GROUP RETIREMENT PLAN FOR EMPLOYEES OF
DEXTER SHOE COMPANY AND PAN AM COMPANY

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 1: DESCRIPTION OF PLAN

The following description of the Group Retirement Plan for Employees of Dexter Shoe Company and Pan Am Shoe Company (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan sponsored by Dexter Shoe Company and Pan Am Shoe Company (the Companies) covering substantially all eligible employees of the Companies and an affiliated company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Under the terms of the Plan, participants with vested benefits less than \$1,000 will automatically receive a lump sum distribution equal to their actuarially calculated benefit. Participants with vested benefits of at least \$1,000 but less than \$5,000 may elect to receive a lump sum distribution equal to their actuarially calculated benefit.

Participants who did not elect to receive a lump sum distribution, as noted above, or with vested benefits of at least \$5,000, are eligible for benefits upon reaching the normal retirement age of 65. Participants may elect to receive reduced benefits upon reaching the early retirement age of 55 with five years of service. Benefits are computed based on compensation and years of service. Payment options under the Plan are a single life annuity, a joint and survivor annuity or a lump sum payment. Except as noted in the previous paragraph, lump sum benefits may be payable at or after age 65 to participants who elect to receive the actuarial equivalent of their pension benefits in cash instead of monthly payments for life.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are presented in accordance with accounting principles generally accepted in the United States of America. As such, contributions and income are recorded when earned and benefit payments are recorded upon distribution.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Expenses

Expenses paid directly from Plan assets include administrative, investment and professional fees. Certain administrative expenses are paid by the Company. Expenses paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in the net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2014 and 2013 were (a) life expectancy of participants (the RP 2000 Combined Mortality Tables were used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The 2014 and 2013 valuations included assumed average rates of return of 6.25%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Subsequent Events

Events that occur after December 31, 2014, the financial statement date, but before the financial statements were available to be issued must be evaluated for recognition or disclosure. Subsequent events that provide evidence about conditions that existed at the financial statement date are required to be recognized in the accompanying financial statements. Subsequent events that provide evidence about conditions that existed after the financial statement date require disclosure in the accompanying notes. Management evaluated the activity of the Plan through October 12, 2015, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

NOTE 3: INVESTMENTS

The Plan's investments are held in a trust administered by The Bank of New York Mellon. The investment transactions, investment income, schedule of reportable transactions and schedule of assets held were certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The investment accounts are credited with actual earnings on the investments and charged for plan withdrawals and administrative expenses.

	<u>\$4,122,790</u>	<u>\$16,340,259</u>

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology includes:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS
(Continued)
DECEMBER 31, 2014 AND 2013

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common Stocks: Common Stocks are valued at the closing price reported in the active market in which the individual securities are traded and are, therefore, classified as Level 1 assets.

U.S. Government Securities: In general, U.S. Government Securities are valued at the closing price reported in the active market in which the individual securities are traded and are, therefore, classified as Level 1 assets. Fannie Mae and Freddie Mac Pools are valued at estimated fair values by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows and, therefore, are classified as Level 2 assets.

Mutual Funds and Money Market Funds: Mutual and Money Market Funds are valued at the closing price of the net asset value (NAV) of shares held by the plan at year end as reported in the active market in which they are traded and, therefore, are classified as Level 1 assets.

Corporate Debt Instrument: Certain Corporate Debt Instruments are valued at the closing price reported in the active market in which the bond is traded and, therefore, are classified as level 1 assets. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued at a discounted cash flows approach that maximizes observable inputs, such as current yield of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks and, therefore, are classified as Level 2 assets. Corporate Debt Instruments that are valued through unobservable inputs that are supported by little or no market activity are classified as Level 3 assets.

Municipal Bonds: Municipal Bonds that are valued at estimated fair values by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows and, therefore, are classified as Level 2 assets.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following presents the change in value of the Level 3 (corporate bonds) investment asset noted above during the year ended December 31:

	<u>2014</u>	<u>2013</u>
Beginning Balance	\$ -	\$ 37,700
Realized Losses	<u>-</u>	<u>(37,700)</u>
Ending balance	<u>\$ -</u>	<u>\$ -</u>

Because the corporation that issued the Level 3 assets noted above became insolvent, the assets had no market value at December 31, 2013. The realized losses on this devaluation are included in net appreciation in fair value of investments on the statements of changes in net assets available for benefits for the year ended December 31, 2013.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. There were no significant transfers between levels during the years ended December 31, 2014 and 2013.

Unrealized losses included in changes in net assets above are reported in net appreciation in fair value of investments on the statements of changes in net assets available for benefits.

NOTE 5: ADMINISTRATIVE AND OTHER EXPENSES

Administrative and other expenses are comprised of the following:

	<u>2014</u>	<u>2013</u>
Administrative and Investment Expenses	\$ 52,768	\$ 55,852
Accounting and Actuarial Fees	43,360	36,314
PBGC Premiums	<u>60,711</u>	<u>56,056</u>
	<u>\$156,839</u>	<u>\$148,222</u>

NOTE 6: FUNDING POLICY

The Companies' funding policy is to contribute an amount equal to the minimum required employer contribution as required by ERISA. Under the funding rules, the contribution cannot be more than the amount by which the Plan's actuarial accrued liability exceeds plan assets. As such, the maximum allowable contribution has been limited to \$0 for the years ended December 31, 2014 and 2013.

NOTES TO FINANCIAL STATEMENTS
(Continued)

NOTE 7: PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employer contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of an annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guarantee Corporation (PBGC), a US government agency, up to the applicable limitations (discussed in the following paragraphs).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8: RELATED PARTY TRANSACTIONS

Certain administrative expenses are paid to The Bank of New York Mellon, the trustee of the Plan, and, therefore these transactions qualify as party-in-interest transactions. Administrative expenses totaling approximately \$62,663 and \$37,678 were paid to The Bank of New York Mellon during the years ended December 31, 2014 and 2013, respectively.

NOTE 8: RELATED PARTY TRANSACTIONS (Continued)

Included in accounts payable at December 31, 2014, is \$12,500 due to The Bank of New York Mellon for administrative expenses incurred in 2014 but paid in 2015. Included in accounts payable at December 31, 2013, is \$25,000 due to The Bank of New York Mellon for administrative expenses incurred in 2013 but paid in 2014.

NOTE 9: FROZEN PLAN

The Plan has been frozen effective January 1, 2002. Accordingly, no further benefits accrue on behalf of any participant in the Plan and no employee may become a participant. Any employee who was a participant in the Plan on January 1, 2002 became 100% vested and has a nonforfeitable right to his or her accrued benefit.

NOTE 10: ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of the accumulated plan benefits was calculated by the actuary using the following assumptions:

Assumed Investment Return Rate	6.25%
Mortality Basis	RP-2000 Mortality Tables
Employee Turnover	Termination rates from tables chosen by actuary No new or rehired employees
Retirement	Age 65
Asset Valuation	Market Value
Average Salary Increase	Not applicable for 2014 or 2013 since Plan benefits are frozen

Calculations of the present value of accumulated benefits and changes in present value of accumulated plan benefits under the Plan and calculations of the actuarially determined prior service liability were made as of January 1, 2014. These calculations were made by consulting actuaries Towers Watson.

Vested Accumulated Benefits:

Net change	<u>(209,728)</u>
Actuarial Present Value of Accumulated Plan Benefits as of January 1, 2014	<u>\$14,835,560</u>

NOTE 11: TAX STATUS

The Plan is qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the Plan's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service (IRS) dated July 15, 2009, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the letter. However, the plan sponsor believes that the Plan is designed and is currently operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

AND PAN AM COMPANY

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 12: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 13: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for benefits per the financial statements at December 31, 2014 and 2013 to Schedule H of Form 5500:

	<u>2014</u>	<u>2013</u>
Net assets available for benefits per the financial statements	\$85,336,439	\$81,723,738
Amounts allocated to withdrawing participants	<u>(67,285)</u>	<u>-</u>

The following is a reconciliation of the benefits paid to participants per the financial statements for the year ended December 31, 2014 to Schedule H of Form 5500:

Preretirement death

In the event of the death of an active member who is eligible to retire early, the member's spouse will receive the monthly benefit which would have been received if the member had retired early on the first of the month in which death occurred and benefits had commenced under the 50% joint and survivor form of pension payment. If an active member dies before eligibility for early retirement but after completing five years of Vesting Service, the member's eligible spouse will receive a monthly benefit for life equal to 50% of the member's Monthly Accrued Retirement Benefit at the date of death with reductions for early commencement and conversion to the 50% joint and survivor form of payment (payments may not commence prior to the date the member would have been eligible to retire early).

In the event of the death of a vested former member before payments begin, the member's spouse will receive a benefit if the surviving spouse coverage was in effect. The member's benefit will be reduced to reflect the period of time the surviving spouse coverage was in effect after January 1, 1986. The amount of surviving spouse's benefit will be one-half of the amount the former member would have received had he retired under the 50% joint and survivor annuity form of payment on the later of his Early Retirement Date or date of death (payments may not commence prior to the date the member would have been eligible to retire early).
