Note 1. Description of Plan

The following description of the Trinity Partners, LLC 401(k) Profit Sharing Plan (the "Plan") of Trinity Partners, LLC and subsidiaries (the "Company") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General provisions and amendments: The Plan is a defined contribution plan established by the Company on January 1, 1997. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers eligible employees of Trinity Partners, LLC and participating employers, Akuta Corporation and Trinity Pharma Solutions, LLC. As described below, effective December 31, 2013, the Plan was amended to remove Trinity Pharma Solutions, LLC as a participating employer.

On December 31, 2013, the Members of Trinity Partners, LLC and Trinity Pharma Solutions, LLC gave consent to spin off the accounts of Trinity Pharma Solutions, LLC participants into the Trinity Pharma Solutions, LLC 401(k) Profit Sharing Plan. The spin off occurred on March 4, 2014, when all plan assets for participants employed by Trinity Pharma Solutions, LLC totaling approximately $2,239,000 were transferred to the Trinity Pharma Solutions, LLC 401(k) Profit Sharing Plan.

Subsequent to year end on January 1, 2015, the Plan changed custodians from Voya Retirement Insurance and Annuity Company ("Voya", or the "Custodian") to Great-West Trust Company ("Great-West"). On December 31, 2014, the investments of the Plan were liquidated into non-interest bearing cash to prepare for transfer to Great-West.

Eligibility requirements: The Plan covers substantially all employees of the Company, as defined above, who have attained the age of twenty-one. Any employee who meets the age criteria during the year is eligible to participate the first day of the month coinciding with or next following the date the requirements are met.

To be eligible for the employer match, a participant must have made 401(k) or Roth contributions during the year. Participation in the employer discretionary profit sharing contribution requires a participant to complete one year of service in addition to the age requirement. In the year an employer discretionary profit sharing contribution is allocated, employees who are not employed on the last day of the Plan year must have completed more than 500 hours of service, unless termination of service was due to death, total and permanent disability, or early or normal retirement during the Plan year.

Contributions: Participants may elect to defer, on a pre-tax or after-tax basis, up to the maximum dollar amount allowed by the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, limited to $5,500 by the IRS in 2014. Participants may also contribute amounts representing distributions from other qualified plans.

The Company provides an employer matching contribution equal to 50% of each participant's deferral contribution up to 6% of their eligible compensation. For the year ended December 31, 2014, the employer matching contributions totaled $272,848, net of forfeitures applied.

In addition, the Company may elect to make an additional discretionary profit sharing contribution to the Plan. For the 2014 plan year, there were no additional discretionary contributions declared or contributed to the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's matching contribution, and allocations of any discretionary profit sharing contribution and Plan earnings/losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of Plan (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

Years of Service	Vested Percentage
0 years up to 2 years	0%
2 years up to 3 years	25%
3 years up to 4 years	50%
4 years up to 5 years	75%
5 years or more	100%

Participants become 100% vested in the Company's discretionary profit-sharing contribution upon the completion of three years of service. Participants are not vested in these contributions until this requirement is met.

If a participant attains normal retirement age while still employed or if a participant incurs a severance from employment as a result of death or disability, he or she will become 100% vested in his or her account.

Forfeitures: Forfeitures are used to reduce employer matching or discretionary profit sharing contributions, or to pay administrative expenses. Forfeited nonvested accounts totaled $2,996 and $704 at December 31, 2014 and 2013, respectively. For the year ended December 31, 2014, total forfeitures amounted to $26,897 and net appreciation on forfeited amounts was $195. During the year ended December 31, 2014, $24,800 in forfeitures were used to reduce employer matching contributions and no forfeitures were used to pay administrative expenses.

Investment elections: Each participant shall direct the investment of their account. Each participant shall select among a guaranteed investment contract and various pooled separate accounts offered by Voya. As discussed above, the investments were liquidated on December 31, 2014 in preparation for the transfer to Great-West on January 2, 2015.

Notes receivable from participants: Participants may borrow a minimum of $1,000 up to a maximum of the lesser of $50,000 (less the highest outstanding loan balance in the previous 12 months) or 50% of their vested account balance. Loan terms are provided up to five years, except the term for loans which are for the purchase of a principal residence may extend to 15 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with regional bank rates for similar loans or such other reasonable rate as determined by the plan administrator. The interest rate on all loans outstanding as of December 31, 2014 was 3.25%, and loans mature through 2024. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires, or becomes permanently disabled or deceased. Vested account balances of $1,000 or less can be distributed without consent for termination of service in the form of a lump-sum payment equal to the vested interest in his or her account. In-service withdrawals are also permitted for financial hardships, as defined in the plan document, or when a participant attains age 59 ½.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan had funds invested in a guaranteed investment contract with Voya as of December 31, 2013. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Generally accepted accounting principles ("GAAP") require the statement of net assets available for benefits to present the fair value of the investment contracts, as well as the adjustment, if any, of the fully benefit-responsive investment contracts from fair value to contract value. The changes in value of these investments are reflected on the statement of changes in net assets available for benefits on a contract value basis. As of December 31, 2013, the contract value of the investment contract approximated the fair value. Accordingly, as of December 31, 2013, there is no adjustment required to reflect the investment contracts at contract value. During 2014, due to the Plan's decision to terminate the contract, the investment contract was no longer fully-benefit responsive and was subject to market value adjustments upon liquidation on December 31, 2014 for a gain of approximately $33,543, which is included within net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Use of estimates: The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair value measurements: GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2. Summary of Significant Accounting Policies (Continued)

Fair value measurements (continued): Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Investments in pooled separate accounts are valued using the net asset value ("NAV") per unit, which is based on the quoted market price of the underlying assets and adjusted for administrative charges of the separate account. These funds are classified as Level 2.

Guaranteed investment contract: The investment in the guaranteed investment contract is reported at contract value which approximates fair value. This determination is based on the issuer's credit rating and yield during 2013, which was comparable to similar alternative investments. As these inputs are significant and not observable, the guaranteed investment contract is categorized as Level 3.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See above for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: As provided by the plan agreement, administrative expenses related to Plan's investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Company.

Income taxes: GAAP requires plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 3. Guaranteed Investment Contract

As of December 31, 2013, the Plan had a fully benefit-responsive guaranteed investment contract with Voya, the custodian of the Plan. The contributions to this contract are maintained in a general account which is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note 3. Guaranteed Investment Contract (Continued)

As described in Note 2, because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract at December 31, 2013. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events may limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

During 2014, due to the Plan's decision to terminate the contract, the investment contract was no longer fully-benefit responsive and was subject to market value adjustments upon liquidation on December 31, 2014 for a gain of $33,543, which is included within net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The interest rate on the guaranteed investment contract adjusts on an annual basis but it may not be less than 3%. For the year ended December 31, 2013, the average yield and crediting interest rate was:

	2013
Based on actual earnings	2.54 %
Based on interest rate credited to participants	3.00 %

Note 4. Information Certified or Provided by the Plan's Custodian

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Voya, the custodian, and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 6. Fair Value Measurements (Continued)

The following table represents the Plan's level 3 financial instruments as of December 31, 2013, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Investment	Fair Value	Valuation Technique	Significant Unobservable Inputs	Input Values
Guaranteed investment contract	$ 833,704	Contract value	Credited rate as of the date of surrender	3.0%

In estimating the fair value of the investments in Level 3, plan management uses data provided by third parties. In substantiating the reasonableness of the pricing data provided by third parties, plan management evaluates a variety of factors including review of the methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2013.

Note 7. Notes Receivable from Participants

The Plan permits its participants to obtain loans against their account balance. Loans to participants are collateralized by the respective participant's remaining account balance. Also, certain restrictions apply to participant loans, as defined in the plan document. As of December 31, 2014 and 2013, total loans outstanding were $27,332 and $16,804, respectively.

For the year ended December 31, 2014, interest earned on such loans was $438.

Note 8. Income Tax Status

The Plan has adopted The Angell Pension Group, Inc. Defined Contribution Prototype Plan and Trust. This prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC.

Note 9. Plan Termination

The Company has not expressed any intent to terminate the Plan.
