Pension Plan for Eaton Employees in Puerto Rico

1 Description of Plan

The following description of The Pension Plan for Eaton Employees in Puerto Rico (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan descriptions, which are available from the Company's Human Resources Department upon request, for a complete description of the Plan's provisions.

General:

The Plan, which began December 1, 2010, is a noncontributory defined benefit plan that covers substantially all hourly and salary employees of Cutler-Hammer Electrical Company (the "Company" or the "Plan Sponsor"), a wholly owned subsidiary of Eaton Corporation plc ("Eaton"). The Plan provides for retirement and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company elected to use the transitional relief provision of Revenue Ruling 2008-40. The Plan Sponsor established the Plan effective December 1, 2010. All assets and liabilities were assumed by the Plan as of December 1, 2010, in accordance with Section 414(l) of the Code. As of December 1, 2010, Plan participants will accrue benefits solely under the Plan. Prior to December 1, 2010, the Plan's participants accrued benefits under prior plans. All credited service earned under prior plans was carried over to the new Plan.

The Plan has been amended to exclude from participation certain employees who are classified on and after April 1, 2013 as new hires, rehires and/or certain transfers.

Funding Policy:

The Company makes contributions in amounts sufficient to maintain the Plan on a sound actuarial basis. The Company's policy is to fund at least the ERISA minimum funding requirement for the year. The Plan has met the ERISA minimum funding requirements. The Company has the right to amend and/or terminate the Plan subject to the provisions of ERISA.

Pension Benefits:

Participants are vested in their benefits earned under various methods defined in the Plan. Normal retirement age is 65. Participants may be entitled to early retirement payments based on the Plan document. Forms of payment include lump sum options, and various annuity options depending on whether the participant has a spouse and what type of joint survivor option the participant chooses.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation:

Plan investments are reported at fair value. Fixed income and index mutual funds are traded on a national securities exchange and are valued at the closing price on the last business day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for hourly employees under the Plan are based on the greater of career pensionable compensation multiplied by a predetermined percentage or years of credited service multiplied by a monthly factor. The benefits for salaried employees in the traditional plan are based on final average pay multiplied by a predetermined percentage and the employees' years of credited service. The benefits for employees in cash balance plans are based on the current value of the account balance.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

2 Summary of Significant Accounting Policies, Continued

Administrative Fees:

The Company elected to pay certain administrative costs during 2014 and 2013, on behalf of the Plan. The administrative costs paid by the Plan are accounted for in setting the assumed rate of return on investments.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC). In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the priorities mandated by ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided for at all. A full description of the defined benefit plan termination priorities is available in the Plan document.

Risks and Uncertainties:

The Plan's investments include investments in registered investment companies with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTES TO FINANCIAL STATEMENTS

2 Summary of Significant Accounting Policies, Continued

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 9, 2015, which is the date the financial statements were available to be issued.

3 Tax Status

The Plan has received a determination letter from the Puerto Rico Department of the Treasury dated January 27, 2014, stating that the Plan meets the requirements of Section 1165(a) of the Puerto Rico Internal Revenue Code of 1994.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014 there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

NOTES TO FINANCIAL STATEMENTS

Pension Plan for Eaton Employees in Puerto Rico

4 Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the beginning of the Plan year is as follows:

	<u>January 1, 2014</u>
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 15,853,894
Other participants	<u>30,578,360</u>
	46,432,254
Non-vested benefits	<u>1,389,853</u>
Total	<u>\$ 47,822,107</u>

The changes in actuarial present value of accumulated Plan benefits are as follows:

Balance as of January 1, 2013	\$ 43,232,369
Benefits accumulated	2,137,645
Interest	3,494,882
Benefits paid	(2,477,054)
Assumption changes	<u>1,434,265</u>
Balance as of January 1, 2014	<u>\$ 47,822,107</u>

NOTES TO FINANCIAL STATEMENTS

Pension Plan for Eaton Employees in Puerto Rico

4 Accumulated Plan Benefits, Continued

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Projected unit credit
Assumed rate of return on investments	8.00%
Salary increase	Age-graded scale of 6% to 1% for hourly participants and 8% to 4% for salaried participants (2014); 3.5% (2013)

In addition, the following changes in assumptions were made since the last valuation:

Mortality basis	The mortality tables have been changed for healthy participants from the RP-2000 Combined Healthy Mortality Tables for males and females projected to 2015 using Scale AA to the RP-2000 Combined Healthy Mortality Tables for males and females projected to 5 years past the valuation date using Scale AA.
Retirement and employee turnover	Assumed retirement age and termination rates were updated to better reflect actual plan experience based on a study performed during 2013 of actual retirements and terminations from 2010 through 2012.
Interest rates	The 3 segment rates have been updated to reflect the MAP-21 interest rate corridors as revised by the Highway and Transportation Funding Act of 2014 (HATFA).

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

5 Party-in-Interest Transactions

During 2014 and 2013, internal costs attributed to certain accounting and legal services and external fees for certain professional services were paid by the Company on behalf of the Plan, while the Plan paid fees for PBGC premiums, trustee, actuarial, investment management and other professional services.

6 Fair Value Measurements

ASC 820, which applies to financial assets and liabilities, establishes a framework for measuring fair value, establishes a fair value hierarchy based on inputs used to measure fair value, and expands disclosure about fair value measurements. Adopting this statement has not had an effect on the Plan's net assets available for benefits or changes in those net assets.

In accordance with ASC 820, the Plan categorized our financial instruments, based on the degree of subjectivity inherent in the valuation technique, into a fair value hierarchy of three levels, as follows:

- Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 - inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies : Valued at the net asset value (NAV) of shares held by the Plan at year end.

Pay-Based Credits

The basic cash balance account is accumulated with interest credits and pay credits. The pay-based credits are equal to a percent of earnings during each month. The percent of a participant's pay that the plan will credit to the cash balance account is based upon the number of age/service points accumulated up to that point. The percentage is based on the following table:

Pay Credits	
Age/Service Points	Percent of Pay to be Credited to the Account
Less than 50	5.00%
50 – 59	6.00%
60 – 69	7.00%

Index Credits

Index Credits are applicable for active participants who were former Appendix B participants who elected the EPPA during the choice process. Calculation of Lump Sum

Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) and current year 417(e)(3) applicable mortality without projection.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of all participants are assumed to be married, and male spouses are assumed to be three (3) years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Salaried participants: Plan compensation is the expected base pay rate for the valuation year plus a three-year average of executive incentive compensation (EIC) plus a three-year average of variable non-EIC bonus compensation.

Hourly participants: Plan compensation is actual gross earnings during the prior year, provided by the employer.

Asset Method: Average Value

Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Participant Data

Participant data as of the valuation date was supplied by the employer.

Benefits not Included in Valuation

Actual early retirement supplements for Hourly participants have not been valued. The total amount of early retirement supplements that has been paid to actual retirees over the last several years has been deemed immaterial.
