CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of the Plan

The following brief description of the CareOregon, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

(a) General

The Plan is a 401(k) defined contribution salary deferral plan covering substantially all employees of CareOregon, Inc. (the Company) and CareOregon Community Health, LLC (the Companies) and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). CareOregon, Inc. (the Organization) is the Plan's sponsor and serves as plan administrator. Principle Life Insurance Company serves as custodian of the Plan and Principal Trust Company serves as trustee of the Plan.

(b) Eligibility

Employees of the Companies are eligible to participate in the Plan on the first day of each calendar quarter upon reaching age 18. Employees must be employed on the last day of the year to receive a discretionary profit sharing contribution.

(c) Contributions

Employee Contributions

Participants may elect to contribute amounts from their paychecks up to the maximum allowed by the Internal Revenue Service (IRS) each plan year. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

Employer Contributions

The Organization matches 100% of employee contributions, up to 2% of eligible compensation deferred to the Plan. The Organization also contributes 3% of each participant's compensation as a safe harbor nonelective contribution. During the year ended December 31, 2014, the Organization made an additional discretionary profit sharing contribution of 4%. Discretionary contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. The total employer contribution was \$2,903,000 and \$2,379,092 for the years ended December 31, 2014 and 2013, respectively.

Contributions are subject to regulatory limitations.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Organization's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers various registered investments (mutual funds), pooled separate

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

accounts, and a collective trust as investment options for participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. In addition, the Organization's 3% safe harbor contribution immediately vests to the participant. In general, vesting in discretionary contributions and matching are based on years of service, as defined in the Plan document, with employees becoming fully vested after three years.

(f) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to 50% of participants' vested accounts, but not in excess of \$50,000. Loans are subject to certain restrictions and are secured by the balance of the participant's account. Loans bear fixed reasonable rates of interest, as determined by the plan administrator. The maximum loan term is five years, unless the loan qualifies as a home loan, in which case the term of the loan may be longer than five years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2014, the rates of interest on outstanding loans ranged from 3.25% to 7.25% with various maturities through May 2023.

(g) Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested balance does not exceed \$5,000, benefits are paid to participants at the date of termination.

(h) Forfeitures

Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan until used to reduce the Company's contributions. As of December 31, 2014 and 2013, forfeited nonvested accounts totaled \$20 and \$101, respectively. For the year ended December 31, 2014 and 2013, the Organization's matching and profit sharing contributions were reduced by \$57,661 and \$36,302, respectively, from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(c) Investment Valuation

The investments are stated at fair value. The Plan's custodian, Principal Life Insurance Company, certifies the contract value of the collective trust and the fair market value of the pooled separate accounts. The Plan's trustee, Principal Trust Company, certifies the fair market value of the registered investment companies. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

(d) Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the plan agreement.

(f) Payment of Benefits

Benefits are recorded when paid.

(g) Expenses

Administrative expenses related to operating and maintaining the Plan are paid by the Company. Certain investment and transaction fees, including fees paid to Principal and investment advisors, are paid by participants in the Plan. Investment related expenses are included in net appreciation of fair value of investments.

(h) Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through October 1, 2015, which is the date the financial statements were available to be issued.

(3) Investments

Investments representing 5% or more of net assets available for benefits consist of the following at December 31:

	<u>2014</u>	<u>2013</u>
Collective Trust:		
Principal Stable Value Fund	\$ 2,513,840	2,248,921
Guaranteed investment contract with Morley Financial Services, Inc. at contract value (fair value \$2,540,555 and \$2,262,616 respectively) (Note 4(d))		
Pooled separate accounts:		
Principal Lifetime 2030	5,340,047	4,433,470
Principal Lifetime 2020	5,326,939	5,146,020
Principal Lifetime 2040	2,624,811	2,173,878
Principal Lifetime 2010	2,473,706	2,583,555
Principal Large Cap S&P Index Fund	1,967,966	—

During 2014 and 2013, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

	<u>2014</u>	<u>2013</u>
Pooled separate accounts	\$ 1,432,328	3,109,593
Registered investment companies	243,394	956,850
Net appreciation in fair value of investments	<u>\$ 1,675,722</u>	<u>4,066,443</u>

(4) Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

The three levels of the fair value hierarchy under the Financial Accounting Standards Board's Accounting Standards Codification Section 820 (FASB ASC 820) are described as follows:

(a) Basis of Fair Value Measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

(b) Registered Investment Companies (Mutual Funds)

Value determined by obtaining quoted market prices on nationally recognized security exchanges and are classified within Level 1 of the valuation hierarchy.

(c) Pooled Separate Accounts

Units held in pooled separate accounts are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a pooled separate account is classified within Level 2 of the valuation hierarchy. The Plan's significant investments are in the following pooled separate accounts:

Principal LifeTime 2010 Sep Acct-Sig – This pooled separate account invests in a single mutual fund – the Principal LifeTime 2010 Institutional Fund (ticker PTTIX).

Principal LifeTime 2020 Sep Acct-Sig – This pooled separate account invests in a single mutual fund – the Principal LifeTime 2020 Institutional Fund (ticker PLWIX).

CAREOREGON, INC. 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Principal LifeTime 2030 Sep Acct-Sig – This pooled separate account invests in a single mutual fund – the Principal LifeTime 2030 Institutional Fund (ticker PMTIX).

Principal LifeTime 2040 Sep Acct-Sig – This pooled separate account invests in a single mutual fund – the Principal LifeTime 2040 Institutional Fund (ticker PTDIX).

Principal Large Cap S&P 500 Idx Sep Acct-Sig – This pooled separate account invests in a single mutual fund – the Principal Large Cap S&P 500 Index R5 (ticker PLFPX).

Each pooled separate account previously described seeks a total return consisting of long-term growth of capital and current income. Of the 17 pooled separate accounts, 12 operate as “target date funds.” Target date funds invest in underlying Principal Funds, Inc. (PFI) domestic and foreign equity, real estate investments, and fixed-income funds (the Funds) according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. Each Fund’s asset allocation will become more conservative over time as investment goals near (for example, retirement, which is assumed to begin at age 65) and investors become more risk-averse. The Funds invest in PFI Institutional Class shares of the underlying funds. These pooled separate accounts can be redeemed at NAV as of the measurement date.

(d) Collective Trust

Units held in collective trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment is calculated based on a compilation of primarily observable market information. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the trust. Accordingly, the unit value for a collective investment is classified within Level 2 of the valuation hierarchy. The Plan has investments in the Principal Stable Value Fund (the Fund), which is a collective trust held by Union Bond & Trust Company (Trustee) and is designed to provide preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund holds guaranteed investment contracts, which typically have a fixed maturity. Each contract contains a provision that the issuer will, if required, repay principal at the stated contract value for the purpose of paying benefit payments (fully benefit-responsive).

Because the guaranteed investment contracts are fully-benefit-responsive, contract value is the relevant measurement attribute. The Principal Stable Value Fund is presented at fair value on the statements of net assets available for benefits. The adjustment from fair value to contract value is based on the contract value as reported by Union Bond & Trust Company (which represents contributions made under the contracts, plus earnings, less withdrawals, and administrative expenses). The statement of changes in net assets available for benefits is prepared on a contract-value basis.

The average yield earned by the Principal Stable Value Fund for all fully benefit-responsive investment contracts for the year ended December 31, 2014 was 1.44%, based on actual earnings (calculated by dividing amortized earnings by the fair value of all fully benefit-responsive investment contracts), and 1.48% based on interest rate credited to the participants (calculated by dividing amortized earnings credited to participants by the fair value of all fully benefit-responsive investment contracts).

(5) Tax Status

The Plan document is a prototype nonstandardized profit sharing plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). During 2014 the plan was restated to include all prior amendments and an updated favorable opinion letter was obtained dated March 31, 2014. The plan has not been amended since and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements for 2014.

Notes to Financial Statements

December 31, 2014 and 2013

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10, *Income Taxes*), the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The trustees believe it is no longer subject to income tax examinations for years prior to 2011.

(6) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

(7) Information Certified by the Custodian and Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the custodian of the Plan, and Principal Trust Company, the trustee of the Plan, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013,
- Net appreciation in fair value of investments, interest and dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the years ended December 31, 2014 and 2013,
- Investments reflected on the supplementary Schedule H – Line 4i –schedule of assets (held at end of year), and

(8) Party-In-Interest Transactions

Union Bond & Trust Company is the trustee of the Principal Stable Value Fund. Plan investments also include pooled separate accounts managed by Principal Global Investors. The Union Bond & Trust Company and Principal Global Investors are affiliates of Principal Life Insurance Company, and therefore, transactions with these entities qualify as exempt party-in-interest transactions.

(9) Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
