NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Wood Group Power Operations (West), Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Wood Group Power Operations (West), Inc. 401(k) Plan is a single employer defined contribution plan established on April 1, 2007 to provide retirement and other profit sharing benefits to the employees of Wood Group Power Operations (West), Inc. (the "Company" or "Employer"), a division of EthosEnergy LLC.

The purpose of the Plan is to enable eligible employees to save for retirement and to allow the Employer which has adopted the Plan to set aside funds for the retirement needs of their eligible Participants. In addition to retirement benefits, the Plan provides certain benefits in the event of death, disability, or other termination of employment. The Plan is for the exclusive benefit of eligible Participants and their Beneficiaries.

Contributions

Participants may make pretax contributions ranging from 1 percent to 30 percent of their compensation, as described in the Plan document, as elective contributions up to the limits prescribed by the Internal Revenue Service ("IRS"), $17,500 for the Plan year ended December 31, 2014. The Plan also allows for participants who are 50 years old or older to make catch-up contributions in the amount of $5,500 for the Plan year ended December 31, 2014. Participants can change their contribution percentages at any time and those changes will be effective as soon as administratively feasible. Additional contributions ranging from 1 percent to 100 percent of their eligible compensation can be made by completing a special election form. The Employer may refuse to accept any or all of a participant's additional contributions if the contributions will have an adverse effect on the Plan's annual nondiscrimination tests. Elective deferral contributions are 100 percent vested and nonforfeitable.

The Plan provides for safe harbor matching contributions. The Employer's safe harbor matches 100 percent of the first 3 percent of salary deferrals and 50 percent of the subsequent 2 percent of salary deferrals of eligible compensation for each payroll period for the Plan year ended December 31, 2014. The Employer may also make discretionary non-elective contributions to the Plan, as defined by the Plan, in an amount that they determine each Plan year that are subject to the below vesting schedule.

Eligibility

Employees are eligible to participate in the Plan the first full day of the first full payroll period that begins after their date of hire if they are age 18 or older.

NOTE 1 - DESCRIPTION OF THE PLAN *(CONTINUED)*

Participant Accounts

Each participant's account is credited with the participant's contributions, Employer's contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always 100 percent vested in their rollover contributions, employee pretax contributions, safe harbor matching contributions, supplemental nonelective Employer contributions and related earnings. However, employee's fixed nonelective contributions and discretionary nonelective Employer contributions, if any, and related earnings will vest according to the following schedule:

Years of Service	Vesting %
Less than 1 year of service	0
1 year of service	33
2 years of service	66
3 years of service	100

Refer to the Plan Document for additional vesting schedules.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The interest rate for new loans, determined quarterly, is set at 2 percent above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions in each pay period.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $52,996 and $27,724, respectively. These accounts are expected to be used to reduce future Employer contributions and administrative expenses. During 2014, no forfeitures were utilized to reduce future Employer contributions or administrative expenses.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on the contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credits losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintain the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net (depreciation) in fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(CONTINUED)*

Subsequent Events

The Plan has monitored and evaluated any subsequent events for footnote disclosures or adjustments required in its financial statements for the year ended December 31, 2014 through October 12, 2015, the date on which financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31,:

	2014	(Compliled) 2013
Fidelity Advisor Freedom 2030 I	$ 1,071,885	$ 931,948
Fidelity Advisor Freedom 2035 I	1,050,110	*

Fidelity Advisor Freedom 2020 I	800,363	663,145
Fidelity Advisor Lev Co Stock I	693,653	690,972
Fidelity Advisor Freedom 2025 I	668,178	588,066
Fidelity Advisor Freedom 2010 I	*	390,334

* Balance represents less than 5% of the total Plan assets as of December 31, 2014 or 2013, therefore the balance is not shown.

During 2014, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $68,547.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

NOTE 4 - FAIR VALUE MEASUREMENTS *(CONTINUED)*

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Fund (Benefit-Responsive Investment Contract): Valued at fair value by the investment company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan evaluated a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS *(CONTINUED)*

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets:

	Benefit-Responsive Investment Contract
Balance, January 1, 2014	$ 635,367
Interest income	8,234
Unrealized gains relating to instruments still held at the reporting date	3,771
Purchases, sales, issuances, transfers, and settlements (net)	262,315
Balance, December 31, 2014	$ 909,687

Unrealized gains/(losses) from the benefit-responsive investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE 5 - BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan offers a fully benefit-responsive guaranteed investment contract (stable value fund) which carries a benefit-responsiveness feature that allows Plan participants to make exchanges or request benefit payments at contract value. Fidelity Management Trust Company ("Fidelity") maintains the contributions to the investment in a common/collective trust. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value investment issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Fidelity credited the stable value account with 1.06% annualized during the year ended December 31, 2014.

As described in Note 2, because the stable value fund has a benefit-responsiveness feature, contract value is the relevant measurement attributable for that portion of the net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including partial or complete Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable.

The stable value fund does not permit the investment company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their Employer contributions.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated May 26, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and is tax-exempt.

NOTE 8 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity. Fidelity is the trustee of the Plan's assets therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments. Fidelity performs certain administrative, advisory and recordkeeping services for the Plan. Morgan Stanley provides investment advisor and accounting services for the Plan and is considered a party-in-interest. For the year ended December 31, 2014, Fidelity and Morgan Stanley were paid $3,200 and $5,960, respectively, for these services.

The Plan provides for loans to participants. Transactions in such investments qualify as party-in-interest transactions as defined by ERISA.

NOTE 9 - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the Plan's trustee, Fidelity Management Trust Company ("Fidelity") has certified the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

Page 3 – Statements of Net Assets Available for Benefits – Total investments, at fair value
Page 4 – Statement of Changes in Net Assets Available for Benefits – Net investment income
Page 14 – Schedule of Assets (Held at End of Year)
All purchase and sales activity

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 11 - RECONCILIATION OF PLAN FINANCIAL STATEMENTS TO FORM 5500

The Annual Return/Report of Employee Benefit Plan ("Form 5500") is prepared on the modified cash basis. Accordingly, certain balances included on Schedule H (Part I and II) of Form 5500 differ from those included in the financial statements.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31,:

Net assets available for benefits per Form 5500	$ 10,567,954	$ 7,688,838

The following is a reconciliation of net increase in assets available for benefits per the financial statements to the Form 5500 for the year ended December 31:
