Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Unilock Retirement Plan and Trust (Chicago) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust), the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodians hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the custodians as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Unilock Retirement Plan and Trust (Chicago) (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan to enable eligible employees of Unilock Chicago, Inc. (the "Company") to defer receipt of a portion of their earnings for the principal purpose of providing benefits at the time of retirement, disability or death. Substantially all non-union employees who are employed by the Company for one year and are 18 years of age or older are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan with 3% of eligible compensation deferred unless they affirmatively elect not to participate in the Plan. Contributions are invested in a designated fund until changed by the participant. Prior to an amendment to the Plan effective July 1, 2013 the auto-enrollment percent was 2%. The rate is set to increase by 1% each July 1st, not to exceed 10% of eligible compensation.

Transfers Out to Other Qualified Plans

From time to time, certain Plan participants change their employment status with the Company during the Plan year and move to other locations or affiliates of the Company. Accordingly, the account balances in the Plan of these participants are transferred to other qualified plans sponsored by the other locations or affiliates of the Company. Such transfers are reflected in the accompanying financial statements in the year the employment status changed and the transfer occurred.

Contributions

Each year, participants may elect to contribute, through payroll deductions, up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes matching contributions to eligible participants of the Plan equal to 100% on the first $2,000 of elective deferrals, and 50% on the next $6,000 of elective deferrals, up to a maximum Company match of $5,000 each year.

In addition, the Company may also make, at its sole and unrestricted discretion, a discretionary profit-sharing contribution to the Plan. Eligible participants must be employed by the Company on the last day of the Plan year in order to receive the discretionary profit-sharing contribution. Allocations to participant accounts of any discretionary profit-sharing contributions are based upon points earned by the participants. Each participant is awarded one point for each year of service (not to exceed 40 points) and one point for each $10,000 of compensation (not to exceed 10 points). The amount of the contribution was $427,983 and $349,869 for the years ended December 31, 2014 and 2013, respectively.

Contributions are subject to certain IRS limitations.

Participants may direct their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan provisions.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of (a) any additional discretionary profit-sharing contributions and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company contribution portion of their accounts plus related earnings is based on years of service. Participants vest 30% in the first year, 60% in the second year, and are fully vested after three years of service.

Forfeited Accounts

Forfeited non-vested accounts are available to be used to offset the Plan's administrative expenses and to reduce future Company contributions. Unallocated forfeitures were diminutive as of December 31, 2014 and 2013, respectively.

Payment of Benefits

On retirement, termination of employment, death, or permanent disability, a participant is entitled to the full share of his or her account balance. Participants may receive the value of their accounts as a lump-sum distribution or as a rollover to another entity. Distributions of account balances less than $5,000 are made upon termination of service. Under certain circumstances, participants may be eligible to receive a hardship distribution.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period or (b) 50% of their account balances. The loans are collateralized by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator, which was 5.25% at December 31, 2014 and 2013. Principal and interest are paid ratably through payroll deductions over a term not exceeding five years, or a reasonable period of time determined at the time of the loan if used for the purchase of a principal residence.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Recently Issued Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *"Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (Subtopic 835-30)"* ("ASU No. 2015-07"). ASU 2015-07 aims to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes all requirements to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Plan Administrator is evaluating the impact of adopting ASU 2015-07 in the future.

In July 2015, the FASB released ASU 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965)"* ("ASU 2015-12"). ASU 2015-12 aims to remove the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value. Under the amendment, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. In addition, this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Plan Administrator is evaluating the impact of adopting ASU 2015-12 in the future.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's common/collective trust consists of an interest in the Principal Stable Value Fund which is a fully benefit-responsive contract. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts which approximates contract value; therefore, no adjustment was made or presented in the financial statements for 2014.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 12, 2015, which is the date the financial statements were available to be issued. No material subsequent events have occurred through that date that would require recognition in the financial statements.

3. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013:

December 31,	2014	2013
Principal LifeTime 2030	$ **1,814,584**	$ 1,486,793
Principal Stable Value Fund	**750,197**	721,309
Principal LifeTime 2040	**1,575,434**	1,307,453
Principal LifeTime 2020	**621,984**	658,303
Principal Large Cap S&P 500 Index	**1,032,396**	762,648
American Funds American Balanced	**700,817**	666,693

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

December 31,	2014
Registered investment companies	$ 71,102
Pooled separate accounts	440,618
Common collective trust	4,299
Total	$ 516,019

4. Fair Value Measurements

ASC Topic 820, *"Fair Value Measurements and Disclosures,"* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies - Valued at the daily closing prices as reported by the fund. Registered investment companies held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Pooled separate accounts: Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the net asset value of shares held by the Plan at year end. The net asset is determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

Common collective trust - Investments are valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy, because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The trust is reported at fair value, which approximates contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) *Large U.S. Equity* - This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(b) *Small/Mid U.S. Equity* - This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(c) *International Equity* - This asset class is comprised of investment options that invest in stocks or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risks than U.S. equity investment options but may have the potential for higher returns. They may be appropriate choices for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(d) *Balanced/Asset Allocation* - This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(e) *Fixed Income* - This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non- U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risks than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risks than equities. All investment options in this category have the potential to lose value.

(f) *Stable Value Fund* - The objective of the Principal Stable Value Fund (the Fund) is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The Fund seeks to achieve this objective by investing primarily in a variety of high quality Stable Value Investment Contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents. It is intended that the Fund's Stable Value Investment Contracts will maintain a minimum weighted average credit quality rating of A or better. The underlying fixed income securities must be rated investment grade and meet issuer diversification guidelines. The Fund is typically appropriate for investors who desire low volatility, stable principal value, and returns commensurate with a capital preservation objective for a component of their retirement savings. The Fund is designed for long-term retirement investing.

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the year ended December 31, 2014, there were no such transfers.

5. Information Certified by Custodians

Certain information related to investments included in the accompanying financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan Administrator by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodians of the Plan, and has been certified as complete and accurate. The certified information, including investments at fair value, notes receivable from participants, interest income on notes receivable from participants, and investment income, has not been audited by the Plan's independent auditors.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

7. Tax Status

The Company adopted the Corbel & Co. volume submitter plan document, which received a determination letter from the Internal Revenue Service on March 31, 2008 stating that the Plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained

upon the examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Related Party and Party-In-Interest Transactions

Certain Plan investments represent funds managed by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodians of the Plan. These transactions qualify as party-in-interest transactions. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services. Notes receivable from participants also qualify as exempt party in interest transactions.
