable inputs; and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and level 3 inputs were only used when level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

In evaluating what level of input to classify the Plan's investments in mutual funds, the Plan's Trustees and Management concluded that since the mutual funds were valued based on quoted prices in active markets, the investments in the mutual funds should be measured in the fair value hierarchy under Level 1.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

NOTE 5 - Tax Status

The Plan was established in 1997 under the pre-approved non-standardized prototype document of its third party administrator (TPA), Paychex, Inc. This document has been submitted to the Internal Revenue Service for a specific determination letter, the TPA, the Trustees and management of the Plan and the management of the Plan Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 6 - Plan Termination

Upon termination of the Plan, participants will be paid their vested benefits in accordance with the provisions of the Plan, until all net assets available for benefits of the Plan are distributed.

NOTE 7 - Risk and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company of New York. John Hancock Life Insurance Company of New York is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $3,206 and $2,639 for the year ended December 31, 2014 and 2013 respectively.
