NOTE 1 - DESCRIPTION OF PLAN

The following description of the TexelTek, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan, established September 1, 2008, was a defined contribution plan sponsored by TexelTek, Inc. (the "Company" or the "Plan Sponsor").

Plan Merger and Termination - The Company was acquired by TASC, Inc. on June 3, 2011. All of the assets from the Plan were transferred into the TASC, Inc. Savings Plan in January 2014 and the Plan was terminated. At the time of the termination, all participants became fully vested in their benefits under the Plan. TASC, Inc. Savings Plan is a defined contribution plan established January 1, 2010 covering all full-time and certain part-time employees of TASC Partners LP.

General - The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Automatic Data Processing, Inc. ("ADP") served as the Plan's record keeper and State Street Bank and Trust Company (the "Trustee") served as the Plan's asset custodian.

Eligibility - The Plan covered substantially all full-time employees of the Company who were at least 21 years of age, with the exception of employees covered by a collective bargaining agreement, nonresidents with no earned income from within the United States, leased employees, or residents of Puerto Rico. Employees must also have completed three months of service to be eligible to participate in the Plan.

Contributions - Participants could elect to contribute up to 90 percent of their annual plan compensation, as defined in the plan document, subject to the Internal Revenue Code ("IRC") annual limits. The Company made safe harbor matching contributions to the Plan equal to 100 percent of each employee's contributions up to 6 percent of participants' compensation. There were no employee and matching contributions made to the Plan for the period ended January 31, 2014. The Company also could make discretionary nonelective contributions as determined annually by the Board of Directors. No discretionary nonelective contributions were made in 2014.

Participant Accounts - Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contributions, (b) plan earnings (losses), and (c) administrative expenses. Allocations were made pursuant to the Plan's provisions. Participants directed the investment of their individual accounts among selected investment options offered by the Plan.

Notes Receivable from Participants - Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. A participant was allowed to have up to one loan outstanding at a time. The loans were secured by the balance in the participant's account, and had interest at a rate equal to the Wall Street Journal prime rate at the loan origination date plus 1 percent. Principal and interest were paid ratably through payroll deductions. As of December 31, 2013, loans outstanding totaled \$44,429. Interest rates on outstanding loans as of December 31, 2013, ranged from 4.25 percent to 6.00 percent.

Vesting - Participants were vested immediately in their contributions, rollovers, and any safe harbor matching contributions plus (minus) actual earnings (losses) thereon. After one year of qualified service, a participant became 25 percent vested in discretionary nonelective contributions and vested an additional 25 percent per year until fully vested after four years.

Forfeitures - The Company could use forfeitures of non-vested participant account balances to reduce future matching contributions or pay administrative expenses of the Plan.

Payment of Benefits - Benefits could be paid to the participant or beneficiary upon death, disability, hardship, attainment of age 59½, retirement, or termination of employment, as defined in the plan agreement. The total vested portion of a participant's account balance was distributed in the form of a lump-sum payment or installments. A participant could also elect to transfer the vested interest in his or her account to another qualified plan. Benefits were recorded when paid.

Notes to the Financial Statements

As of January 31, 2014 and December 31, 2013 and for the Period January 1, 2014 through January 31, 2014

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Administrative Expenses - Costs to administer the Plan were paid by the Plan or the Plan Sponsor as provided in the plan document. If paid by the Plan, the expenses were allocated proportionately among the accounts of all participants or to individual account balances, depending upon the type of expense.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates - The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for details on inputs, valuation techniques, and fair value measurement levels within the fair value hierarchy for each investment.

Net appreciation in fair value of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year. The plan invested in common collective trust funds that determine their fair value using the net asset value ("NAV") of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and not separately reported. Consequently, management fees and operating expenses are reflected as a reduction of investment returns for these investments.

Notes Receivable from Participants - Participant loans are classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued by unpaid interest.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

Notes to the Financial Statements

As of January 31, 2014 and December 31, 2013 and for the Period January 1, 2014 through January 31, 2014

NOTE 3 - FAIR VALUE MEASUREMENTS - CONTINUED

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or unobservable inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth, by level within the fair value hierarchy, a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2013:

	Level 1	Level 2	Level 3	Total

NOTE 3 - FAIR VALUE MEASUREMENTS - CONTINUED

The following is a description of the methodologies used in valuing investments at fair value.

Mutual Funds - The fair values of the Plan's investments in mutual funds are based on quoted market prices of the shares held by the Plan at year-end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

Common Collective Trust Funds - Valued at the unit value established for each fund as of year-end. Common collective trust funds are stated at fair value as determined by the issuer of the common collective trust funds based on the fair value of the underlying investments. Common collective trust funds are classified as having used Level 2 inputs.

The Plan invested in SSgA Cash Series U.S. Government Fund (the "U.S. Government Fund"), a collective trust fund sponsored by the Trustee. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the U.S. Government Fund's constant NAV of \$1 per unit. Distribution to the U.S. Government Fund's unit holders is declared daily from the net investment income and automatically reinvested in the U.S. Government Fund on a monthly basis, when paid. It is the policy of the U.S. Government Fund to use its best efforts to maintain a stable net asset value of \$1 per unit; although, there is no guarantee that the U.S. Government Fund will be able to maintain this value.

In seeking to accomplish its investment objective, the U.S. Government Fund shall invest substantially all of its investable assets in the State Street U.S. Government Money Market Portfolio (the "Portfolio"), a money market fund managed by an affiliate of the Trustee and registered with the Securities and Exchange Commission as part of the State Street Master Funds. The investment objective and policies of the Portfolio are substantially similar to those of the U.S. Government Fund. The value of the U.S. Government Fund's investment in the Portfolio reflects the U.S. Government Fund's proportionate interest in the net assets of the Portfolio. The performance of the U.S. Government Fund is directly affected by the performance of the Portfolio.

The Plan also invested in the SSgA S&P Mid Cap Index Non-Lending Series Fund (the "Mid Cap Fund"), a collective trust fund sponsored by the Trustee that invests in common stock, guaranteed investment contracts, collective investment funds, and futures contracts. Contributions were maintained in an account with the Trustee. The account was credited with earnings on the investment and charged for plan withdrawals and administrative expenses.

The objective of the Mid Cap Fund is to protect principal while providing a higher rate of return than shorter maturity investments. There are no reserves against contract value for credit risk of the Mid Cap Fund's issuer or otherwise. In the normal course of business, the Mid Cap Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the contracting party to the transaction to perform (credit risk). The Mid Cap Fund may be exposed to additional credit risk that an institution or other entity with which the Mid Cap Fund has unsettled or open transactions will default. Additionally, if a counterparty becomes insolvent or otherwise fails to perform its obligations, the Mid Cap Fund may experience significant delays in obtaining any recovery in an insolvency, bankruptcy, or other reorganization proceeding.

The Plan Sponsor is responsible for the determination of fair value. Accordingly, it performs a periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan Sponsor has not historically adjusted the prices obtained from the pricing services. The investments that calculate fair value based on NAV have no unfunded commitment, daily redemption frequency, and no significant redemption notice period. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements

As of January 31, 2014 and December 31, 2013 and for the Period January 1, 2014 through January 31, 2014

NOTE 4 - INVESTMENT INFORMATION CERTIFIED BY THE TRUSTEE - UNAUDITED

The Plan's investments are held by the Trustee as of January 31, 2014 and December 31, 2013, and for the period January 1, 2014 through January 31, 2014. All investment assets, transactions, income, and notes receivable from participants, as presented in the accompanying financial statements, were certified by the Trustee to be complete and accurate as of January 31, 2014 and December 31, 2013 and for the period January 1, 2014 through January 31, 2014.

The fair value of individual investments that represent 5 percent or more of the Plan's net assets as of January 31, 2014 and December 31, 2013 is as follows:

	2014	2013
Alger Capital Appreciation Institutional Fund - I	\$ -	\$ 364,784 *
PIMCO Total Return Fund - A	-	307,941
American Century Livestrong 2025 - A	-	432,823 *
American Century Livestrong 2035 - A	-	851,311 *
American Century Livestrong 2045 - A	-	1,672,495 *
RS Large Cap Alpha Fund - A	-	333,088 *

* Represents 5 percent or more of the net assets available for benefits

During the period ended January 31, 2014, the Plan's investments (including gains and losses on investments bought, sold, and held during the period) depreciated as follows:

Common collective trust funds	\$ (3,298)
Mutual funds	(105,253)
	\$ (108,551)

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Certain investments were managed by an affiliate of the Trustee. Transactions involving these investments qualify as party-in-interest transactions, which were exempt from the prohibited transaction rules of ERISA.

NOTE 6 - TAX STATUS

The Plan was organized as a prototype plan and was intended to satisfy the tax qualification requirements under Section 401(a) of the IRC; therefore, the funds of the Plan were intended to be exempt from federal income taxes under the applicable sections of the IRC. On March 31, 2008, ADP received a favorable opinion letter from the Internal Revenue Service for its prototype plan. The Plan has been amended since the date of this opinion letter; however, the plan administrator and management believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

TEXELTEK, INC. 401(K) PLAN

Notes to the Financial Statements

As of January 31, 2014 and December 31, 2013 and for the Period January 1, 2014 through January 31, 2014

NOTE 6 - TAX STATUS - CONTINUED

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 31, 2014 and December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 - SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events through the report date of these financial statements, which is the date the accompanying financial statements were available to be issued.
