Note 1 – Description of Plan

The following brief description of the Saucon Valley Country Club Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

The Plan is a defined contribution pension plan established on October 1, 1994. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). All employees of Saucon Valley Country Club (the “Club”) who have been employed for one year during which they worked at least 1,000 hours, and are age eighteen or older, are eligible to participate in the Plan.

During December 2014, the Club merged the Plan into one that is sponsored by the Club Managers Association of America and managed by Great West Financial Retirement Services (“Great West”), thus the Plan ceased to exist effective December 26, 2014.

Participants’ accounts

Each participant’s account was credited with the (a) participant’s contribution, (b) allocations of the Club’s contribution, and (c) Plan earnings net of an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant is entitled was the benefit that could be provided from the participant’s vested account.

Contributions

Participants could contribute a percentage of their compensation subject to certain limitations set by the Internal Revenue Code. At its discretion, the Club contributed 3.5% of each eligible participant’s compensation to the Plan.

The Plan allowed for rollover contributions from other qualified plans.

Vesting

Participants were immediately vested in all contributions plus actual earnings thereon.

Investment options

Each participant could direct their investment accounts in a limited number of Principal Life Insurance Company’s affiliated investment options. The assets of the Plan, both employee and employer, were allocated to the applicable funds at the direction of the participant.

RETIREMENT PLAN**

Note 1 – Description of Plan (continued)

Loans receivable from participants

Under the terms of the Plan, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lower of \$50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at the prime rate. All outstanding loans receivable from participants were transferred out of the Plan at December 26, 2014.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments as was further outlined in the Plan document. For termination of services due to other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of significant accounting policies

Basis of accounting

The Plan's financial statements are prepared using the accrual basis of accounting, except for the cash basis recording of benefits paid.

Investment valuation and income recognition

The Plan's investments were reported at fair value. Registered investment companies were valued at quoted market prices, which are based on the net asset value of shares held by the Plan.

The Plan's investments in Pooled Separate Accounts were stated at fair value for each fund, which was determined by a third-party service organization that valued the underlying investments held by the Trustee on a daily basis. The investments in the Guaranteed Interest Account have been determined to be not fully benefit-responsive contracts as defined by *Financial Accounting Standards* and as a result were reflected at fair value, which is calculated as the value when discounting the contract less the contractually defined discontinuance charges.

Realized and unrealized gains and losses from the assets in each account were credited to or charged against each account.

Purchases and sales of securities were recorded on a trade-date basis. Interest and dividends were recorded when received.

RETIREMENT PLAN**

**Notes to Financial Statements (continued)
December 26, 2014**

Note 2 – Summary of significant accounting policies (continued)

Investment valuation and income recognition (continued)

Management fees and operating expenses charged to the Plan for investments were deducted from individual investments and were not reflected separately. Consequently, management fees and operating expenses were reflected as a reduction of return for such investments.

Payment of benefits

Benefit payments to participants or their beneficiaries were recorded when paid.

Contributions

Contributions from participants were recorded as they were withheld from the participants' wages.

Loans receivable from participants

Loans receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and expensed when they were incurred. No allowance for credit losses were recorded as of December 26, 2014 or December 31, 2013.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from these estimates.

Subsequent events

The Plan has evaluated events and transactions for potential recognition or disclosure through October 1, 2015, which is the date the financial statements were available to be issued.

Note 3 – Investments

Fair value measurements

The Plan reported its investments under the Financial Accounting Standards fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy under this standard are as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets.
- Level 2 – Quoted prices for identical assets in markets that are not active, quoted prices for similar assets in active markets, inputs other than quoted market prices, and inputs derived principally from observable market data.
- Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The Plan's investment assets totaling \$3,956,039 were transferred out of the Plan to Great West on December 26, 2014.

The following table sets forth, by level within the fair value hierarchy, the Plan's investment assets at fair value on December 31, 2013:

Note 5 – Tax status

The Internal Revenue Service has determined that the Plan, as designed, was in compliance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator believed that the Plan was designed, and operated in compliance with the applicable provisions of the IRC until it ceased to exist through merger into another plan on December 26, 2014. Accordingly, the accompanying financial statements do not include a provision for income tax. The Plan's Form 5500 for 2011 and forward is subject to review by the appropriate regulatory authorities.

Note 6 – Information certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 26, 2014 and December 31, 2013 and the related investment activity reflected in the statement of changes in net assets available for benefits for the period January 1, 2014 to December 26, 2014.
