Note 1 Description of Plan

The Sun Products Corporation Retirement Savings Plan ("the Plan") was established on September 15, 2008. On July 26, 2008, The Sun Products Corporation ("the Company") acquired the North American laundry business of Unilever, P.L.C. through an Asset Purchase Agreement. The Plan was established to benefit the salaried employees who formerly worked for Unilever, P.L.C., and newly hired employees of The Sun Products Corporation located in Connecticut and Maryland. On January 1, 2010, the Plan acquired the HUIH Detergents, Inc. 401(k) Profit Sharing Plan. The HUIH Plan transferred the plan assets into Sun Products Corporation Retirement Savings Plan.

The following description provides only general information. Interested parties should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a Section 401(k) defined contribution plan covering all non-union employees of the Company. Employees are eligible to participate on the first day of the payroll period following the date of hire and will be automatically enrolled on the first day of the payroll period following 60 days of employment. Employees may opt out of automatic enrollment. Otherwise, 3% of compensation will be deducted and deposited in the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan also allows participants to obtain loans from the Plan in accordance with the Plan's loan policy.

The Plan was amended effective January 1, 2013 for the following: (1) to exclude employees who are employed by the Company as an intern, student worker, or temporary employee; (2) the automatic contribution arrangement shall also apply to rehired employees and reemployment of former employees; and (3) employer profit sharing contributions shall be allocated to eligible participants based upon the ratio of the participant's eligible compensation to the total compensation of all eligible participants for the plan year. The allocation of profit sharing contribution for any plan year shall not exceed 2% of any such eligible participant's compensation.

B. Contributions

The Plan is funded by contributions from its participants and the Company. Participants may make pre-tax contributions from 1% to 80% of eligible compensation, which the Company matches, \$ 1 for \$ 1 up to 3% of compensation. The Company will then contribute \$.50 for every dollar of the next 2% of the participants compensation contributed as elective deferrals. The maximum the Company will contribute is 4% of eligible compensation.

Note 1 Description of Plan (cont'd)

B. Contributions (cont'd)

At the end of the Plan Year, the Company will make true-up contributions to a participant's account if matching employer contributions ceased during the Plan year due to a participant having made accelerated contributions. The Company may elect to make a discretionary profit sharing contribution to the Plan. Profit sharing contributions are allocated based on a participant's eligible compensation in relation to all such eligible participants for the Plan Year. An allocation of profit sharing contribution for any Plan Year may not exceed 2% of any such eligible participant's compensation. All employees must be employed on December 31 of the plan year to be eligible for profit sharing.

C. Participant's account

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$ 1,000 up to a maximum of \$ 50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

E. Vesting

Participants are immediately vested in their voluntary contributions, employer matching contributions, employer fail safe contributions, and rollovers or transfers from other plans. Participants will be fully vested in employer profit sharing contributions when they complete at least three years of vested service. A participant will be credited with a year of service for each Plan Year during which they complete at least 1,000 hours of service. Participants may also receive credit for years of vested service while employed by Laundry Division of Unilever. For any employee employed by the Employer prior to January 4, 2010, years of service shall be calculated in accordance with the Plan then in effect.

Note 1 Description of Plan (cont'd)

F. Payment of benefits

Upon termination of service due to retirement, disability, death or other separation from service, the participant may elect to receive the payment of such benefits as a single lump sum distribution, a partial payment or installment payments. A lump sum distribution is automatic for account balances of \$ 1,000 or less.

G. Forfeited Accounts

At December 31, 2014 and 2013 forfeited non-vested accounts totaled \$ 36,692 and \$ 84,594, respectively. These accounts can be used to pay Plan expenses or used to reduce future employer contributions. Also in 2014, employer contributions were reduced by \$ 86,857 from forfeited nonvested accounts.

H. Transfers

Participants may transfer their balance to or from the Sponsor's non-union plan in the event that their position changes from union to non-union or non-union to union. For the period ended December 31, 2014, there were no transfers to or from the Sun Products Corporation Union Employees Retirement Savings Plan.

Note 2 Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Note 2 Summary of significant accounting policies (cont'd)

Use of estimates in the preparation of financial statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Administration Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Note 2 Summary of significant accounting policies (cont'd)

Income tax status

The Internal Revenue Service (IRS) has determined and informed the company by a letter dated September 24, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. The Plan is currently being audited by the IRS for the tax year ended December 31, 2012. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Benefit payments

Benefit payments are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The date to which events occurring after December 31, 2014, the date of the most recent Statement of Net Assets Available for Benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 12, 2015, which is the date on which the financial statements were available to be issued.

Note 3 Fair value measurements

FASB Accounting Standards Codification 820 ("ASC 820"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none"> ◆ Quoted prices for similar assets or liabilities in active markets; ◆ Quoted prices for identical or similar assets or liabilities in inactive markets; ◆ Inputs other than quoted prices that are observable for the asset or liability; ◆ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds - valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 3 Fair value measurements (cont'd)

Common Collective Trust - valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Note 5 Related-Party transactions and party-in-interest transactions

The Plan invests in shares of mutual funds managed by an affiliate of New York Life Trust Company (NYL). NYL acts as trustee for only these investments as defined in the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NYL provides certain administrative services to the Plan pursuant to a Service Agreement between the Company and NYL. NYL receives revenue from mutual fund service providers for services NYL provides to the funds. This revenue is used to offset certain amounts owed to NYL for its administrative services to the Plan.

If the revenue received by NYL from such mutual fund service providers exceeds the amount owed under the Service Agreement, NYL remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan

Note 5 Related-Party transactions and party-in-interest transactions (cont'd)

administrative expenses or allocate to the accounts of the participants. During 2014, excess amounts totaled \$ 139,989, and are included in other income on the statement of changes in net assets available for benefits. The Plan or Plan Sponsor may make a payment to NYL for administrative expenses not covered by revenue sharing.

Note 6 Plan termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
