LifeStory Interactive, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of Plan

The following brief description of LifeStory Interactive, Inc. 401(k) Plan (Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

Fidelity Life Association (Company) originally established the Plan on December 1, 2004, under the name Fidelity Life Association 401(k) Plan. Effective June 1, 2011, the Company amended the name of the Plan to LifeStory Interactive, Inc. 401(k) Plan.

The Plan is subject to the *Employee Retirement Income Security Act of 1974* (ERISA) and subsequent regulations.

Eligibility

Eligibility to participate in the Plan is limited to employees, as defined, who have completed one month of service, are age 21 or over and are not part of a collective bargaining agreement.

Contributions

Participants may contribute up to 90% of their annual compensation, subject to applicable ceilings imposed by the Internal Revenue Code. Participants who have attained the age of 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make a nonelective safe harbor contribution to participants of at least 3% of wages. In 2014 and 2013, the Company did not make a safe harbor contribution. The Company may also make a discretionary matching contribution. In 2014 and 2013, the Company contributed 50% of the first 6% of eligible elective deferrals.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of Company contributions and plan earnings, and charged with an allocation of investment and administrative expenses. Allocations are based upon participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce employer contributions or to pay the Plan's ordinary and necessary administrative expenses. Forfeitures available for future use totaled

$39,130 and $10,256 at December 31, 2014 and 2013, respectively. Forfeitures in the amounts of $50,498 and $39,008 were used to reduce Company contributions in 2014 and 2013, respectively.

Vesting

Participants are immediately vested in their voluntary contributions, including rollovers into the Plan, plus actual earnings thereon. Vesting in employer contributions is based upon years of service. A participant is 0% vested until they have reached three years of service at which time they become 100% vested.

Notes Receivable from Participants

Participants can borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at 5.25% at December 31, 2014, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is repaid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, a participant's account may be distributed as a lump sum or rollover into another qualified plan. The administrator may approve the payment of benefits at the election of a participant for certain hardship circumstances up to the lesser of 100% of a participant's elective account value as of the last valuation date or the amount requested.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as further described in Note 5. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of the Plan are paid by the Company. The Plan pays certain administrative expenses and transaction costs related to investment management fees, which are included in net appreciation in fair value of investments. Administrative expenses paid by the Plan are expensed as incurred.

Note 3: Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Verisight Trust Company, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investment income components and interest from participant notes receivable, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.
- The investments, at fair value, and participant loans included in the supplemental schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 4: Investments

The Plan's investments that represent 5% or more of net assets available for benefits as of December 31, 2014 and 2013, are as follows:

	2014	2013
American Funds AMCAP	$ 1,412,252	$ 1,272,847
Primecap Odyssey Aggressive Growth	716,262	570,610
Vanguard 500 Index Signal Shares	*	721,170
Vanguard 500 Index Admiral Shares	922,649	*
Vanguard Target Retirement 2040	567,852	*

*Investment is less than 5% of the Plan's net assets, available for benefits.

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2014	2013
Registered investment companies	$ 331,271	$ 1,337,152
Self-directed brokerage account	43,480	72,510
	$ 374,751	$ 1,409,662

Note 5: Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Such accounting guidance also establishes a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money market funds are stated at cost which approximates fair value based upon Level 1 inputs.

Registered investment companies are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1).

Publicly traded common stocks held under the self-directed brokerage account are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using

Note 6: Plan Termination

While the Company expects to continue the Plan, it reserves the right to terminate the Plan at any time subject to the provisions of ERISA as amended by subsequent legislation. In the event of termination, participants will become 100% vested in their accounts and the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Note 7: Transactions with Parties-in-Interest

Verisight Trust Company provides administrative services and is trustee of plan assets. Verisight Trust Company, therefore, qualifies as a party-in-interest. Fees paid by the Plan were $23,705 and $23,599 during 2014 and 2013, respectively, for accounting and other professional services rendered by parties-in-interest.

Note 8: Tax Status

The Plan is a Prototype Non-standardized Profit Sharing Plan sponsored by Pension Specialists Inc. and adopted by the Company. Pension Specialists Inc. obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Reconciliation to Form 5500

The following is a reconciliation of changes in net assets per the financial statements to the Form 5500:

	2014	2013
Net increase in net assets per the financial statements	$ 1,833,550	$ 1,911,155
Reversal of prior year excess contributions	-	316
Net increase in net assets per the Form 5500	$ 1,833,550	$ 1,911,471

Note 11: Subsequent Events

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
