Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to the Financial Statements

1. Description of Plan

The following description of Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions. The Plan was amended and restated effective January 1, 2010.

General

The Plan is a defined contribution plan that covers all employees of Beyer Mechanical, Ltd. (the “Company”) who have completed 1 year (at least 1,000 hours) of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

The Company may contribute discretionary matching and profit sharing contributions, as defined in the Plan, at the option of the Company’s trustees. Contributions are subject to certain limitations.

Participants may elect to contribute up to 100% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100% vested in their voluntary contributions.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. Employer matching contributions and profit sharing contributions have a six-year graded vesting period as follows:

<u>Completed Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to the Financial Statements

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under \$1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations.

Forfeitures

Participant forfeitures of nonvested balances will be used reduce future employer contributions. During 2014 and 2013, no Plan employer contributions were reduced from the forfeited nonvested accounts. At December 31, 2014 and 2013, unallocated forfeitures totaled \$2,151 and \$2,647, respectively.

Administrative Expenses

Administrative expenses may be paid by either the Plan sponsor or the Plan, as provided by the Plan document.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Guaranteed Interest Contract

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis. At December 31, 2014 and 2013, contract value approximated fair market value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to the Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through September 28, 2015, the date the financial statements were available to be issued.

Reclassification

Certain reclassifications have been made in the prior year's financial statements to conform to the current year's presentation.

3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.), the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule:

- Investments, as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013
- Investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2014
- The contract and fair value of the fully benefit-responsive investment contracts

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to the Financial Statements

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2014	2013
John Hancock Lifestyle Growth Active Strategy Fund	\$ 355,927	\$ 346,951
John Hancock Lifestyle Balanced Active Strategy Fund	296,583	257,299
American Funds Growth Fund of America	190,816	170,316
John Hancock Disciplined Value	112,945	100,154
Oppenheimer Developing Markets	*	88,927

*Did not meet 5% criteria at respective financial statement date.

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the years ended December 31, 2014 and 2013, appreciated in fair value by \$81,153 and \$290,755, respectively. The appreciation in fair value was primarily attributable to pooled separate accounts.

5. Fair Value Measurements

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to the Financial Statements

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

- Pooled separate accounts – Primarily valued at net asset value per share based on quoted market prices of underlying investments.
- Guaranteed interest contract – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the custodian evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

December 31, 2014				
	Total	Level 1	Level 2	Level 3

6. Guaranteed Interest Contract

The Plan offers as an investment option a benefit-responsive guaranteed interest contract. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest contract. The guaranteed interest contract is presented at fair value on the face of the statements of net assets available for benefits, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed interest contract, which approximated contract value, at December 31, 2014 and 2013 totaled \$649 and \$656, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to the Financial Statements

The guaranteed interest contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield consists of the following:

	Years Ended December 31,	
	2014	2013
Based on actual earnings	1.7%	1.7%
Based on interest rate credited to participants	1.1%	1.3%

7. Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts managed by John Hancock. John Hancock is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions.

The Plan sponsor paid certain administrative expenses related to the Plan for the years ended December 31, 2014 and 2013.

8. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan sponsor contributions.

9. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Effective January 1, 1997, the Plan adopted a nonstandardized form of a prototype plan. The prototype plan has received a determination letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Notes to the Financial Statements

10. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
