KPH HEALTHCARE SERVICES, INC. EMPLOYEE STOCK OWNERSHIP AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan

KPH Healthcare Services, Inc. (the "Company") Employee Stock Ownership and 401(k) Plan (the "Plan") is an employee stock ownership plan as defined by Section 4975(e)(7) of the Internal Revenue Code. The Plan includes a 401(k) provision allowing employee elective contributions.

The Plan was effective January 1, 1984, and is subject to the provisions outlined in the original plan document and all subsequent amendments to that document. It is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description provides only general information. Additional information about the Plan is contained in the pamphlet, "KPH Healthcare Services, Inc. Employee Stock Ownership and 401(k) Plan Summary Plan Description". Copies of this pamphlet are available from the trustees of the Plan.

In April 2008, the plan sponsor repurchased essentially all of its outstanding common stock and the Plan became the sole shareholder of KPH Healthcare Services, Inc. stock. In order to finance this purchase, the Plan entered into a $39,741,219 term loan agreement with the Company that was used to purchase 441,569 shares of common stock (see Note 6). As the Plan makes payments of interest and principal, an appropriate percentage of this stock is allocated to eligible employee accounts in accordance with applicable regulations under the Internal Revenue Code.

Term loan payable to the Company is collateralized by the unallocated shares of stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan present separately, the assets and liabilities and changes therein pertaining to (a) the accounts of employees with vested rights in allocated stock; and (b) stock not yet allocated to the employees.

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any share for which a participant has not given instructions.

Plan year - The Plan maintains a fiscal year ending December 31.

Eligibility - The Plan has separate entry dates for elective employee contributions and employer contributions. Employees are eligible to make elective contributions beginning on their date of hire, provided they are twenty-one years of age. For employer contributions, the Plan covers all employees of the Company who have completed one year of service of at least 1,000 hours and attained age twenty-one. Eligible employees begin participating in employer contributions to the Plan as of the first day of the fourth, seventh or tenth month or the first day of the plan year after meeting the eligibility requirements. The Plan now allows for automatic enrollment into the Plan for all eligible employees. Once an employee is eligible for the Plan, they are automatically set up to begin making elective contributions of 4% of their annual compensation to the 401(k) plan unless they specifically elect not to participate.

Contributions - The Company is obligated to make contributions to the Plan, which when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. The Plan also requires mandatory Safe Harbor contributions, which can be used to satisfy principal and interest payments. The Company may make profit sharing contributions to the Plan, which are discretionary and are determined annually by the Company. The Plan also includes a 401(k) provision, which allows participants to contribute up to 97% of their annual compensation on a pre-tax or post-tax basis to the Plan. Annual participant contributions are limited to amounts as specified in the Internal Revenue Code. The Company can make discretionary matching contributions on an annual basis. The Company made Safe Harbor and additional discretionary contributions of $7,298,559 and $8,389,937 for years ended December 31, 2014 and 2013, respectively.

Vesting - Participants are not vested in employer matching and profit sharing contributions until after completion of three years of service, at which time they become fully vested. Participants are fully vested in Safe Harbor contributions.

Investment options - Upon enrollment in the Plan, a participant may direct employee contributions into shares of registered investment companies. The registered investment companies represent a variety of equity and income funds with both domestic and foreign investments. Participants can change their investment allocation on a daily basis. Company discretionary and matching contributions are invested by the Custodian to the extent possible and deemed advisable by the trustee, in the Company's stock.

Allocation of profit sharing contributions and earnings - Profit sharing contributions are allocated to active participants' accounts in proportion to participants' compensation. Earnings on plan assets are allocated to participants' accounts in proportion to the participant's account value.

Forfeitures - When a participant is terminated, any amounts in the participant's account in which the participant is not vested are forfeited. Forfeitures for any plan year shall be credited towards the employer contribution for such year. Unused forfeitures were $44,239 and $32,892 as of December 31, 2014 and 2013, respectively.

Payment of benefits - Upon termination of employment, a participant will receive their vested account balance in a lump sum payment. In conjunction with the stock repurchase described above, all shares of KPH Healthcare Services, Inc. stock held by participants at March 31, 2008, will be redeemed at the greater of $90 per share or the stock's fair market value through April of 2015.

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes and interest thereon shall be repaid over a period not to exceed five years. The notes are collateralized by the balance in the participant's account and bear interest at a rate commensurate with the prime rate plus one percent (4.25% as of December 31, 2014).

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes for participants who are actively participating in the Plan and have not continued to make payments on outstanding notes as required under the program. Deemed distributions amounted to $153,614 and $92,675 for the years ended December 31, 2014 and 2013, respectively, and are included in distributions to plan participants.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to receive a distribution or move part of the value of their investment in company stock into investments, which are more diversified. Participants, who are at least age fifty-five with at least ten years of participation in the Plan, may elect to diversify a portion of their account. Upon meeting certain conditions, a participant may diversify up to 50% of the number of shares allocated to his or her account, less any shares previously diversified.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all participants will become fully vested and their remaining account balances will be paid out to them.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting.

Investment valuation and income recognition - The Plan's investments consist of common stock of KPH Healthcare Services, Inc. and registered investment companies. Investments are recorded at fair value (Note 7) except for the Federated Capital Preservation Fund, which in accordance with Financial Accounting Standards Board (FASB) guidance, is stated at contract value. The change in the difference between the fair value and the cost of investments is included in net appreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits. Net appreciation also includes realized gains or losses from the sale of investments.

The Federated Capital Preservation Fund is stated according to the FASB authoritative guidance on reporting of fully benefit-responsive investment contracts, which states that contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the accompanying statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The accompanying statements of changes in net assets available for benefits are prepared on a contract value basis. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. If an event occurs that may impair the ability of the contract issuer to perform in accordance with the

contract terms, fair value may be less than contract value. The average yield utilized was 1.64% and 1.21% for the Federated Capital Preservation Fund and the crediting interest rate to the funds was 1.45% and 1.17% for the years ended December 31, 2014 and 2013, respectively.

Financial instruments, economic dependency and concentration of credit risk - A significant portion of the Plan's assets are common stock of KPH Healthcare Services, Inc. or receivables from KPH Healthcare Services, Inc. Accordingly, the Plan is dependent upon the financial condition of KPH Healthcare Services, Inc.

Administrative costs - The Company pays certain legal and accounting fees of the Plan. Those expenses not paid by the Company, including investment and administrative expenses, are paid by the Plan. Administrative expenses of $368,631 and $339,023 for the years ended December 31, 2014 and 2013, respectively, were paid by the Plan to the Plan's Custodian, Hand Benefits & Trust Company, and to the Custodian's affiliate, Benefit Plan Administrators, which are considered to be exempt party-in-interest transactions.

Participant notes receivable - Participant notes receivable are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed forty-five days from the date of the most recent payment and, based on the assessment of credit worthiness, estimates the portion, if any, of the balance that will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectable participant notes receivable become material.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in a combination of mutual funds and common stock of KPH Healthcare Services, Inc. Investment options are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Amendments - The Plan has been amended effective January 1, 2014, to include an increase in the maximum deferral percentage to 8% for automatic enrollment in the Plan. Further, the Plan was amended effective April 1, 2014, to change the name of the Plan to the KPH Healthcare Services, Inc. Employee Stock Ownership and 401(k) Plan.

Subsequent events - Management has evaluated subsequent events through September 15, 2015, the date that the financial statements were available to be issued.

KPH Healthcare Services, Inc. stock is also the only non-participant directed investment, as all of the employer contributions are invested in KPH Healthcare Services, Inc. stock.

Note 4 - Registered investment companies

The Plan has investments in mutual funds of registered investment companies through the Custodian of the Plan, Hand Benefits & Trust Company. The Plan does not individually hold shares of the mutual funds, but rather its holdings are part of a large investment pool held by Hand Benefits & Trust Company. These mutual funds include equity and income funds with both domestic and foreign investments. These funds earn interest and income based on market performance. These investments are subject to normal market risk.

The following information was not subjected to any auditing procedures, as the information was certified by Hand Benefits & Trust Company as complete and accurate as permitted by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Information included in the statements of net assets available for benefits:

	December 31,	
	2014	2013
Shares of registered investment companies and assets at contract value	$ 76,729,910	$ 66,435,544

Information included in the statements of changes in net assets available for benefits:

	December 31,	
	2014	2013
Net appreciation from investments in registered investment companies	$ 5,292,470	$ 11,505,157

Note 5 - Income tax status

The Internal Revenue Service has ruled that the Plan, as amended, qualifies under Section 401(a) of the Internal Revenue Code (IRC) and is therefore not subject to tax under present income tax laws. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The management of the Company and the plan trustees are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

In accordance with FASB guidance related to income taxes and tax-exempt entities, the Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses, if such amounts arise. The Plan did not incur any penalties and interest for the years ended December 31, 2014 and 2013. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2011.

Note 6 - Term loans payable

In April 2008, the Plan entered into a $39,741,219 loan agreement with the Company that was used to purchase 441,569 shares of stock from shareholders. The loan will be repaid by the ESOP in monthly principal instalments of $110,392 plus interest at 5%. Repayment will be based on amounts required to make Safe Harbor contributions to the Plan. Shares will be released annually, based on the total amount of loan repayments. The loan has a thirty-year term and can be prepaid without penalty. The balance of the loan was $22,524,368 and $23,849,072 at December 31, 2014 and 2013, respectively.

The Plan held 248,133 and 267,329 shares of unallocated common stock at December 31, 2014 and 2013, respectively. The Plan released 19,196 and 19,707 shares for allocation based on the principal and interest payments made on the term loan for the years ended December 31, 2014 and 2013, respectively.

Note 7 - Fair value of investments

The FASB has published authoritative guidance on fair value measurements, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three Levels of the fair value hierarchy under the authoritative guidance are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Company has determined the fair value of certain assets and liabilities through application of FASB authoritative guidance relating to the accounting for fair value measurements. Financial assets and liabilities valued using Level 1 inputs are based on unadjusted quoted market prices within active markets (registered investment companies). Financial assets and liabilities valued using Level 2 inputs are based primarily on quoted prices for similar assets or liabilities in active or inactive markets (Capital Preservation Fund). For the term loan payable, the fair value, which approximates the book value, was based on present value techniques using inputs derived principally or corroborated from market data. Financial assets and liabilities that use Level 3 inputs are primarily valued by valuation experts using externally developed models that consider unobserved market inputs (KPH Healthcare Services, Inc. common stock). Valuation techniques utilized to determine fair value are consistently applied.

The following table sets forth by Level within the fair value hierarchy, the Plan's assets at fair value:
