VAN WERT COUNTY HOSPITAL TAX DEFERRED 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF THE PLAN

The following is a general description of the Van Wert County Hospital Tax Deferred 403(b) Plan (the "Plan"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of The Van Wert County Hospital Association (the Hospital). Employees are eligible to participate in the Plan following 975 hours of employment and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may make contributions to the Plan, subject to certain limitations. Effective January 1, 2014, the Hospital makes a matching contribution of 50% of the first 2% contributed by the participants. Prior to January 1, 2014 the Hospital made matching contributions of 25% of the first 1% contributed by participants.

Participants Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings (losses), and charged with an allocation of certain administrative expenses paid by the Plan. Earnings are allocated based on participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account balance.

Vesting

Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Hospital contributions portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after three years of service.

Payment of Benefits

On termination, a participant shall receive lump sum, partial withdrawal or installment as described in the Plan agreement. If a participant terminates employment, he or she shall be entitled to a retirement benefit beginning on his or her normal retirement date.

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Loan terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Interest is calculated at a rate commensurate with loans from the plan administrator and at local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Forfeitures

Forfeitures represent the non-vested portion of Hospital contributions plus earnings thereon related to participants who terminate employment before they are 100% vested. In the event a terminated employee is not reemployed within five consecutive one year breaks of service, such forfeitures may be used to reduce the Hospital's contribution to the Plan. At December 31, 2014 and 2013, \$131 and \$0 were available to reduce future employer contributions. \$89 and \$0 of forfeitures were used to reduce employer contributions in 2014 and 2013, respectively.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

VAN WERT COUNTY HOSPITAL TAX DEFERRED 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Typically, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract. However, as the contract values of these contracts approximate their fair values, no adjustment is considered necessary at December 31, 2014 and 2013.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses of maintaining the Plan are paid by either the Hospital or allocated to participant accounts.

Participant Loans

Loans from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan's administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant loan is recorded as a benefit payment based on the terms of the Plan document.

Operating Expenses

Expenses of maintaining the Plan may be paid by the Hospital or the Plan at the Hospital's discretion.

Transfers

3. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

VAN WERT COUNTY HOSPITAL
TAX DEFERRED 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers between levels. For the year ended December 31, 2013, there was one transfer into Level 3. Transfers into Level 3 from Level 2 were made due to the absence of observable market data. No other transfers between Levels occurred in 2014 and 2013.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2014 and 2013:

Pooled separate accounts: Represents accumulation units and the value is based on the underlying share values adjusted for dividends, distributions and the daily equivalent of any fee charged by the trustee. The value of each accumulation unit is published each day. Each investment account is exclusively invested in shares of a specific mutual fund as directed by the participant (Level 2).

Insurance contracts: Valued at contract value by discounting the related cash flows based on the current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 3).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of the contracts are based on significant unobservable inputs, including the credit worthiness of the issuers, American United Life Insurance Company (AUL) and Massachusetts Mutual Life Insurance Company (MassMutual) and the terms of the investment contracts. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

4. INVESTMENTS

The Plan has investments managed by AUL and MassMutual (trustees) whereby all of the participant contributions are remitted to the trustees and invested. The accounts are credited with actual earnings on the underlying investments and charged for plan withdrawals. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the trustees of the Plan that all the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments, interest income, net appreciation in investments and all information in the supplemental schedules is presented in reliance solely upon those certifications.

Insurance Contracts

The Plan has fully benefit-responsive investment contracts with AUL and MassMutual. AUL maintains the investments in fixed fund contracts. MassMutual maintains the investments in the general account. These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value, which is an approximate determination of fair value for the contract as reported to the Plan by AUL and MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As fair value approximates contract value on these benefit responsive contracts, no adjustment to net assets available for benefits is considered necessary. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract values.

American United Life Insurance Contracts – These are common/collective trusts which invest primarily in diversified portfolios of insurance company contracts. The contracts are as follows:

- For insurance contract #B01416 fixed fund, the average yield was 1.50% for 2014 and 2013, and the crediting interest rate as of December 31, 2014 and 2013 was 1.50%.
- For insurance contract #G62325 fixed fund, the average yield was 1.50% for 2014 and 2013, and the crediting interest rate as of December 31, 2014 and 2013 was 1.50%.

The MassMutual Retirement Plan Group Contract – This is a common/collective trust which invests primarily in a diversified portfolio of insurance company contracts. The contracts are as follows:

- For insurance contract #080120 fixed fund, the average yield was 4.00% for 2014 and 2013, and the crediting interest rate as of December 31, 2014 and 2013 was 4.00%.
- For insurance contract #082157 fixed fund, the average yield was 4.00% for 2014 and 2013, and the crediting interest rate as of December 31, 2014 and 2013 was 4.00%.
- For insurance contract #082483 fixed fund, the average yield was 4.00% for 2014 and 2013, and the crediting interest rate as of December 31, 2014 and 2013 was 4.00%.

VAN WERT COUNTY HOSPITAL TAX DEFERRED 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

Crediting interest rates are determined by dividing earned income for the day by the new contract value. On December 31, 2014 and 2013, fair value approximates contract value and there are no valuation reserves.

Certain events limit the ability of the Plan to transact at contract value with AUL and MassMutual. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The group annuity investment contracts can be terminated by either the plan sponsor, AUL, or MassMutual by providing thirty (30) days written notice to the other party.

5. INCOME TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedures 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, as of the date the financial statements were available to be issued, there were no audits for any tax periods in progress. Management believes it is no longer subject to income tax examinations for years prior to 2012.

6. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments and shares of mutual funds are managed by AUL and MassMutual. AUL and MassMutual are the trustees of the Plan. Blue & Co., LLC serves as the Plan's auditors. These transactions qualify as party-in-interest transactions.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.
