401(k) Plan for Union Employees

Notes to Financial Statements

December 31, 2014

1. Description of Plan

The following description of the Juno Manufacturing, Inc. 401(k) Plan for Union Employees (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Juno Manufacturing, LLC (the Company) on January 1, 2000. It is designed as a defined contribution plan under Section 401(a) of the Internal Revenue Code (the Code) with a cash or deferred arrangement under Section 401(k). The Company maintains all necessary employment records and determines participant eligibility. Vanguard Fiduciary Trust Company (Vanguard or the Trustee) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility and Vesting

Substantially all union employees of the Company become eligible to participate in the Plan beginning on the first day of January or July, following attainment of 21 years of age and completion of seven months of service. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Vesting begins with 40% after two years of service and continues to vest in 20% increments for each year of service thereafter, with full vesting after five years of service.

Contributions

Each year, participants may elect to defer between 1% and 15% of eligible earnings, as defined in the Plan, subject to limitations under the Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company matches participant contributions at a rate of 50% of each employee's elective deferral, up to 5% of their compensation. The Company's contributions are invested in the same manner as that of the participant's elective contributions.

Juno Manufacturing, Inc.
401(k) Plan for Union Employees

Notes to Financial Statements (continued)

1. Plan Description (continued)

Payments of Benefits

Upon termination of service due to death, disability, or retirement, participants may elect to take a lump-sum distribution, a series of equal installments over a period not exceeding the participant's life expectancy, or joint life expectancies of the participant and his or her beneficiaries. If the value of an individual participant's account does not exceed \$5,000, distribution from the Plan shall be made to the participant in a single lump sum in lieu of all other forms of distribution.

Participants' Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution and the Company's matching contribution and allocations of the Plan's earnings and is charged with an allocation of the Plan's investment losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. Unallocated forfeiture balances as of December 31, 2014 and 2013, totaled \$426 and \$0, respectively.

Participant Loans

The Plan allows participants to take out loans secured by their vested account balances. Participants may borrow a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans will be charged a reasonable rate of interest, will be for a minimum one-year term, and must be repaid through payroll deductions within five years.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balances plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Juno Manufacturing, Inc.
401(k) Plan for Union Employees

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Vanguard Retirement Savings Trust, a common/collective trust fund, invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the accompanying statement of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's administrative expenses are paid by the Company. An annual recordkeeping fee of \$15 is charged directly to each participant.

New Accounting Pronouncements

In May 2015, the Financial Account Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management does not believe adoption of the guidance will have a significant impact as it impacts only disclosure.

Juno Manufacturing, Inc.
401(k) Plan for Union Employees

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management is currently evaluating the impact to the Plan.

3. Investments

Other than the fair value of the Vanguard Retirement Savings Trust and the adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2014 and 2013, and net appreciation in fair value of investments interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee. The contract value of the Vanguard Retirement Savings Trust Fund was certified as complete and accurate by the trustee.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

Juno Manufacturing, Inc.
401(k) Plan for Union Employees

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan:

Mutual funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common/collective trust funds: Valued at the NAV provided by the administrator of the funds. The NAV is based on underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets carried at fair value:

	December 31, 2014			
	Level 1	Level 2	Level 3	Total

^(a)This common/collective trust fund is designed to deliver safety and stability by preserving principal and accumulated earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Redemptions are permitted by participants on any business day and by the Plan within 12 months of written notice.

^(b)This category seeks to provide capital appreciation and current income consistent with its current asset allocation. These funds use an asset allocation strategy designed for investors planning to retire based on the investor's target year. The trusts' asset allocation will become more conservative over time. There are no redemption restrictions on these funds.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to applicable collective bargaining agreements and the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Juno Manufacturing, Inc.
401(k) Plan for Union Employees

Notes to Financial Statements (continued)

6. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated May 28, 2014, stating that the form of the Plan is qualified under Section 401 of the Code and therefore the related trust is tax-exempt. In accordance with Revenue Procedures 2014-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
