Fresh Mark, Inc.
Salaried Employees' Pension Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of the Plan

The Plan is a noncontributory defined benefit plan established for employees of Fresh Mark, Inc. (Company and Plan Sponsor) who are not covered by a collective bargaining agreement, have attained age 21, and have completed one year of credited service. Effective January 1, 2007, the Plan was amended to preclude any employee hired by the Company on or after that date from participating in the Plan. Effective June 1, 2007, the Plan was further amended to preclude the participation of an employee transferred from a division not previously eligible for participating in the Plan who would have otherwise become eligible upon such transfer.

The Company has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's current years' service cost and the initial past service cost plus interest over a period of 30 years. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for 2014 and 2013.

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Information about the plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the *Summary Plan Description*. Copies of this document are available from the plan administrator.

Investment Valuation

At December 31, 2014 and 2013, the investments of the Fresh Mark, Inc. Salaried Employees' Pension Plan (the Plan) were collectively held in the Fresh Mark, Inc. Salaried Employees' Pension Plan Trust, sponsored by the trustee. Investments held by the Plan are stated at fair value. Refer to Note 5 for further discussion of fair value measurements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on each individual's average total compensation during the highest five consecutive years of the ten years preceding retirement. The accumulated plan benefits for active employees are based on their average total compensation during the highest five consecutive years of the ten years preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements of the Plan are prepared using the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Plan Amendment

Effective January 1, 2013, the Plan was amended to define the criteria for participants to be eligible to receive a single lump-sum payment option. Participants eligible for normal, early or disability retirement benefit, a participant eligible for a deferred vested pension, or a Spouse who is entitled to a benefit under the Plan are eligible to elect a lump-sum payment option upon commencement of benefits. There was approximately \$507,000 in lump-sum payments paid during 2014 and \$806,000 paid during 2013 specific to the Salaried Employees' Pension Plan.

New Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that

2. Significant Accounting Policies (continued)

represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management is currently evaluating the effect that the provisions of Part II of ASU 2015-12 will have on the Plan's financial statements. Part I and Part III are not applicable to the Plan.

Subsequent Events

Management evaluated all activity of the Plan through October 13, 2015, the date the financial statements were available for issuance.

3. Accumulated Plan Benefits

The Plan's actuary, Towers Watson, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Salaried Employees' Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The accumulated plan benefit information as of December 31, 2013, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 11,165,519
Other participants	18,434,969
Total vested benefits	<u>29,600,488</u>
Nonvested benefits	<u>309,572</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 29,910,060</u></u>

The changes in accumulated plan benefits for the year ended December 31, 2013, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 27,260,339
Increase (decrease) during the year attributed to:	
Benefits accumulated	1,133,800
Actuarial losses	37,588
Increase for interest due to the decrease in the discount period	1,857,023
Assumption changes	1,386,678
Benefits paid	<u>(1,765,368)</u>
Net increase	<u>2,649,721</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 29,910,060</u></u>

Fresh Mark, Inc.
Salaried Employees' Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The significant assumptions underlying the actuarial computations are as follows:

Retirement rate	Various rates ranging from 1% at age 55 to 100% at age 65
Rate of return on investments	6.75% (6.75% in the prior year)
Mortality	RP-2014 Mortality Table for sex-distinct rates for employees and annuitants, projected generationally with Scale MP-2014

The mortality rate assumption for the Plan has been changed from the RP-2000 Combined Mortality Table for males and females projected to 2020 to the RP-2014 Mortality Table for sex-distinct rate for employees and annuitants, projected generationally with Scale MP-2014.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments and investment income for the years ended December 31, 2014 and 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by JPMorgan Chase Bank, N.A., the trustee.

4. Investments (continued)

The Plan's investments are held by the trustee. The Plan's investments (including investments bought, sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	Year Ended December 31	
	2014	2013
Common stocks	\$ (38,265)	\$ 1,032,713
Mutual funds	<u>357,611</u>	<u>1,244,332</u>
	<u>\$ 319,346</u>	<u>\$ 2,277,045</u>

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2014	2013
JP Morgan Liquid Assets Money Market Fund	\$ 178,689(a)	\$ 2,099,835

(a) Investment is less than 5%

5. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the Plan at the measurement date for identical assets or liabilities.

Fresh Mark, Inc.
Salaried Employees' Pension Plan

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds – Valued at quoted market prices, which represent the net asset values of the shares held by the Plan on the last business day of the plan year.

Money market fund – Valued at net asset value of units held by the Plan at year-end.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Fresh Mark, Inc.
Salaried Employees' Pension Plan

Notes to Financial Statements (continued)

6. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administration believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. Also, certain legal and accounting fees and certain administrative expenses relating to the maintenance of participant eligibility records were paid by the Company. Fees paid during the year for other services rendered by parties in interest were based on customary and reasonable rates for such services. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

Fresh Mark, Inc.

Plan

Fresh Mark, Inc. Salaried Employees' Pension Plan

Effective Date and Most Recent Amendment

August 1, 1988 as merger of Superior's Brand Meats, Inc. Salaried Plan (originally effective date January 1, 1971) and Sugardale Foods Inc. Salaried Plan (originally effective January 1, 1961), and Amended and Restated effective January 1, 2010. Further, the plan was amended effective July 31, 2012 to include additional lump sum provisions. The plan was further amended effective April 1, 2013.

Plan Year

The twelve-month period ending December 31st.

Coverage and Participation

Each salaried employee and hourly-paid employee hired prior to January 1, 2007, and not represented by a union, working or expected to work 1,000 or more hours a year, becomes a participant on the first January 1 or July 1 following attainment of age 21 and one year of service. Effective December 30, 1993, certain designated active Carriage Hill employees were no longer covered under this Plan.

Credited Service

One year is credited for each year of employment after January 1, 1976 computed on an elapsed time basis; service prior to January 1, 1976 is computed based upon the provisions of the Plan then in effect.

SCHEDULE SB ATTACHMENTS

Final Average Compensation/Salary

1/60th of the average of the highest 5 consecutive calendar years of aggregate compensation received during the 10 years prior to retirement or termination. Compensation is total compensation for services inclusive of any bonuses, commissions, overtime pay, and premiums for insurance protection which are treated as taxable income to the Participant for the year. Compensation is limited to \$260,000 effective January 1, 2014, and is subject to future indexing.

Normal Retirement Benefit

Eligible at age 65.

The normal retirement benefit, if paid on a straight-life basis, is equal to 45% of Final Average Monthly Compensation less 50% of the Primary Insurance Amount, with such difference proportionately reduced for less than 30 years of Credited Service.

Primary Insurance Amount

The monthly benefit under the Federal Social Security Act in effect at retirement or termination (but not beyond the Normal Retirement Date) assuming the Participant continues to earn compensation at the rate in effect at the time of his termination for the period between his date of retirement or termination and his attainment of age 65.

Accrued Benefits

The accrued pension is calculated on the basis of Credited Service projected to the Participant's normal retirement date and Final Average Compensation at the date of determination (such as early retirement or termination) and then multiplying by a ratio of Credited Service at termination to Credited Service at the normal retirement date.

Early Retirement Benefit

Eligible at age 55 with 10 years of Credited Service.

The early retirement benefit is the Accrued Benefit payable at age 65 or, alternatively, a reduced pension payable immediately. Below is an excerpt of the factors:

Age at Benefit Commencement	Factor
55	0.50
60	0.70
62	0.82

SCHEDULE SB ATTACHMENTS

Disability Benefit

Eligible upon total and permanent disability after 10 years of Credited Service.

After a 26-week waiting period, the disability retirement benefit is the Accrued Benefit at disability without actuarial reduction for early commencement of benefits. Payments made prior to age 65 are reduced for benefits receivable under Workmen's Compensation, Company provided group insurance plans or any other Federal, state or local legislation (excluding Social Security).

Vested Benefits Upon Termination of Service

Eligible at any age and 5 years of Credited Service.

The deferred vested termination is the Accrued Benefit payable at age 65 or, alternatively, if the employee has at least 10 years of Credited Service, an actuarially reduced pension payable as early as age 55.

Pre-Retirement Spouse's Benefit

Eligible upon death of an active or terminated vested Participant after completion of 5 years of Credited Service.

The surviving spouse will receive the benefit which would have been paid if the Participant had retired on the day prior to his death and had elected a 50% Joint and Survivor Annuity. If the employee dies prior to meeting the eligibility requirements for Normal or Early Retirement, benefits to the spouse will be deferred until the earliest date the decedent would have been so eligible.

One-Time Lump Sum Window

Former employees were given the option through a one-time window to receive their accrued benefit as a single lump sum payment with a payout date of November 1, 2012. The value of their benefit had to be \$250,000 or less.

Optional Forms of Retirement Income in Lieu of Normal Form

The amount of pension as determined according to the applicable formula for retirement benefits is payable on a straight-life annuity basis. A Participant retiring under the provisions for Normal or Early Retirement may elect to receive his benefit on a straight-life basis or on an actuarially equivalent 50% Joint and Survivor basis, 75%, 100% Joint and Survivor basis or 10 or 20 year certain and life basis. For participants whose benefit has a present value of \$280,000, the benefit is payable as a lump sum if paid within six months following termination of employment.

Unless otherwise elected, any benefit payable under the Plan shall be paid:

- (1) on a reduced 50% Joint and Survivor annuity basis, if the Participant has been married at least one year; or
- (2) on a straight-life annuity basis otherwise.
