NOTE 1 – DESCRIPTION OF THE PLAN

The following description of California Products Corporation Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a contributory plan established January 1, 1987 for the purpose of providing an opportunity for retirement income and increased savings to the employees of California Products Corporation (the "Company") who meet the eligibility requirements. Plan assets acquired under this Plan as a result of employee contributions, investment income, Company discretionary matching contributions, Company discretionary profit-sharing contributions, and other additions to the Plan, will be administered for the exclusive benefit of the participants and their beneficiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Participants may elect to contribute an amount up to a certain percentage of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. In any Plan year, the Company may make discretionary matching or discretionary profit-sharing contributions in an amount determined by the Board of Directors. To be eligible for a Company discretionary profit-sharing contribution, a participant must have completed one year of service and be employed on the last day of the Plan year unless their termination of employment is due to retirement on or after age 65, disability, or death. Contributions are subject to certain limitations under the Internal Revenue Code (IRC).

Participant Accounts – Each participant's account is credited with the participant's contribution, allocations of the Company's discretionary matching contributions, discretionary profit-sharing contributions, and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately 100% vested in their voluntary contributions, rollover contributions, and the investment earnings thereon. Company discretionary matching contributions and discretionary profit-sharing contributions are subject to a vesting schedule based on the number of years of continuous service as follows:

Years of Service	Vested Percentage
1 year or less	0%
2	20%
3	40%
4	60%
5	100%

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Participants with account balances derived from non-elective employer contributions for plan years beginning prior to January 1, 2007 vest as follows:

Years of Service	Vested Percentage
Less than 5 years	0%
5 years	100%

Participants' interest in their accounts shall become 100% vested and non-forfeitable without regard to their credited years of service if they are employed by the Company on or after age 65, incur a permanent and total disability, or die while employed by the Company.

Forfeited Accounts – At December 31, 2014 and 2013, forfeited non-vested accounts totaled $156 and $6,213, respectively. These amounts are allocated to participants in the same manner as discretionary profit-sharing contributions. Forfeitures in the amount of $6,213 were reallocated to participants during 2014.

Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options as determined by the rules applicable to each investment.

Payment of Benefits – Benefits are payable in a lump sum payment upon normal retirement age (65), death, permanent disability, separation from service, or reasons of proven hardship. In any event, payment of benefits must commence when the participant reaches age 70½ or, if later, following the year they terminate employment. However, a five percent owner of the Company will be required to begin receiving minimum benefits from their account by April 1st following attainment of age 70½ regardless of whether they have terminated employment at that time. The Plan agreement contains a more complete description of these provisions and should be referred to by the participants.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or one-half of the participant's vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.00%. Principal and interest are paid ratably through payroll deductions.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP"), and are prepared using the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. The cost of investments is determined on the average cost basis in calculating realized gains or losses.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the actual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses – Administrative expenses, including legal, participant accounting, and other costs of administering the Plan, and all expenses directly relating to the investments are charged to and paid by the Plan unless paid by the Company.

Termination of the Plan – Although it has not expressed any intent to do so, the Company has the right to terminate the Plan. The Plan Administrator, upon termination, shall cause the assets of the Plan to be allocated for the purpose set forth and in the order of priorities established by ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Payment of Benefits – Benefits paid to participants are recorded when paid.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for doubtful credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reclassifications – Certain reclassifications, none of which affect net assets available for benefits, have been made to the 2013 financial statements to conform to the 2014 presentation.

NOTE 3 – TAX STATUS

The Plan adopted a prototype standardized profit sharing plan with Alliance Benefit Group who received a letter dated January 31, 2006 stating that the prototype plan is acceptable under Section 401 of the Internal Revenue Code (IRC) for use by the employers for the benefit of their employees. The Plan has not received a determination letter specific to the Plan itself, however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Uncertain Tax Positions – Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 4 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' securities account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 5 – INVESTMENTS

The following presents the fair value of investments that represent 5% or more of the Plan's net assets at December 31:

	2014		2013	
DFA US Large Company Institutional Index Portfolio	$ 2,024,632		$ 103,557	**

** Investment is less than five percent of Plan's net assets available for benefits in 2013.

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $114,418.

NOTE 6 – CERTIFICATION OF TRUSTEE

In accordance with Department of Labor Regulations, various information presented herein, was prepared from statements certified as being complete and accurate by the Plan's Trustee. Except for the employer's profit sharing contribution receivable and the participant notes receivable recognized in the statements of net assets available for benefits and the related impact on the statement of changes in net assets available for benefits, all information in the statements of net assets available for benefits, statement of changes in net assets available for benefits, and the schedule of assets (held at end of year) was derived from statements certified by the Plan's trustee.

NOTE 7 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the Internal Revenue Code of 1986 (the "IRC"), as amended.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets on the Form 5500 for the years ended December 31:

	2014	2013
Net assets available for benefits per the financial statements	$ 9,409,185	$ 8,538,042

NOTE 10 – LATE REMITTANCES

As reported on Form 5500, Schedule H, Line 4(a) – Schedule of Delinquent Participant Contributions, certain employee contributions during the 2014 Plan year totaling $70,638 were not remitted to the Plan within the period prescribed by Department of Labor regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the Company is in the process of correcting the affected participants' accounts to compensate those participants for potential lost income due to the delays for the 2014 Plan year.

NOTE 11 – SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2014, the date of the most recent statement of financial position, have been evaluated for possible adjustment to the financial statements or disclosure is October 9, 2015, which is the date the financial statements were available to be issued.
