WATSONVILLE COMMUNITY HOSPITAL MONEY PURCHASE PENSION PLAN

Notes to Financial Statements
Years Ended December 31, 2014 and 2013

NOTE 1. DESCRIPTION OF PLAN

The following description of the Watsonville Community Hospital Money Purchase Pension Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan, covering all hospital employees—except non-benefited employees, Hospital managers, highly compensated employees, and certain union employees—who are twenty-one years or older and have completed twelve months of service. Watsonville Community Hospital is the Plan sponsor. Variable Annuity Life Insurance Co. (VALIC) is the Plan Administrator and also holds the assets of the Plan in trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: For 2014 and 2013, the Hospital contributed to the Plan each pay period an amount equal to six percent of the participants' eligible compensation for all qualified employees. Voluntary employee contributions are not permitted. The Plan is fully funded.

Participant Accounts: Each participant's account is credited with an allocation of (a) the Hospital's contributions, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as appropriate. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: Participants are immediately vested in their employer contributions plus actual earnings thereon.

Payment of Benefits: Participants are entitled to receive the vested balance of their accounts upon death, disability, retirement, termination of employment, or upon request after reaching age 59 ½. On termination of employment, a participant with a vested account balance of greater than \$5,000 may elect to receive either a lump-sum amount equal to the value of his or her account, or annual installments over the life expectancy of the participant. Participants with a vested account balance of \$5,000 or less may be paid in a lump sum.

Forfeited Accounts: At December 31, 2014 and 2013, unallocated non-vested accounts totaled \$21,244 and \$0, respectively. Amounts forfeited will be used to reduce future employer contributions. During the years ended December 31, 2014 and 2013, no forfeitures were used to reduce employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Plan Expenses: Certain expenses of maintaining the Plan are paid directly by Watsonville Community Hospital and are excluded from these financial statements. Investment management fees and other fees related to investments of the Plan are paid from the earnings of the Plan's investments.

Reclassifications: Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 presentation.

NOTE 4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan Sponsor evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

<i>Assets at Fair Value as of December 31, 2014</i>				
	Level 1	Level 2	Level 3	Total

NOTE 4. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014.

	Level 3 Year Ended December 31, 2014
	<i>Guaranteed Investment Contract</i>

The amount of total gains/(losses) for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	<u>\$ (103,458)</u>

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE 5. GUARANTEED INVESTMENT CONTRACT WITH VARIABLE ANNUITY LIFE INSURANCE COMPANY

The plan has entered into a benefit-responsive guaranteed investment contract with Variable Annuity Life Insurance Co. (VALIC). VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was \$14,434,159 and \$13,309,805, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2 percent for accounts setup after December 1, 2003. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:		
Based on interest rate credited to participants	2014	2013
Guaranteed	0.00%	0.00%
Short-Term Fixed	1.00%	1.00%
Multi-Year Enhanced	0.00%	0.00%
Fixed Interest Option	2.17%	2.61%

NOTE 6. CERTIFIED INFORMATION

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Variable Annuity Life Insurance Company, a subsidiary of American International Group, Inc. (AIG), the trustee of the Plan. The contract value of the guaranteed investment contract was certified by the trustee.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 8. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions.

The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. PARTY-IN-INTEREST

VALIC is the custodian and administrator of the Plan and, as such, is a party-in-interest. The purchase by the Plan of certain proprietary funds sponsored by VALIC constitutes party-in-interest transactions, which are allowable transactions under the ERISA regulations.

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation and financial reporting of the Plan. The Company pays these individuals' salaries and also pays other administrative expense on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan.

These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory and administrative exemptions from the Code and ERISA's rules on prohibited transactions.
