1. DESCRIPTION OF PLAN:

The following description of the Formica Corporation 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Formica Corporation (the Company or Plan Sponsor). Employees become eligible to participate on the first day of the month following the completion of thirty days of credited service, as defined by the Plan. The Plan allows for employee deferrals before and after tax, employer matching contributions, and discretionary employer profit-sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Benefits Committee acts as the plan administrator and Fidelity Management Trust Company is the trustee as appointed by the board of directors of the Company.

Contributions

Employees may contribute up to 50% of their compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified plans or IRA's if the rollover is an eligible rollover distribution, as defined in the Plan. The Plan provides for automatic enrollment of eligible employees at a 3% deferral rate. Employees may opt out of the automatic enrollment at any time. The Company matches 50% of the first 6% of employee contributions. Additionally, the Company may, but is not required to, make discretionary contributions to the Plan. This contribution is allocated in the ratio that eligible participants' compensation bears to the total compensation paid to all eligible participants in the plan year. To be eligible, a participant must not be covered by a collective bargaining agreement that does not provide for coverage under the Plan and must be employed by the Company on the last day of the plan year. Compliance with the IRS limitations is monitored by the plan administrator. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant accounts

The participants' accounts are credited with the participants' contributions and Company matching contributions, as well as allocations of Company discretionary contributions and earnings (losses) on the participants' selected investments. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions or to pay administrative expenses of the Plan, as determined by the Company.

Vesting

Participants are immediately vested in their contributions, employer matching contributions, and any discretionary employer profit-sharing contributions, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance, excluding discretionary profit-sharing contributions. Repayment terms range from twelve months to five years (unless for the purchase of a primary residence for which a maximum of 15 years is permitted) and the entire balance may be due upon the participant's termination.

of employment with the Company. The notes receivable are secured by the balance in the participant's account. The interest rate is determined by the plan administrator at the date the note is originated. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or normal retirement, a participant may elect to receive their vested account balance either as a lump-sum payment or in installments over a fixed period of time not to exceed the participant's life expectancy or the joint life expectancy of the participant and the beneficiary. Additionally, prior to termination from employment, a participant may withdraw all or a portion of his vested account balance via financial hardship withdrawal, if certain requirements are satisfied. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump sum distribution.

Forfeited accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$44,486 and \$32,196, respectively. These accounts will be used to reduce future employer contributions or to pay Plan expenses, as determined by the Company.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America. Contributions, interest and dividend income, benefit payments, and administrative expenses are recognized at the time such amounts are received or paid rather than when earned or incurred.

Use of estimates

The preparation of financial statements using the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of investments and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See further discussion of fair value in Note 5.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded at the time such amounts are received. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. Delinquent notes receivable from participants are recorded as a benefit payment based upon the terms of the plan document.

Expenses

The Plan is not charged for administrative services performed on its behalf by the Plan Sponsor. Certain administrative expenses of the Plan are paid by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through October 9, 2015, which is the date the financial statements were available to be issued.

3. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

4. INVESTMENTS:

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	<u>2014</u>	<u>2013</u>
Fidelity Blue Chip Growth K	\$ 8,047,470	7,732,673
Fidelity Retirement Money Market	7,325,358	7,304,578
Fidelity Contrafund K	4,081,919	4,371,724
Fidelity OTC Portfolio	2,845,324	2,642,888
Oakmark International I	2,636,457	3,058,803
Fidelity Freedom 2030 K	2,349,878	*
Fidelity Freedom 2020 K	2,316,459	*

* Indicates balance at year end is less than 5%.

During 2014, the Plan's investments in registered investment companies, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by \$34,958.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Registered investment companies: Valued at the daily closing price as reported by the registered investment companies. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

Fidelity Management Trust Company is the trustee of the Plan. The Plan's investments include shares in funds managed by Fidelity Investments, an affiliate of the plan trustee. Therefore, these transactions qualify as party-in-interest transactions. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments and related interest, and dividend income and net appreciation in fair value of investments presented in the financial statements (modified cash basis), and the supplemental schedule of assets (held at end of year) are based on information certified as complete and accurate by the trustee of the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, and were not subjected to any auditing procedures performed by the independent auditors.

8. INCOME TAX STATUS:

The Plan has received a determination letter from the IRS dated July 8, 2010 stating that the Plan and the related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code, and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. PLAN TERMINATION:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

10. PROHIBITED TRANSACTIONS:

During 2014 and 2013, the Company failed to remit to the plan's trustee certain employee contributions within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the Company intends to make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delay.
