**SHENTEL MANAGEMENT COMPANY
SUPPLEMENTAL RETIREMENT PLAN**

Notes to Financial Statements

December 31, 2014 and 2013

(1) Plan Description

The following brief description of the Shentel Management Company Supplemental Retirement Plan (the Plan), formerly known as Shenandoah Telephone Company Supplemental Retirement Plan, is provided for general information purposes. Participants should refer to the Plan's summary plan description for more complete information.

(a) General

The Plan is a defined contribution retirement plan covering substantially all eligible employees of Shentel Management Company (the Company or Plan Sponsor) and its affiliates. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). T. Rowe Price serves as the record keeper and T. Rowe Price Trust Company (TRP) serves as Trustee of the Plan.

(b) Eligibility

All full and part-time employees are eligible to participate in the Plan upon completion of 60 days of employment. Participation begins on the first day of the month following the date the eligibility condition is satisfied.

(c) Contributions

Each year, participants may contribute pretax compensation amounts up to the Internal Revenue Code (IRC) limitation, which was \$17,500 (\$23,000 if age 50 or older) during 2014. All voluntary contributions are made by payroll deductions. The Company matches employee contributions in amounts equal to 100% of each employee's contributions on the first 2% of regular compensation and 50% on the next 2% of regular compensation (excludes overtime and bonus). The Company match begins after one year of service with at least 1,000 hours of service. In addition, the Company makes discretionary contributions, which totaled 5% of employees' regular compensation (excluding overtime and bonus) in 2014.

(d) Participant Accounts

The trustee maintains individual accounts for each participant for their respective investment in each of the available investment funds. Each participant's account includes the participant's contribution and the participant's share of the Company's contributions. A participant's accrued benefit in the Plan is the balance in the account maintained for the participant under the Plan.

(e) Vesting

Once an eligible employee becomes a participant in the Plan, the employee is automatically 100% vested in the employee's contributions and employer's matching contributions made prior to January 1, 2007. Discretionary employer contributions and employer's matching contributions made after January 1, 2007 vest 100% after three years of continuous employment with at least 1,000 hours of service per year. If an employee terminates before being fully vested, the unvested portion is used to reduce the Company's contribution. Forfeitures were \$55,500 for the year ended December 31, 2014.

(f) Investment Options

The Plan permits participant-directed investments among various mutual funds. Participants may change their investment options at any time.

(g) Payment of Benefits

Upon termination of service or attainment of retirement age, participants receive their accrued benefits in a single lump sum that can be rolled over into another qualified plan or paid in cash to the participant.

(h) Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan Sponsor and are excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. During 2014, T. Rowe Price refunded to the Plan excess administrative fees of \$9,160.

(i) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years or a longer period established when the loan is negotiated for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest as determined on a monthly basis by the plan administrator at no less than the prevailing rate of interest charged on similar loans by commercial banks. Annual interest rates for all outstanding loans were 4.25% at December 31, 2014. Principal and interest are paid ratably through bi-weekly payroll deductions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments

Investments in mutual funds are reported at fair value, determined by the last reported market price on the last business day of the year. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recognized on a trade-date basis, the date the order to buy or sell is executed. The cost basis of securities used in the determination of net appreciation (depreciation) in the fair value of investments, including investments sold during the year, is determined through the use of the average cost method. Interest and dividend income is recorded on the accrual basis.

The Plan's investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. In addition, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term

and that such changes could materially affect the amounts reported in the statements of assets available for benefits.

(c) Notes Receivable from Participants

Notes receivable from participants are valued at the principal amount outstanding plus accrued interest thereon.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

(3) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(4) Unaudited Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by TRP, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule. Following are the amounts certified by TRP:

- (a) The following information in the statements of assets available for benefits as of December 31, 2014 and 2013:

(6) Income Tax Status

The Plan is a nonstandardized prototype plan sponsored by AccuDraft, Inc. (the Company's ERISA advisor) and adopted by the Company. A favorable opinion letter dated January 31, 2006, on which the Company is relying as provided for in Revenue Procedure 2005-16, has been received for the prototype plan. The Company believes the Plan is designed and is being operated in compliance with the IRC and the provisions of the plan document.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there were no uncertain positions taken or expected to be taken that would require recognition of a liability

(or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of amounts reported in the financial statements with amounts reported on Form 5500 as of December 31, 2014 and 2013 and for the year ended December 31, 2014:

	<u>2014</u>	<u>2013</u>

Employer contributions receivable	(72,122)	(58,060)

Total contributions per financial statements	\$ 5,175,992	
Change in employer contributions receivable	(14,062)	
Change in employee contributions receivable	<u>(14,573)</u>	
Total contributions per Form 5500	<u>\$ 5,147,357</u>	

(8) Fair Value Measurements

Assets and liabilities are measured and classified in a hierarchy for disclosure purposes consisting of three levels based on the observability of inputs available in the marketplace used to measure the fair values, as discussed below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value at December 31, 2014 and 2013:

Investments in mutual funds: Fair value is determined by the last reported market price on the last business day of the year.

(9) Related Party Transactions

(10) Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure in the December 31, 2014 financial statements through October 8, 2015 the date the financial statements were available to be issued.
