Notes to Financial Statements

December 31, 2014 and 2013

Plan Description

The following description of Chemcote, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering all full-time employees of Chemcote, Inc., Cizar Corporation and Chemcote Roofing Company (a related employer under common ownership, collectively the "Company"), who have one year of service, and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may authorize payroll deductions up to 100% of compensation to the IRS limitation, as before-tax contributions. Participants who have attained age 50, before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make a discretionary employer matching contribution determined by management. The Company elected to make profit sharing contributions and employer matching contributions of \$213,342 and \$250,000 for 2014 and 2013, respectively.

The Company is required to make prevailing wage contributions for participants that work on construction projects at which prevailing wage law services are provided. The contribution is made at the hourly contribution rate required by law. The Company made \$172,281 and \$304,683 of prevailing wage contributions during 2014 and 2013, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, (c) forfeitures and (d) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Description (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service and is subject to the following vesting percentage provisions:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Contributions made under the prevailing wage law will be 100% vested when such contributions are made.

Investment Options

A participant may direct contributions in any of the investment funds offered by the Plan. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their accounts a maximum amount equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25%. Principal and interest is paid through payroll deductions.

Payment of Benefits

A participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account upon termination of service due to separation of service, death, disability, retirement or other reasons. Participants may request payment as soon as administratively feasible 12 months after termination of employment.

Plan Description (continued)

Forfeited Accounts

Accounts forfeited by participants who terminate service prior to becoming fully vested are used to reduce the employer's matching contribution, or are reallocated to participants based upon their account balances. Any remaining amounts may be used to pay administrative expenses of the Plan. There were \$289 and \$2,983 forfeited for 2014 and 2013, respectively.

Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Fair Value footnote for discussion of fair value measurements.

Net appreciation in fair value of investments is reflected in the statements of changes in net assets available for benefits and includes realized gains and losses on investments bought and sold and the change in appreciation from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan agreement.

Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan evaluated subsequent events through the date the financial statements were issued, October 7, 2015. Effective July 2015 the Company elected to change Custodians from John Hancock Life Insurance Company to Fifth Third Bank. The Plan experienced a blackout period during June 2015 as result of the Custodian change. There were no other subsequent events that required recognition or disclosure.

Recent Accounting Pronouncement

In July 2015, the FASB released ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965)*. This amendment removes the requirement to report fully-benefit responsive investment contracts at fair value with an adjustment to contract value. Under the amendment, fully-benefit responsive investment contracts are measured, presented, and disclosed only at contract value. This amendment is effective for fiscal years beginning after December 15, 2015. Early application is permitted. The Plan does not expect this amendment to have a material impact on the financial statements.

Fair Value Measurements

ASC 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

CHEMCOTE, INC.
401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013

Money market funds and mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the unit value of shares of an insurance company held by the Plan at year-end. The unit value is based on the fair value of the underlying investments held by the pooled separate account. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the account, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Custodian. Investments that represent 5% or more of the Plan's net assets as of December 31, 2014 and 2013 are separately identified.

Other	583,355	531,063
	<u>\$ 4,183,493</u>	<u>\$ 3,691,830</u>

The Custodian also certified to the completeness and accuracy of the following related to the aforementioned investments for the years ending December 31, 2014 and 2013: Net appreciation in fair value of investments \$200,339 and \$446,295; dividends and interest of \$7,317 and \$4,145, respectively.

Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by John Hancock. John Hancock is the Custodian as defined by the Plan and qualifies as a party-in-interest.

Investments

The following represents investments 5% or more of the Plan's net assets for the years ended December 31, 2014 and 2013:

	2014	2013
Self-Directed Brokerage Account	\$ 184,136	\$ 186,923

*The value of this investment did not represent 5% or more of the Plan's net assets as of the specified date.

401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Investments (continued)

The UBS investments also included net (depreciation)/appreciation of (\$3,511) and \$14,042 and dividends and interest of \$725 and \$7,300 for the years ending December 31, 2014 and 2013, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Tax Status

The Company adopted a prototype standardized profit sharing plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2014 statement of net assets available for benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements.

CHEMCOTE, INC.
401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Corrective Contribution

The Plan experienced an operational failure in 2014. The Company did not contribute employee withholdings for one pay date during the year. The financial statements reflect a receivable from the Company for the resolution of the operational failure. The Company is self-correcting the operational failure under the IRS self-correction guidelines. The Company believes that the matters identified for remediation would not cause the Plan to be disqualified by the IRS; therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan recorded a receivable in the amount of \$1,441 for the untimely remittance failure as of December 31, 2014, to correct the deficiency.

Plan Amendment

During 2014, the Plan was amended to provide a minimum dollar value of loans and to limit the maximum number of loans an employee can have outstanding at any one time.
