Fluor Puerto Rico Hourly Employees Retirement Plan

Notes to Financial Statements December 31, 2014

1. Plan Description:

The following description of the Fluor Puerto Rico Hourly Employees Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified defined noncontributory plan covering substantially all employees of Fluor Daniel Caribbean, Inc. and participating subsidiaries (the Company).

The Plan became effective on January 1, 2011. The Plan was established for the purpose of providing retirement benefits to employees through a plan that qualifies under the applicable laws of the Commonwealth of Puerto Rico. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2013, the Plan Administrative Committee appointed Company representatives to assume the trustee function previously shared with a financial institution.

Since February 2012, Fidelity Investments is the custodian and broker-dealer of the Plan's assets. Pension Administrators Group, Inc. is the record keeper of the Plan.

The Plan was amended and restated to conform it to the requirements of the 2011 Internal Revenue Code for a New Puerto Rico (2011 IRCPR), as amended.

Eligibility

An employee is eligible to become a member of the Plan after attainment of age 18.

Contributions

Each Plan year, the contribution for each Participant equals 2% of the Participant's Plan compensation for the Plan year. Participants are not allowed to make voluntary contributions to the Plan.

With the approval of the Plan's Administrator, Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans.

Participants' Accounts

Individual accounts are maintained for each Plan Participant. Each Participant's account is credited with the (a) the Company's contributions, and (b) plan earnings. Allocations are based on Participant's share of the Plan's income (losses) and any related expenses. The benefit to which a Participant is entitled is the benefit that can be provided from the Participant's vested account. The change in the value of the Plan's invested assets is posted to the Participant's account on a daily basis.

Investment Alternatives

Upon enrollment in the Plan, a Participant may direct the Company's contribution, (a) entirely in any one of the available funds; or (b) divided between any two or more of such investment funds in increments of 1%.

In the event that a Participant does not have an investment election on file, the Company's contributions will be directed to an age-appropriate LifePath fund as the default investment alternative. Participants may change their investment allocation at any time.

Vesting

Employer contributions are vested at all times and shall not be subject to forfeitures for any reason.

Payment of Benefits and Withdrawals

Distribution of Participant accounts may be made in: (a) one lump-sum cash payment, or (b) cash installments over a certain period. In the case of a Participant termination because of death or disability, the entire account balance amount is paid to the person or persons legally entitled thereto regardless of the years of service.

If, at the time of termination, the value of a Participant's vested benefit is \$1,000 or less, the Plan administrator will immediately distribute such benefit without the Participant's consent. However, a Participant's vested benefit may not be paid without written consent if the value exceeds \$1,000.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants shall be fully vested and nonforfeitable in their accrued benefits as of the date of termination or discontinuance.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investments Valuation

The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments, which represent the net asset value of units held by the Plan at year-end. Refer to Note 4 for fair value measurements.

Purchases and sales of investment units are reflected on a trade date basis. Income is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair market value, net unrealized appreciation (depreciation) on investments for the year is reflected in the statement of changes in net assets available for benefits. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, these management fees and operating expenses are reflected as a reduction of investment return for such investments.

Contributions

Employer contributions are posted to Participant accounts annually.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses are paid from the assets of the Participants' accounts.

Subsequent Events

The Plan administrator has evaluated subsequent events occurring between December 31, 2014, and October 8, 2015, the date the financial statements were available to be issued.

4. Fair Value Measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market Participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year end. The fair values of funds representing common stock, corporate bonds, and U.S. Government securities are based on quoted market prices. Level 1 inputs are considered "observable" inputs.

Level 2 Fair Value Measurements

These inputs are "observable for the asset or liability, either directly or indirectly", including quoted prices for similar securities, interest rates, credit risk, etc. that are determined for an asset based on independent market data.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following are the major categories of assets measured at fair value on a recurring basis:
